

PRELIMINARY AUGUST 2002

PARCEL	LAND DESCRIPTION AND ACRES	COUNTY AND SURFACE MGMT	TOTAL RENTAL	MINIMUM BID
UT 001	T. 12 N., R. 6 E., SLM, Utah Sec. 2, lots 1-4, S2N2, E2SW, SE; Sec. 3, lots 1-3, S2NE, SENW; Sec. 5, E2SW, SWSW; Sec. 6, lots 6-12, SENW. 1,282.41 Acres	Rich Salt Lake	\$ 1,924.50	\$ 2,566.00

No occupancy or other surface disturbance in the E2SW, SWSW Sec. 5; lots 8, 11, and 12 Sec 6 will be allowed on slopes in excess of 30 percent, without written permission from the authorized officer of the Bureau of Land Management.

No occupancy or other surface disturbance will be allowed within 600 feet of the live water located in lots 8, 11, and 12 Sec. 6. This distance may be modified when specifically approved in writing by the authorized officer of the Bureau of Land Management.

The following stipulation applies to lots 1-3, S2NE, SENW; SWSW Sec. 3; SWSW Sec. 5; lots 8-12 Sec. 6:

In order to protect visual resources in Visual Resource Management (VRM) Class II and III areas, activities in these areas will be located and designed in a way to meet Class II and II management criteria. This limitation does not apply to maintenance and operation of producing wells. If the lessee can demonstrate that operations can take place without impact to the resource being protected, an exception to this stipulation may be granted if approved in writing by the authorized officer in consultation with the District's VRM specialist. For Class II areas, exemptions may be granted whereby changes due to the proposed action repeat the basic elements of form, line, color, and texture found in the predominant natural features of the characteristic landscape. For Class III areas, exemptions may be granted whereby changes due to the proposed action repeat the basic elements found in the predominant natural features of the characteristic landscape. This may be achieved through reclamation, topographic or vegetative screening, construction practices and use of non-reflective paints which blend into the viewscape for buildings, tanks, and pipelines.

PRELIMINARY AUGUST 2002

PARCEL	LAND DESCRIPTION AND ACRES	COUNTY AND SURFACE MGMT	TOTAL RENTAL	MINIMUM BID
UT 002	T. 12 N., R. 6 E., SLM, Utah Sec. 7, all; Sec. 8, lots 1-4, E2, NWNW, S2SW; Sec. 9, W2W2. 1,434.94 Acres	Rich Salt Lake	\$ 2,152.50	\$ 2,870.00

No occupancy or other surface disturbance will be allowed within 600 feet of live water located in the lots 5-8, NENE, S2SE Sec. 7. This distance may be modified when specifically approved in writing by the authorized officer of the Bureau of Land Management.

No occupancy or other surface disturbance in the lots 2-8, N2NE, E2W2, S2SE Sec. 7; Sec. 8; Sec. 9 will be allowed on slopes in excess of 30 percent, without written permission from the authorized officer of the Bureau of Land Management.

The following stipulation applies to lots 3, 5-8, N2NE, E2NW, S2SE Sec. 7; lots 1-4, NWNW, S2SW, W2SE Sec. 8:

In order to protect visual resources in Visual Resource Management (VRM) Class II and III areas, activities in these areas will be located and designed in a way to meet Class II and II management criteria. This limitation does not apply to maintenance and operation of producing wells. If the lessee can demonstrate that operations can take place without impact to the resource being protected, an exception to this stipulation may be granted if approved in writing by the authorized officer in consultation with the District's VRM specialist. For Class II areas, exemptions may be granted whereby changes due to the proposed action repeat the basic elements of form, line, color, and texture found in the predominant natural features of the characteristic landscape. For Class III areas, exemptions may be granted whereby changes due to the proposed action repeat the basic elements found in the predominant natural features of the characteristic landscape. This may be achieved through reclamation, topographic or vegetative screening, construction practices and use of non-reflective paints which blend into the viewscape for buildings, tanks, and pipelines.

