General Description.

The land embraced in this Township is mountainous and flat. The soil is principally clay, gravel & rocky, and is covered with a dense growth of underbrush. There are some scattering cedars in the Western portion. Edwin S. Squires the applicant for survey is settled in Sec 2, His improvements consist of a stone rock & log house of 5 rooms, with board roof & floor, 7 doors & 8 windows. 900 Rods of cedar post and barb wire fence, and 40 acres under cultivation. Geo R Judd, is settled in Sec 11 his improvements consist of a stone house 30 x 20 ft. Shingle roof

2 doors, 4 windows
frame stable 24x20 ft
and 5 acres of land
under cultivation

General Description.

The land contracted in this T.P. is of many, every variety, from volcanic mountains to table, bench and rich bottom soil, also Sage Br, Shadscale, Greasewood, Cactus and Willows. Bottoms is principally a rich, sandy loam, classed as 1st. pat, and will produce most kinds of grain, vegetables and fruit, with irrigation as set on the benches, and table lands, for grazing purposes and may be classed as 2nd rate.

Pine and aspen timber are to be found in nearly every sec. in greater or less quantities. Limestone is plentiful in various portions of this T.P.

It is also well watered with numerous springs and creeks, namely Duck, Shutney, Swamp

BOOK-A-21

Subdivisions T. 38 S. R. 1 W.

Morris and Willis creeks.

There is one settler in sec. 7, 21, 28, 26 and 34 having corrals and land cultivated as meadow. Their business being principally stock raising.

The deponent John Heaton is living in N.W. ¼ of sec. 24 and has about 60 acres in meadow in N.W. and N.E. ¼ of sec. 24

There are large flocks of sheep grazing on the T.S. in summer.

Salt Lake Meridian

Preliminary to commencing this survey, I run West on a blank line on the South Boundary of Sec. 36. and at 40.05 chs. found the 1/4 Sec. cor. and at 80.06 chs found the Sec. cor.

My compass will therefore run the same line as the Exterior Boundaries and the chaining practically agrees.

Survey Commenced July 6 1895 with a Burts improved Solar Compass, Examined and approved by the Surveyor General

Commenced at the cor. to Secs. 35 and 36 on the S. Boundary of the Tp. which is a Limestone 15 x 10 x 7 in above ground firmly set marked with 3 notch on E and S on W Edges from which a Cottonwood 7 in. dia. bears N 84° E. 45 lks. dist. marked

July 5th 1885

General Description

The land embraced in
this Township is of nearly
every variety from rocky
mountains to rich bottom.
The soil along "Virgin Creek"
"Scanio Creek" & "Hoyt Dairy
Canyon" is principally a
rich loam. It is classed
as 1st Rate.
The greater part of the
Twp is covered with an
abundant growth of
Sage Brush.
Pine, aspen & balsam
timber is to be found.

in almost every section
in more or less quantities
Limestone is to be found
in various portions of the
J. Bowers the applicant
survey is settled in the
¼ of Sec. 13. His improvements
consist of a log house 20 x 27 ft.
2 doors 4 windows, cellar, corral
abutance of land broke
a steam saw mill.
A W Esplin is settled in Sec
36, and has a house, corral
some land under cultivation
J Harris is in Sec 26, he
has 2 houses, corral, etc
& c and some land under
cultivation
A Bee is settled in Sec 8
has a house, corral, outhouses
some land broke.

Soil 2nd rate sandy
Surface undulating
July. 20. 1886

General Description

The lands surveyed in
townships consist of mos
of valley surrounding Ra
Lake and of low bluff
in the N.W. part and a
low hill in sec. 8. They
are covered with dense
oaks, rabbit brush & gr
wood, except close to
the Lake where the lan
are mostly bare or
covered with thin sedg
grass. There is no tim
in this township.
There are 2 settlers hou
in it while two more
have land under
cultivation.

