The foregoing is a true copy of field notes (Book No 3) returned to this Office by Chas. Mogo, Oct 10" 1859

S.C. Stambaugh,
Surveyor General U.T.

x x x x x

West Boundary.

Township 19 S. Range 6 W.

Chains	
	Begin at the corner to Townships 19 and 20 South, Ranges 6 and 7 West, from which corner I run North on true line between sections 31 and 36.
	Var. 16°,10'E.
5.00	Leave cedars bears E. and W.
40.00	Set post in mound for ¼ sec. cor.
80.00	Set post in mound for corner to sections 25.30.31 and 36.
	Bench land, soil sandy, 2d rate.
	North on true line between sections 25 and 30.
	Var. 16° 15' E.
40.00	Set post in mound for ¼ sec. cor.
45.00	Ravine bears E. and W.
48.15	Road bears N.W. and S.E.
80.00	Set post in mound for corner to sections 19. 24. 25 and 30.
	Land rolling, soil sandy, 2nd rate.
	North on true line between sections 19 and 24.
	Var. 16°15'E.
40.00	Set post in mound for ¼ sec. cor.
80.00	Set post in mound for corner to sections 13.18.19 and 24.
	Level soil sandy 2nd rate

West Boundary.

Township 19 S. Range 6 W.

Chains	
	North on true line between sections 13 and 18.
	Var. 16° 15'E.
40.00	Set post in mound for ¼ sec.cor.
80.00	Set post in mound for corner to sections 7.12.13 and 18.
	Level bench land, soil 1st rate.
	North on true line between sections 7 and 12.
	Var. 16°20'E.
40.00	Set post in mound for ¼ sec. cor.
41.00	Mud flat bears E. and W.
80.00	Set post in mound for corner to sections 1, 6, 7 and 12.
	Generally level, South ½ sandy soil;
	North half alkali and mud flat;
	Soil 2d rate.
	North on true line between sections 1 and 6.
	Var. 16°.20'E.
40.00	Set post in mound for ¼ sec. cor.
79.75	Old road from Fillmore to Deseret bears N.W. and S.E.
80.00	Set post in mound for corner to Townships 18 and 19 S. Ranges 6 and 7 W.
	Level mud flat, considerable alkali,
	soil 2d rate.

North Boundary.

Township 19 S. Range 6 W.

Chains	
	From the corner to Townships 18 and 19 South, Ranges 6 and 7 West, I run East on a random line on the south boundaries of sections 31. 32. 33. 34. 35 and 36.
	Var. 16° 15' E
	I set temporary half mile and mile posts at every 40 and 80 chains and at 6 miles 3 chains and 10 links to a point 2 chains and 90 links South of the corner to Townships 18 and 19 South, Ranges 5 and 6 West.
	Therefore the correction will be 3 chs. and 10 links West, and 48 2/6 links North per mile.
	I find the corner post standing to wit: "A post in mound."
	S. 89°. 39' W. on true line between sections 1 and 36.
	Var. 16° 10' E.
40.00	Set post in mound for ¼ sec. cor.
80.00	Set post in mound for corner to sections 1. 2. 35 and 36.
	Land level, soil sandy, 2d rate.
	S. 89° 39' W. on true line between sections 2 and 35.
	Var. 16° 10' E.
40.00	Set lava stone 16x8x5 for ¼ sec.cor.
80.00	Set lava stone 18x9x5 for corner to sections 2.3. 34 and 35.
	Gently rolling lava ridges, soil 2d rate.
	S. 89° 39' W. on true line between sections 3 and 34.
	Var.16°10'E.

North Boundary.

Township 19 S. Range 6 W.

Chains.	
40.00	Set lava stone 18x12x4 for ¼ sec. cor.
80.00	Set post in mound for corner to sections 3.4.33 and 34.
	Gently rolling sand and lava ridges. soil 2d rate.
	S. 89° 39' W. on true line between sections 4 and 33. Var.16°,10'E.
40.00	Set lava stone 24x9x4 for ¼ sec. cor.
80.00	Set post in mound for corner to sections 4,5,32 and 33.
	Rolling sand and lava ridges, soil 2d rate.
	S. 89°,39' W. on true line between sections 5 and 32. Var. 16° 10'E.
	Mud flat bears N. and S.
40.00	Set post in mound for ¼ sec. cor.
80.00	Set post in mound for corner to sections 5,6,31 and 32.
	East part rolling lava ridges, soil rocky. West part mud flat, soil 2d rate.
	S. 89°,39' W. on true line between sections 6 and 31 Var. 16°,10'E.
40.00	Set post in mound for ¼ sec. cor.
63.00	Road from Deseret bears N.W. and S.E.
83.10	The corner to Townships 18 and 19 S. Ranges 6 and 7 W.
	Level mud flat, soil 2d rate. May 9,1871.