PRELIMINARY AUGUST 2002

PARCEL	LAND DESCRIPTION AND ACRES	COUNTY AND SURFACE MGMT	TOTAL RENTAL	MINIMUM BID
UT 003	T. 12 N., R. 6 E., SLM, Utah Sec.10, lots 1-4, W2E2, E2NW, SWNW, SESE; Sec. 11, N2NE, NWSE, S2SE; Sec. 12, lot 1, NE, N2NW, SENW, S2SW, N2SE. 1,168.24 Acres	Rich Salt Lake	\$ 1,753.50	\$ 2,338.00

No occupancy or other surface disturbance will be allowed within 600 feet of the live water located in the lot 1, N2SE Sec 12. This distance may be modified when specifically approved in writing by the authorized officer of the Bureau of Land Management.

The following stipulation applies to NWNE, E2NW Sec. 10:

In order to protect visual resources in Visual Resource Management (VRM) Class II and III areas, activities in these areas will be located and designed in a way to meet Class II and II management criteria. This limitation does not apply to maintenance and operation of producing wells. If the lessee can demonstrate that operations can take place without impact to the resource being protected, an exception to this stipulation may be granted if approved in writing by the authorized officer in consultation with the District's VRM specialist. For Class II areas, exemptions may be granted whereby changes due to the proposed action repeat the basic elements of form, line, color, and texture found in the predominant natural features of the characteristic landscape. For Class III areas, exemptions may be granted whereby changes due to the proposed action repeat the basic elements found in the predominant natural features of the characteristic landscape. This may be achieved through redamation, topographic or vegetative screening, construction practices and use of non-reflective paints which blend into the viewscape for buildings, tanks, and pipelines.

PRELIMINARY AUGUST 2002

PARCEL	LAND DESCRIPTION AND ACRES	COUNTY AND SURFACE MGMT	TOTAL RENTAL	MINIMUM BID
UT 004	T. 12 N., R. 6 E., SLM, Utah Sec. 13, NWNE, S2NE, NW, N2SW, SESW, SE; Sec. 14, NE, W2SW, S2SE; Sec. 15, lots 1-7, N2NE, SENE, SE. 1,460.46 Acres	Rich Salt Lake	\$ 2,191.50	\$ 2,922.00

No occupancy or other surface disturbance will be allowed within 600 feet of the live water located in the SESE Sec. 13. This distance may be modified when specifically approved in writing by the authorized officer of the Bureau of Land Management.

In order to protect important sage grouse breeding and nesting habitat, exploration, drilling, and other development activity in the lots 4-7, SWSE Sec. 15 will be allowed only during the period from June 16 to February 28. This limitation does not apply to maintenance an operation of producing wells. There are no exceptions to this stipulation.

In order to protect important sage grouse winter habitat, exploration, drilling, and other development activity in the W2SW, S2SE Sec. 14; E2NE, SE Sec. 15 will be allowed only during the period from March 1 to November 30. This limitation does not apply to maintenance an operation of producing wells. Exceptions to this limitation in any year may be specifically approved in writing by the authorized officer of the Bureau of Land Management.

PRELIMINARY AUGUST 2002

PARCEL	LAND DESCRIPTION AND ACRES	COUNTY AND SURFACE MGMT	TOTAL RENTAL	MINIMUM BID
UT 005	T. 12 N., R. 6 E., SLM, Utah Sec. 17, N2, N2S2, SWSW, S2SE; Sec. 18, lots 1-4, E2, SENW, E2SW. 1,213.50 Acres	Rich Salt Lake	\$ 1,821.00	\$ 2,428.00

No occupancy or other surface disturbance will be allowed on slopes in excess of 30 percent, without written permission from the authorized officer of the Bureau of Land Management.

No occupancy or other surface disturbance will be allowed within 600 feet of the live water located in the lot 1, NWNW, SESW Sec. 18. This distance may be modified when specifically approved in writing by the authorized officer of the Bureau of Land Management.

In order to protect important sage grouse breeding and nesting habitat, exploration, drilling, and other development activity in the N2, N2S2, SWSW, S2SE Sec. 17; SENE, E2SE Sec. 18 will be allowed only during the period from June 16 to February 28. This limitation does not apply to maintenance an operation of producing wells. There are no exceptions to this stipulation.