General Descript

The lands surveyed
under this contract, em
part of Rush and
Tooele Valleys and
adjoining foothills.
Most of it is covered
dense sagebrush, sa
brush or greasewood,
there are a few scrub c
in the foothills. The s
of the level portion is
mostly fine clay b
there is very little sa
for irrigating.
In sec. 24 is the town o
Stockton located, sa
consists of about 50 h
scattered here and the
In the N.E. part of sai
are the Cemetary
of C.E. Mc Cornick
In sec 25 is the farm

in sec.
has co
track
The Uta
runs th
and
Termin
of sec
of the
few sc
cedar

has about 115 ac under cultivation with dwelling house. granary, sheds, irrigation ditches & fencing In the S.W. part of sec. 32. & E. part sec. 33. in the form of Hold. The improvements consist of fencing, ditching sheds. 2 cabin, 1 barn & 2 story adobe dwelling house.

Since the old survey of 1856 the Lake has changed considerable as can be seen in sec. 33. where the same has covered quite a track land.

The Utah Nevada Railway runs through sec. 1. & 12. and has its ~~station~~ Terminus in N.E. part of sec 12. In the N. part of the township are a few scattering cedar.

[3.—PRELIMINARY OATH OF AXEMEN.]

We, George Ewing
Joseph Jackson
solemnly swear that we will well and truly
form the duties of axemen, in the establish-
nt of corners and other duties, according to
ructions given us, and to the best of our skill
d ability, in the survey of the Meridian
ownship & Subdivision lines
ubraced in Contract No 147
located in Tps 4 & 5 S R 5 W

the Salt Lake base and meridian in the Terri-
ry of Utah.

Witnes George his Ewing mark, Axeman.
Evans Joseph Jackson, Axeman.

Subscribed and sworn to before me this 27
day of July 1886

Edward H. Fuller
U. S. dep. Surv.

General Description.

The lands surveyed under this Contract are mostly mountains and are situated in the middle part of Tp. 4 S R 5 W.
The south side of same are steep, rocky with hills & ravines. Timber appears in patches and is mostly scrub cedar.
The northern part of same is partly covered with fine grass, but little timber. All the timber is mostly young growth

Subdivision (fractional)

as the old trees have been
cut by the settlers.
There are no springs
in this part. It is used
for herding cattle, horses
& sheep.

General Description

The lands embraced in this meander are the adjoining lands of Rock Lake. The soil is mostly first class and produces a fine crop except close to the Lake when the ground is [illegible]

of Saleratus and will n
produce any thing but
such grass.
The Northern & eastern part
mostly all claimed by
settlers and others
Commencing on the N. p
there is in Sec 23. the Waterm
smelting works owned by
T. P. Parcor consisting of
smelter, office, boarding ho
stable & sheds, and a canal
from the works to the lake
Several years ago the Lake
was clear up to the wo
and I saw an affida
from Mr. Parcor to that
effect. and another on
of C. E. Mitchner to show
just the opposite. From
both affidavit can be
seen that Lake changes
very much according to
snow & rainfall in winte

are about 14 families living and adjoins this part to the town of Stockton.

Murbrough's dwelling house is situated in NE¼ of NE¼ sec. 26. same has about 80 acres under fence, of which part has been cultivated. adjoining him on the South is a track of land claimed and fenced by W. Brooks on the SE¼ & NE¼ of same sec. is the dwelling house barn, shed corrals and fields of W. Wilson. The same has about 65 acres under cultivation.

In Sec. 35. is Slaytown is situated, which consist of only a few houses. which are owned by A. N. Young & R. Quigley. Besides these there are the Chicago Building works, barn, blacking

houses, office, &c. located
in sec. 33. & part of the S.
farm located, consisting
consists of, 2 stories adobe
dwelling house, 3 cabins,
barn sheds stabling, all
part of the fence and meadow
adjoining the Lake and all
fenced under water.
I annex an affidavit
that shows that when the
Holt build the fence the
water was not so far as
it is to day.
The lands of the Western
part of the reservation
are mostly covered with
dense sagebrush and rough
of it full of the mountain