North Boundary.

Township 19 S. Range 6 W.

General Description.

The Northern portion of this Township is totally unfit for agricultural purposes. The soil is rocky, and contains a large amount of alkali. Near the center there is a volcanic mountain probably 500 feet high. The soil is very sandy and is also unfit for cultivation.

Therefore it should not be subdivided.

U. S. Surveyor General's Office,
Salt Lake City, Utah.
February 15, 1872.

I certify that the foregoing transcript of the field notes of the survey of the West and North Boundaries of Township nineteen south, Range six west of the Salt Lake Meridian in the Territory of Utah, has been correctly copied from the original notes on file in this office.

C. C. Clements,
Surveyor General.

Description.

The land in this Township is moderately good. The grass on it is good, but there is no water.

The foregoing is a true copy of field notes (Book 21) returned to this office by Chas. Mogo, Oct. 10th 1859.

S. C. Stambaugh,

Surveyor General, U.T.

Department of the Interior
General Land Office
January 14, 1903.

I hereby certify that the foregoing field notes have been correctly copied from the official field notes on file in this office.

W. A. Richards

Assistant Commissioner.

Preliminary Oaths of Assistants.

We, James M. Lentz, James Holdaway, Douglas Swan Jr. & Owen A. Smoot and do solemnly swear that we will well and faithfully execute the duties of chainmen; that we will level the chain upon even and uneven ground, and plumb the tally pins either by sticking or dropping the same; that we will report the true distance to all notable objects, and the true lengths of all lines that we assist in measuring, to the best of our skill and ability, and in accordance with instructions given us in the survey of the W. boundary of T. 25 S. R. 1 W.; N. & W. bdys. T. 25 S. R. 2 W.; E. bdy. T. 25 S. R. 3 W.; S. & E. bdy. T. 24 S. R. 2 W.; N. bdy. T. 23 & 24 S. R. 1 W. & the N. & E. bdys. of Ts. 28 & 29 S.; R. 6 W. of the Salt Lake Base & Meridian, Utah

James M. Lentz — James Holdaway, Chainman.

Douglas Swan Jr. — Owen A. Smoot, Chainman.

Subscribed and sworn to before me this 31st day of May, 1897.

George D. Swan
U.S. Deputy Surveyor

SEAL

We, James M. Lentz and James Holdaway do solemnly swear that we will well and truly perform the duties of moundmen in the establishment of corners, according to the instructions given us, to the best of our skill and ability, in the survey of the W. bdy. West boundary of T. 25 S., R. 1 W.

Survey Commenced June 1st 1897 and executed with a W. & L. E. Gurley transit Number with Saegmuller solar attachment. The horizontal limb is provided with one vernier, reading to single minutes of arc, which is also the least count of the vernier of the vertical arc.

The instrument was examined, tested on the true meridian at Salt Lake City, found correct, and was approved by the Surveyor General for Utah. May 26th 1897.

We examine the adjustments of the transit and find them correct; then, to test the solar apparatus by comparing its indications, resulting from solar observations made during A.M. and P.M. hours, with a true meridian determined by observation on Polaris We proceed as follows;

June 1st; At the Standard Cor. of T. 25 S., Rs. 1 and 2 W. Lat. 38°36' N., long. 112°00 W. at 5 h. 2 m. P. M., L.M.T. We set off 38°36' N on Lat. arc; 22°13' N. on Decl. arc; and determine with the solar a true meridian; and mark a point thereof on a stone set firmly in the ground 5 chs. N. of the cor.

June 1st 1897.

June 2nd. at 2 h. 40 m. A.M., L.M.T., We observe Polaris at eastern elongation in accordance with Manual of instructions, and mark a point on the line thus determined on a plug driven in the ground 5 chains N. of the cor.

West boundary of T. 25 S., R. 1 W. - Continued.

June 2nd 6 h. 0 m. a. m., l. m. t., We lay off the azimuth of Polaris 1° 35' to the West and mark the True Meridian thus determined by cutting a small groove in the stone set June 1st, on which the true Meridian falls on the mark determined by the solar.

At 7 h. 0 m. a. m., l. m. t., We set off 38° 36' on lat. arc; 22° 8' N. on decl. arc; and determine a true Meridian with the solar, which falls on the mark determined by the Polaris observation.