The following stipulation applies to N2, N2S2, SWSW, S2SE Sec. 17; lots 1, 2, E2E2, SESW Sec. 18:

In order to protect visual resources in Visual Resource Management (VRM) Class II and III areas, activities in these areas will be located and designed in a way to meet Class II and II management criteria. This limitation does not apply to maintenance and operation of producing wells. If the lessee can demonstrate that operations can take place without impact to the resource being protected, an exception to this stipulation may be granted if approved in writing by the authorized officer in consultation with the District's VRM specialist. For Class II areas, exemptions may be granted whereby changes due to the proposed action repeat the basic elements of form, line, color, and texture found in the predominant natural features of the characteristic landscape. For Class III areas, exemptions may be granted whereby changes due to the proposed action repeat the basic elements found in the predominant natural features of the characteristic landscape. This may be achieved through reclamation, topographic or vegetative screening, construction practices and use of non-reflective paints which blend into the viewscape for buildings, tanks, and pipelines.

PRELIMINARY AUGUST 2002

PARCEL	LAND DESCRIPTION AND ACRES	COUNTY AND SURFACE MGMT	TOTAL RENTAL	MINIMUM BID
UT 006	T. 12 N., R. 6 E., SLM, Utah Sec. 19, lots 1-3, E2, E2NW, SESW; Sec. 20, all. 1,195.14 Acres	Rich Salt Lake	\$ 1,794.00	\$ 2,392.00

No occupancy or other surface disturbance will be allowed on slopes in excess of 30 percent, without written permission from the authorized officer of the Bureau of Land Management.

The following stipulation applies to lots 1-3, NENW, SESW, SE Sec. 19; S2 Sec. 20:

In order to protect visual resources in Visual Resource Management (VRM) Class II and III areas, activities in these areas will be located and designed in a way to meet Class II and II management criteria. This limitation does not apply to maintenance and operation of producing wells. If the lessee can demonstrate that operations can take place without impact to the resource being protected, an exception to this stipulation may be granted if approved in writing by the authorized officer in consultation with the District's VRM specialist. For Class II areas, exemptions may be granted whereby changes due to the proposed action repeat the basic elements of form, line, color, and texture found in the predominant natural features of the characteristic landscape. For Class III areas, exemptions may be granted whereby changes due to the proposed action repeat the basic elements found in the predominant natural features of the characteristic landscape. This may be achieved through reclamation, topographic or vegetative screening, construction practices and use of non-reflective paints which blend into the viewscape for buildings, tanks, and pipelines.

In order to protect important sage grouse breeding and nesting habitat, exploration, drilling, and other development activity in the lots 2, 3, E2, E2NW, SW, SESW Sec. 19; N2, SW, S2SE Sec. 20 will be allowed only during the period from June 16 to February 28. This limitation does not apply to maintenance and operation of producing wells. There are no exceptions to this stipulation.

PRELIMINARY AUGUST 2002

T 022	T. 3 S., R. 9 W., SLM, Utah Sec. 5, lots 2-4, SWNW, SW; Sec. 6, all. 961.77 Acres	Tooele Salt Lake	\$ 1,443.00	\$ 1,924.00

In order to protect crucial raptor nesting sites, exploration, drilling and other development activity within 0.5 mile radius of the sites located in the SWNW, SW Sec. 5; S2NE, E2SW, SE Sec. 6 will be allowed from July 16 to February 28, and not allowed from March 1 through July 15. This limitation does not apply to maintenance and operation of producing wells. Specific exceptions may be granted by the Bureau of Land Management (BLM) if the proposed activity will not seriously disturb wildlife habitat values being protected. This determination will be made by a BLM wildlife habitat biologist in coordination with the Utah Division of Wildlife Resources and, if appropriate, the United States Fish and Wildlife Service. Such a determination may be made if the raptor nest in question is not active at the time of proposed activity. Quite often raptors will have alternate nesting sites available. If a raptor pair is using such an alternative site, it would be necessary to protect the inactive nest from disturbing activities for fluid mineral leasing and exploration. However, it should be noted that all eagle nests, active or inactive, are protected by the Eagle Act and must be left intact and cannot be removed from their original location.

