BOOK A-157

Salt Lake Meridian.

April 15th 1878.

General Description

The Surveyed part of this Tp. embraces the Extreme S. end of the East fork of the Senier Valley. It can readily be irrigated from Senier river, or from Munroe City creek, situated in the Tp. immediately North, The unsurveyed portion falls in high barren Mountains which are not available, A Settlement is being made in Sec. 18,

Augustus D. Ferron.
U. S. Deputy Surveyor.

FIELD NOTES

OF

THE SURVEY OF THE

Subdivision Lines

of Township No 25 S. , *Range No* 4 W

of the Salt Lake Meridian in Utah Territory.

BY

Augustus D. Ferrin,

U. S. DEPUTY SURVEYOR,

Under his Contract No. 79

dated August 27 1877.

Survey commenced April 17th 1878.

Survey completed April 20th 1878.

Subdivision of Sec. 25 T. 8 N. R. 4 W.
Salt Lake Meridian. &c.

Notes. Survey Commenced, April 17th 1876.

Note; A portion of this Township was returned as Surveyed in 1856. by Deputy Surveyor Charles Mogo, After diligent search found that no trace of the old corner existed, It therefore became necessary to Re-survey some of the lines which I have done confining myself to such lines as were actually necessary for the extension of the Survey.

From the Standard Corner to Secs. 35 & 36, on the 5th Standard Parallel South, Run, North between Secs. 35 & 36, Var. 16° E.

36.00 N.E. point of ridge & Spur.
40.00 Set limestone 16 x 10 x 8. Min. dug,

Note: On Account of high broken Mountains I abandon further Survey of this Township,

General Description.

The additional land embraced in this Township consists of the bottoms and benches along Bear creek and Senior river; the greater part of Joseph City, a flourishing settlement of about 300 inhabitants, besides many minor settlements.

scattered along the river;
The re-surveyed portion
embraces some interesting
features not noticed in the
Original notes of the Survey
Viz: Several mineral Springs
in Sec. 23, also several in
Sec. 24, and 1 in Sec. 13,
The Springs contain, to Judge
from appearances, Iron ore
and sulphur, as principal
ingredients and are of
different grades of temper-
=ature, most of the land along
the river is under cultivation,

Augustus D. Ferron,
U.S. Deputy Surveyor.

General Description

The Surveyed lands in this Township embrace the South parts of Antelope and Long Valleys- They can be irrigated from the Sevier River but at considerable expense, but at time of Survey a Company had already been organized in the neighboring settlement of Monroe to construct the necessary Canals &c.

The land is of good quality and it's natural vegitation is grass & white sage.

Augustus D. Terrell
Dep. Sur.

May 14th 1878.

Note; on account of high mountains I abandon further survey of this Township.

General Description

The surveyed portion of this Township consists of bottoms along North Creek, most of which are under cultivation, and adjacent high timber benches. These latter can also be irrigated from North Creek, but it would require considerable labor and expense.

They are chiefly valuable for as

195 Subdivisions T. 28 S. R. 6 W.

May 8th 1878.

BOOK-A-157

Jack Lake Meridian

General Description

The South part of the Surveyed portion of this Tp. embraces mostly good bottoms & benches, suitable for Cultivation, Wild Cat Creek runs through Secs. 23, 26, 27, 33 & 34, Indian creek runs through Sec. 35, These creeks with proper Management will furnish all the water needed for successful Cultivation, The N.W. part of the Survey is Mountainous covered with fine bunch grass, The slopes which are not too steep are sufficiently moist for cultivation without irrigation, The unsurveyed portion falls in broken, rocky ridges, which are not available, Settlements have been made in Sec. 33, & 35.

A. O. Fenn,
U. S. Deputy Surveyor.

OF

THE SURVEY OF THE

Subdivision Lines

of Township No 28 S. , Range No 7 W.

of the Salt Lake Meridian in Utah Territory.

BY

Augustus D. Farnum

U. S. DEPUTY SURVEYOR,

Under his Contract No. 79.

dated August 27th 1877.