UT 023	T. 3 S., R. 9 W., SLM, Utah Sec. 7, all; Sec. 8, NW, N2SW. 878.24 Acres	Tooele Salt Lake	\$ 1,318.50	\$ 1,758.00
--------	--	---------------------	-------------	-------------

In order to protect crucial raptor nesting sites, exploration, drilling and other development activity within 0.5 mile radius of the sites located in the lots 1, 2, E2, E2W2 Sec. 7; NW, N2SW Sec. 8 will be allowed from July 16 to February 28, and not allowed from March 1 through July 15. This limitation does not apply to maintenance and operation of producing wells. Specific exceptions may be granted by the Bureau of Land Management (BLM) if the proposed activity will not seriously disturb wildlife habitat values being protected. This determination will be made by a BLM wildlife habitat biologist in coordination with the Utah Division of Wildlife Resources and, if appropriate, the United States Fish and Wildlife Service. Such a determination may be made if the raptor nest in question is not active at the time of proposed activity. Quite often raptors will have alternate nesting sites available. In order to protect seasonal wildlife, exploration, drilling, and other development activity in Sec. 21 will be allowed only during the period from May 15 to December 15. This limitation does not apply to maintenance and operation of producing wells. Exceptions to this limitation in any year may be specifically approved in writing by the authorized officer of the Bureau of Land Management.

PRELIMINARY AUGUST 2002

PARCEL	LAND DESCRIPTION AND ACRES	COUNTY AND SURFACE MGMT	TOTAL RENTAL	MINIMUM BID
UT 041	T. 11 S., R. 8 E., SLM, Utah Sec. 1, and 12, all. 1,220.08 Acres	Utah Salt Lake	\$ 1,831.50	\$ 2,442.00
UT 042	T. 15 S., R. 8 E., SLM, Utah Sec. 22, NW. 160.00 Acres	Carbon Price	\$ 240.00	\$ 320.00

In order to minimize watershed damage, exploration, drilling and other development activity in the NW Sec. 22 will be allowed only during the period from April 30 to November 1. This limitation does not apply to maintenance and operation of producing wells. Exceptions to this limitation in any year may be specifically approved in writing by the authorized officer of the Bureau of Land Management.

Construction of access roads and drill pads on slopes in excess of 30 percent will require special design standards to minimize watershed damage in the NW Sec. 22. Drilling operations and any associated construction activities on slopes in excess of 50 percent may require directional drilling to prevent damage to the watershed. Exceptions to the limitations may be specifically approved in writing by the authorized officer of the Bureau of Land Management.

UT 043	T. 14 S., R. 10 E., SLM, Utah Sec. 19, SENE, NESE; Sec. 29, S2SW. 160.00 Acres	Carbon Price	\$ 240.00	\$ 320.00

In order to protect Icelander Antelope Fawning area, exploration, drilling, and other development activity in the W2NE, W2, SE Sec. 21; W2 Sec. 27; Sec. 28 will be allowed only during the period from June 21 to May 14. This limitation does not apply to maintenance and operation of producing wells. Exceptions to this limitation in any year may be specifically approved in writing by the authorized officer of the Bureau of Land Management.

No occupancy or other surface disturbance will be allowed within 330 feet of the centerline or within the 100-year recurrence interval floodplain of the perennial stream E2 Sec. 21; W2W2 Sec. 27; E2NE Sec. 28. This distance may be modified when specifically approved in writing by the authorized officer of the Bureau of Land Management.

PRELIMINARY AUGUST 2002

PARCEL	LAND DESCRIPTION AND ACRES	COUNTY AND SURFACE MGMT	TOTAL RENTAL	MINIMUM BID
UT 045	T. 16 S., R. 13 E., SLM, Utah Secs. 4, 5, and 6, all. 2,330.00 Acres	Emery Price	\$ 3,495.00	\$ 4,640.00

No occupancy or other surface disturbance will be allowed within 330 feet of the centerline or within the 100-year recurrence interval floodplain of the perennial stream NWNW Sec. 4; portions of the E2 Sec. 5. This distance may be modified when specifically approved in writing by the authorized officer of the Bureau of Land Management.

Raptor surveys will be required whenever surface disturbances and/or occupancy proposed in association with oil/gas exploration occur within a known nesting complex for raptors located in the SW Sec. 5; Sec. 6. Field surveys will be conducted by the lessee/operator as determined by the authorized officer of the Bureau of Land Management. When surveys are required of the lessee/operator, the consultant hired must be found acceptable to the authorized officer prior to the field survey being conducted. Based on the result of the field survey, the authorized officer will determine appropriate buffer zones.

In order to protect antelope fawning, exploration, drilling, and other development activity will be allowed only during the period from June 21 to May 14. This limitation does not apply to maintenance and operation of producing wells. Exceptions to this limitation in any year may be specifically approved in writing by the authorized officer of the Bureau of Land Management.

UT 046	T. 16 S., R. 13 E., SLM, Utah Secs. 7, 8, and 9, all. 1,938.00 Acres	Emery Price	\$ 2,907.00	\$ 3,876.00
--------	--	----------------	-------------	-------------

No occupancy or other surface disturbance will be allowed within 330 feet of the centerline or within the 100-year recurrence interval floodplain of the perennial stream Icelander Creek located in portions of the NWNE, W2 Sec. 8. This distance may be modified when specifically approved in writing by the authorized officer of the Bureau of Land Management.

Raptor surveys will be required whenever surface disturbances and/or occupancy proposed in association with oil/gas exploration occur within a known nesting complex for raptors located in the N2, E2SW, SE Sec. 7; W2 Sec. 8. Field surveys will be conducted by the lessee/operator as determined by the authorized officer of the Bureau of Land Management. When surveys are required of the lessee/operator, the consultant hired must be found acceptable to the authorized officer prior to the field survey being conducted. Based on the result of the field survey, the authorized officer will determine appropriate buffer zones.

In order to protect antelope fawning, exploration, drilling, and other development activity will be allowed only during the period from June 21 to May 14. This limitation does not apply to maintenance and operation of producing wells. Exceptions to this limitation in any year may be specifically approved in writing by the authorized officer of the Bureau of Land Management.

NO SURFACE OCCUPANCY STIPULATION – GOLDEN EAGLE NEST SITES

No surface occupancy or use is allowed (does not apply to casual use) within ½ mile of golden eagle nests which have been active within the past two years. This restriction would not apply to maintenance and operation of existing programs and facilities. It would not apply if impacts could be mitigated through other management actions or site specific analysis of terrain features.

On the lands described below:

Sec. 10, S2SE.

For the purpose of:

Protection of golden nest sites as described in the Diamond Mountain Resource Management Plan and EIS. Waivers, exceptions, or modifications to this limitation may be specifically approved in writing by the authorized officer of the Bureau of Land Management if either the resource values change or the lessee/operator demonstrates that adverse impacts can be mitigated. Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.)

LEASE NOTICE – FERRUGINOUS HAWK HABITAT

The lessee/operator is given notice that lands in this lease have been identified as containing Ferruginous Hawk Habitat. Modifications to the Surface Use Plan of Operations may be required in order to protect the Ferruginous Hawk and/or Habitat from surface disturbing activities in accordance with Section 6 of the lease terms, Endangered Species Act, and 43 CFR 3101.1-2.

LEASE NOTICE – GOLDEN EAGLE HABITAT

The lessee/operator is given notice that lands in this lease have been identified as containing Golden Eagle Habitat. Modifications to the Surface Use Plan of Operations may be required in order to protect the Golden Eagle and/or habitat from surface disturbing activities in accordance with Section 6 of the lease terms, Endangered Species Act, and 43 CFR 3101.1-2.

PRELIMINARY AUGUST 2002

PARCEL	LAND DESCRIPTION AND ACRES	COUNTY AND SURFACE MGMT	TOTAL RENTAL	MINIMUM BID
UT 052	T. 26 S., R. 17 E., SLM, Utah Sec. 7, SENE, SESW, SE; Sec. 8, N2NE, W2; Sec. 17, W2NW, NWSW; Sec. 18, all. 1,380.00 Acres	Emery Price	\$ 2,070.00	\$ 2,760.00

A lease for the above parcel will be subject to powersite stipulation on Form 3730-1.

*This was Parcel No. UT-062 on March 2002 sale list.

The following stipulation applies to SESE, portions of the S2SENE, E2W2SE, NESE Sec. 7; N2NE, E2NWM SW, portions of the W2NW Sec. 8; W2NW, NW SW Sec. 17; E2E2, E2E2, portions of the W2E2, S2S2SW Sec. 18.

UNCONDITIONAL NO SURFACE OCCUPANCY: No occupancy or other activity on the surface is allowed in this area.

The following stipulation applies to E2, N2NW, SWNW Sec. 7; E2NW Sec. 8; portions of the W2W2E2, E2E2W2 Sec. 18.