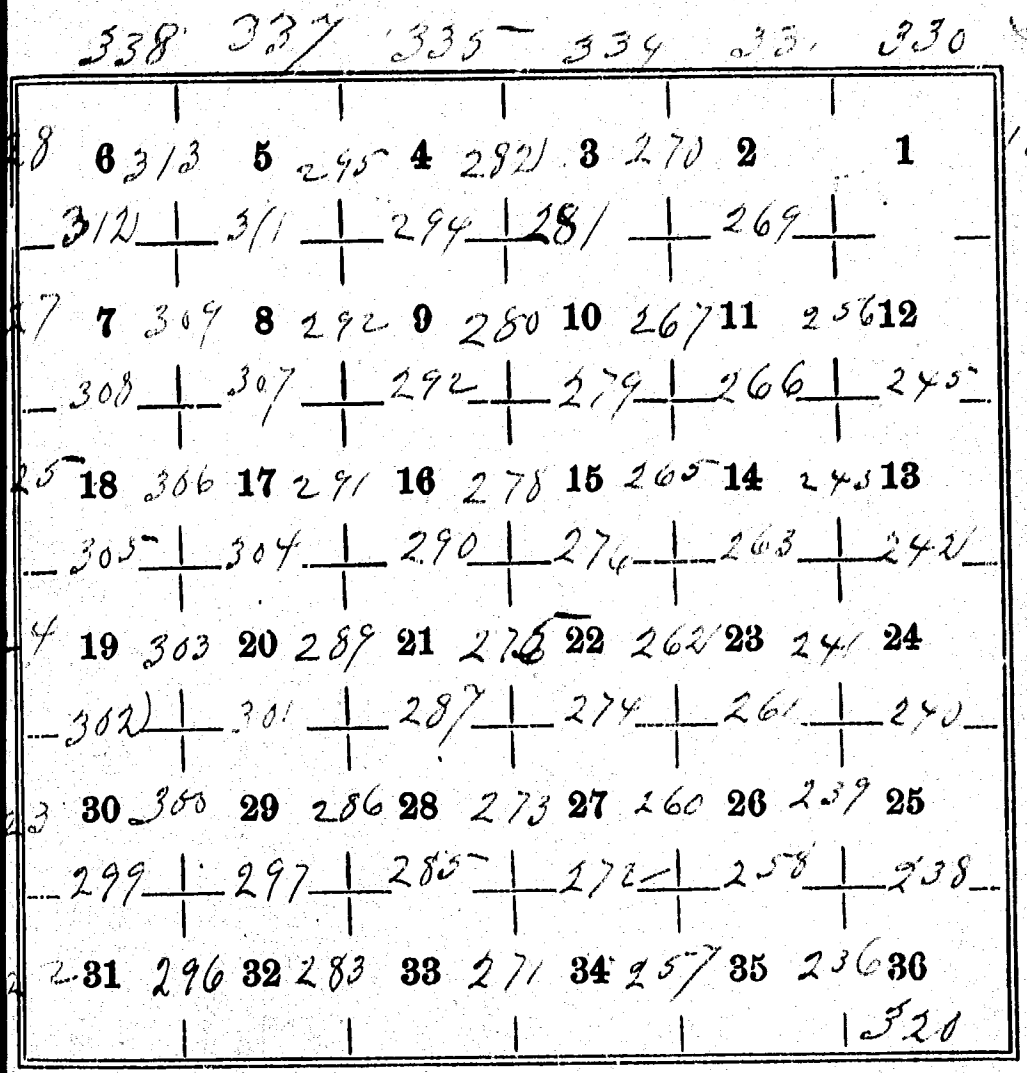
Survey commenced April 24th 1878

Survey completed " 29 1878.

BOOK-A-157

Exterior Boundaries and Subdivisions

Township 28 S. R. 7 W.



Subdivision T. 28 S. R. 7 W.
Salt Lake Meridian Vol. 6
BOOK-A-157
Lines Survey Commenced April 24th 1878

Beginning at the Cor. to Secs. 35 & 36 on South Boundary of Tp., established by Julian Bauman Dep. Sur. said Cor. agreeing with the description furnished me by the office - Viz:- a cobble stone 17 x 6 x 5.

Lines North but Secs. 35 & 36.

Var. 15° 45' E.

1.50 Road bears N.E. & S.W.

10.00 Road bears E. & W.

11.15 Fence bears E. & W.

Enter plowed land.

16.40 Ditch fence bears N.E. & S.W.

17.30 Ditch bears N.E. & S.W.

18.65 North bank K, 30 lks. wide, 18 in. deep, runs S.W.

25.60 William Harpers Cabin 25 lks. W.

27.00 Ditch bears N.E. & S.W.

Subdivisions T. 28 S. R. 7 W.

Chains.	
28.50	Road bears N.E. & S.W.
40.00	Set Trachyte 16x8x8 = 11 in. above ground, marked 1/4 on W. side, with stone mound for 1/4 Sec. Cor.
46.00	Fence bears E. & W.
	Entertainer hills.
8.00	Set Trachyte 17x9x7 - 11 in. above ground, marked 1, notch on S. & E. edges, with stone mound for Cor. to Secs. 25, 26, 35 & 36. from which,
	Cedar 5 in. dia. bears N. 2° E. 32 links dist, marked S. 25 = T 28 S. R. 7 W. B.T.
	Cedar 7 in. dia. bears N. 15° W. 36 links dist, marked S. 26 - B.T.
	Cedar 5 in. dia. bears S. 40° E. 29 links dist, marked S. 36. B.T.
	Lands S'ly level, N'ly mountainous.
	Soil 1st rate.
	Timber pine & cedar of commercial value on N. 34 chs.