CRITICAL SOILS: The area has critical soil erosion conditions. New roads will be constructed to avoid critical soils where possible. New roads will be constructed with water bars. Riprap may be required. Road grades in excess of 10 percent will not normally be allowed. In special circumstances, where a road grade of more than 10 percent is allowed, its maximum length will be 1,000 feet. Access grading, exploration, drilling or other activities will be prohibited during wet or muddy periods. Cross-country travel will be allowed only when soils are dry or frozen. BLM will determine what is wet, muddy or frozen. The limitation does not apply to maintenance and operation of existing wells.

Construction and development are to be avoided on slopes in excess of 6 percent. Operations will be located to reduce erosion and improve the opportunity for revegetation within critical soils areas. Reclamation on sites with critical soils will require grading using slopes of 5 percent or less where possible and grading the site so as to collect water for revegetation on-site.

The following stipulation applies to portions of the E2 Sec. 7; portions of the NW, Sec. 8; portions of the W2E2, portions of the E2W2, S2SW Sec. 18.

VISUAL RESOURCE MANAGEMENT (VRM) CLASS II: The area has high quality visual resources. Exploration, drilling and other development or production activities must meet the objectives of VRM Class II.

PRELIMINARY AUGUST 2002

PARCEL	LAND DESCRIPTION AND ACRES	COUNTY AND SURFACE MGMT	TOTAL RENTAL	MINIMUM BID
UT 053	T. 10 S., R. 18 E., SLM, Utah Sec. 21, NESW; Sec. 28, NWNW; Sec. 29, SWNE; Sec. 31, SESE. 160.00 Acres	Uintah Vernal	\$ 240.00	\$ 320.00

**CONTROLLED SURFACE USE STIPULATION
RED MOUNTAIN - DRY FORK COMPLEX
CRITICAL SOILS, MUNICIPAL WATERSHEDS, FLOODPLAINS**

Surface occupancy or use is subject to the following special operating constraints.

Preclude surface disturbing activities in areas of critical soils (highly saline and/or erodible), municipal watersheds and floodplains during times of saturated soils (usually Spring runoff and Fall rains).

On the lands described below:

Sec. 29, SWNE.

For the purpose of:

Preserving and protecting critical soils, floodplains, and municipal watershed from severe erosion as described in the Diamond Mountain Resource Management Plan and EIS. Waivers, exceptions, or modifications to this limitation may be specifically approved in writing by the authorized officer of the Bureau of Land Management if either the resource values change or the lessee/operator demonstrates that adverse impacts can be mitigated. Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.)

LEASE NOTICE GOLDEN EAGLE HABITAT

The lessee/operator is given notice that lands in NWNW Sec. 28; SWNE Sec. 29 have been identified as containing Golden Eagle Habitat. Modifications to the Surface Use Plan of Operations may be required in order to protect the Golden Eagle and/or habitat from surface disturbing activities in accordance with Section 6 of the lease terms, Endangered Species Act, and 43 CFR 3101.1-2.

UT 054	T. 15 S., R. 21 E., SLM, Utah Sec. 28, SW, SESE; Sec. 33, NW, N2SE. 440.00 Acres	Uintah Vernal	\$ 660.00	\$ 880.00

Advisory Notice: This advisory applies to that part of the parcel below the Hatch Point Rim that is within habitat for desert bighorn and may be subject to additional restrictions to protect desert bighorn if the animals are found to be using the area.

The lessee is informed that the lands in this lease are within a sensitive, high use recreation area, and will require special attention to prevent undue damage to the scenic and recreational values. Measures such as natural or artificial screening, painting, of all production facilities to blend with the landscape, special rehabilitation requirements, or other similar practices will be required as necessary by the Bureau of Land Management.

No drilling May 1 through December 31 to reduce visual impacts during high recreational use periods, and to protect bighorn sheep during rutting season.

A one-half mile undisturbed buffered area from the cliff edge will be provided for the protection of visual resources, raptors, bighorn sheep, and their habitats.

A one-mile buffer will be provided for peregrine falcon nest sites.

All proposed actions will meet VRM Class II objectives.

The following stipulations were added based on U.S. Fish and Wildlife Service comments:

Surveys for active and inactive raptor nests will be conducted prior to the oil and gas drilling operation.

Species-specific spatial and seasonal buffers will be provided for all active raptor nests.

Surveys for active and inactive raptor nests will be conducted prior to the oil and gas drilling operation.

Species-specific spatial and seasonal buffers will be provided for all active raptor nests.

*This was Parcel No. UT-121 on March 2002 sale list

PRELIMINARY AUGUST 2002

PARCEL	LAND DESCRIPTION AND ACRES	COUNTY AND SURFACE MGMT	TOTAL RENTAL	MINIMUM BID
UT 057	T. 29 S., R. 21 E., SLM, Utah Sec. 34, S2SW, SWSE. 120.00 Acres	San Juan Monticello	\$ 180.00	\$ 240.00

Advisory Notice: This advisory applies to that part of the parcel below the Hatch Point Rim that is within habitat for desert bighorn and may be subject to additional restrictions to protect desert bighorn if the animals are found to be using the area.

The lessee is informed that the lands in this lease are within a sensitive, high use recreation area, and will require special attention to prevent undue damage to the scenic and recreational values. Measures such as natural or artificial screening, painting, of all production facilities to blend with the landscape, special rehabilitation requirements, or other similar practices will be required as necessary by the Bureau of Land Management.

No drilling May 1 through December 31 to reduce visual impacts during high recreational use periods, and to protect bighorn sheep during rutting season.

A one-half mile undisturbed buffered area from the cliff edge will be provided for the protection of visual resources, raptors, bighorn sheep, and their habitats.

A one-mile buffer will be provided for peregrine falcon nest sites.

All proposed actions will meet VRM Class II objectives.

The following stipulations were added based on U.S. Fish and Wildlife Service comments:

Surveys for active and inactive raptor nests will be conducted prior to the oil and gas drilling operation.

Species-specific spatial and seasonal buffers will be provided for all active raptor nests.

*This was Parcel No. UT-122 on March 2002 sale list

PRELIMINARY AUGUST 2002

PARCEL	LAND DESCRIPTION AND ACRES	COUNTY AND SURFACE MGMT	TOTAL RENTAL	MINIMUM BID
UT 058	T. 16 S., R. 23 E., SLM, Utah Sec. 22, SW; Sec. 29, E2NE; Sec. 34, W2SE, SESE. 360.00 Acres	Grand Moab	\$ 540.00	\$ 720.00

In order to minimize watershed damage, exploration, drilling, and other development activity will be allowed only during the period from April 30 to November 1. This limitation does not apply to maintenance and operation of producing wells. Exceptions to this limitation in any year may be specifically approved in writing by the authorized officer of the Bureau of Land Management.

The lessee is informed that the floodplain portions of the lease area require special attention to prevent damage to surface resources and contamination to the Colorado River system. Any surface use within such areas will be strictly controlled or restricted where not essential for operations. Appropriate modifications to imposed restrictions will be made for maintenance and operations of producing oil and gas wells.

Construction of access roads and drill pads on slopes in excess of 30 percent will require special design standards to minimize watershed damage. Drilling operations and any associated construction activities on slopes in excess of 50 percent may require directional drilling to prevent damage to the watershed. Exceptions to these limitations may be specifically approved in writing by the authorized officer of the Bureau of Land Management.

PRELIMINARY AUGUST 2002

PARCEL	LAND DESCRIPTION AND ACRES	COUNTY AND SURFACE MGMT	TOTAL RENTAL	MINIMUM BID
T 059	T. 32 S., R. 23 E., SLM, Utah Secs. 8, 9, and 10, all. 1,920.00 Acres	San Juan Moab	\$ 2,880.00	\$ 3,840.00

The following stip applies to NWNE, NW, W2SW, portions of the NENE, SWNE, E2SW, NWSE Sec. 8:

CRUCIAL DEER WINTER RANGE: Closed to surface use during the crucial winter use, December 15 to April 30. This seasonal condition would not affect maintenance, and operation activities for production.

The authorized officer may grant exception on a case by case basis if it can be shown that:

- (1) Legal rights would be curtailed;
- (2) The animals are not present in a specific project location or;
- (3) The activity can be conducted so as not to adversely affect the animals.

Off-site mitigation may be required when unreclaimed disturbance caused by activity totals more than ten acres in two years. The off-site mitigation must be within the known habitat, but not necessarily within the crucial habitat area. Off-site mitigation will include seeding or planting vegetation favorable to deer. Revegetation must be established within five years after project completion. Revegetation must be with species palatable to deer and will be deemed successful when seedlings are established and tending towards the density that existed before the surface was disturbed.