BOOK-A-157

Salt Lake Meridian

Chains	
	Eastern boundary line bet. Secs. 25 & 36.
	W. 15° 45' E.
40.00	Set temporary 1/4 Sec. Cor.
71.36	Three beans N.E. & S.W. Enter Cultivated bottom, leave timber.
76.00	Road bears N.E. & S.W.
80.96	Intersect Guide Meridian 70 lks. S. of Cor. to Secs. 25 & 36, from which S. 89° 30' W. on the line bet. Secs. 25 & 36.
40.48	Set bachylite 11x8x1-7/8 in. deep, marked 1/4 on N. side, with stone mound for 1/4 Sec. Cor. from which Cedar 7 in. dia. bears S. 89° E. 21 lks. dist. Cedar 6 in. dia. bears N. 50 W. 90 lks. dist. both marked 1/4 S. B.Y.
80.96	The Cor. to Secs. 25, 26, 35 & 36. Land mostly broken hills. Soil 2nd rate. Timber-pine cedar & juniper. Cal. variation W. 17.36 chs.

Subdivisions T. 28 S. R. 7 W.

Chains	
	North bet secs. 25 & 26 -
	Va 15° 45' E.
1.65 -	Road bears NE & SW
17.75 -	Forks of timber road bears NE, E & S.
40.00	Set quartzite 16x7x4 - 11 in. deep,
	marked 11 on W. side, with stone
	mound for 11 Sec. Cor. from which
	Cedar 8 in dia. bears S. 70° E. 29 lks. dis.
	Cedar 4 in dia. bears S 60° W. 17 lks. dis.
	both marked 11 S. 13 T.
52.50	Ravine drains W.
72.75 -	Ravine drains W.
80.00	Set Quartzite 15x8x7 - 10 in deep,
	marked 2 notches on S. & 1 on E edges
	with stone mound for Cor. to Secs.
	23, 24, 25 & 26, from which
	Cedar 3 in dia. bears N. 25° E. 38 lks. dis.
	marked S. 24 13 T.
	Cedar 4 in dia. bears S. 10° E. 6 lks. dis.
	marked S. 25. T. 28 S. R. 7 W. 13 T.
	Cedar 2 in dia. bears S. 50° W. 76 lks. dis.

Subdivision T. 28 S. R. 7 W.

Timber, pine cedar of commercial value on 79.74 Chs

April 29th 18[illegible]

General Description.

The land in this Township embraces about 4,500 acres of first rate bottom land of which 1,800 acres are situated on Wild Cat Creek, 2,000 acres on Indian Creek, and 700 acres on North Creek. most of the latter is already under cultivation, and the greater part of that situated on Indian Creek, as well as a small portion on Wild Cat Creek. Besides this there are about 3,700 acres of bench land suitable for cultivation, which

BOOK-A-157

Salt Lake Meridian

can be irrigated from Indian and Mark Creeks. The rest (between 14 and 15,000 acres) is mostly timbered land, and consists of a higher Bench or Plateau and several dissected low Ridges, covered for the most part with a dense growth of pine cedar, suitable for general building & fencing purposes, for which it is being extensively used by the inhabitants of this & the adjoining Townships.

Settlements have been made in Secs. 2, 4, 21, 28, 29, 32, 35 and 36,

The greater part of Secs. 25 and 36, the E. part of Secs. 27 & 34 and the N. part of 35 and 36, which lie in the high plateau above described can also be brought under water, although with

considerable labor expense, from one of the forks of Nor[th] Creek.

Wild Oat, Indian and North Creeks are mountain streams varying considerably according to the seasons in the volume of water they carry. But it is my opinion that by a judicious system of irrigation with reservoirs, for which the topographical features furnish excellent facilities, there is sufficient water for all the available land in the Townships.

J. D. Farrer
Esq. Surv[r]

General Description.

The Surveyed portion of this Tp. embraces about
2,000 Acres of land which can be irrigated
from Wild Cat Creek, The North portion is
also suitable for cultivation, but cannot be
irrigated. It is mostly covered with fine
Grass making it suitable for dairy purposes.
The greater part of the Tp. is covered with a
dense growth of pine & cedar which is being
Extensively used for fencing & building purposes in adjoining Tps.

Augustus D. Ferron
U.S. Deputy Surveyor.

General Description.

The additional land embraced in this T.p. consists of good bottoms and benches most of which can be irrigated from Indian & Wild Cat Creeks and Bear River. Some of the bottoms have already been under cultivation. The N.W. corner of the T.p. contains some groves of cedar & pine of commercial value.

Augustus O. Ferris
Dep. Sur.