The solar apparatus, by p. m. and a. m. observations defines the position for true meridian the same as the true meridian established by the Polaris observation; therefore, We conclude the adjustments of the instrument are correct.

From numerous observations taken We find the magnetic needle to be totally unreliable and from other indications conclude the country contains large quantities of iron ore.

We begin at the Standard Cor. of T. 25 S., Rs. 1 and 2 W., Which is a trachyte stone 10 x 16 x 12 ins. above ground. Marked as described by the Surveyor General.

Thence We run

N. on a random line bet. Secs. 31 and 36

40.00 Set temp. 1/4 sec. cor.

80.00 Set temp. cor. for secs. 25, 30, 31 and 36.

120.00 Set temp. 1/4 sec. cor.

159.05 Intersect E. and W. line 92 lks. E. of the Cor. of secs. 19, 24, 25 and 30. Which is

chains.	
	a trachyte stone. 8 x 13 x 10 ins. above the ground., marked as described by the Surveyor General, an old land mill site is near this cor. and much timber is cut away. Witness tree has been obliterated. We rebuild the mound of stone 3 ft. base, 2 ft. high, W. of cor.
	Thence West
	S. 0° 20' E. on a true line bet. secs. 25 and 30. ascending through heavy pine timber.
36.00	Enter level flat.
39.05	Set a trachyte stone 14 x 10 x 6 ins. 10 ins. in the ground for 1/4 sec. cor. marked 1/4 on W. face, raised a mound of stone 3 ft. base, 2 ft. high W. of cor. Pits impracticable. Bears pine 8 ins. in diam. bears W. 6 lks dist. Marked 1/4 S. 25 T.
55.90	Bottom of slope, begin ascending through scattering aspen.

70.90	Begin descending along W. slope of mountain. over rocky soil.
79.05	Set a trachyte stone 18 x 10 x 6 ins. 12 ins. in the ground for cor. of secs. 25, 30, 31 and 36. Marked with 5 notches on the N. and 1 notch on the S. edges. raised a mound of stone 3 ft. base, 2 ft. high W. of cor. Pits impracticable. From which an aspen 6 ins. in diam. bears W. 8 lks. dist. Marked T-25 S. R. 2 W. S. 25. on N 536 on S. B. T.
	An aspen 8 ins. in diam. bears E. 9 lks. dist. Marked T-25-S., R. 1 W. S. 31 on S and 30 on N. B. T.
	Land, mountainous.
	Soil, loam 3rd stone 2nd and 4th rate
	Timber, heavy pine and aspen.
	Mountainous land and heavily timbered 79.05 chs.

West boundary of T. 25 S. R. 1 W. Concluded.

Chains	
	S. 0°30' E. on a true line bet. secs. 31 & 36.
	Ascending through pine and aspen timber.
9.50	Top of ridge bears E. and W. leave pine timber.
10.00	Begin descending.
27.00	Blackyte ledges, bears E. and W.
30.00	Bottom of ravine, 200 ft. deep, course W.
40.00	Set a blackyte stone 16 x 10 x 8 ins. 11 ins. in the ground. for 1/4 sec. cor. Marked 1/4 on W. face. raised a mound of stone 2 ft. base 2 ft. high. W. of cor. Pits impracticable. From which an aspen 6 ins. in diam. bears E. 16 lks. dist. marked 1/4 S.B.T. a pine 10 ins. in diam bears W. 5 lks. dist. Marked 1/4 S.B.T.
	Enter pine and fallen timber bearing N. 88° E.
56.00	Bottom of ravine 40 ft. deep, course W. begin steep ascent.
63.00	Top of ridge 280 ft. high, bears W. along nearly level rocky ridge on top of mountain.
80.00	The Standard cor. of T. 25 S. R. 1 and 2 W. on the 5th Standard parallel South.

June 2nd. At this cor. We set off 22° 18' N. on decl. arc; and at 11 h. 58 m. a. m., l. m. t. observe the sun on the Meridian; the resulting lat. is 38° 36' N.

Land, mountainous.

Soil, rocky loam 3rd rate.

Timber, heavy pine and aspen.

Mountainous land. 80.00 chs.

June 2nd 1897.

Retracement of E. bdy. of T. 25 S., R. 1 W.

For retracement of W. bdy. see Subdivisions.

Exterior boundaries of this Tp. do not close within limits.

Therefore We retrace as follows.

June 11th 97. At 4 p. M. L. mt. We set off 38° 41' N on lat. acc; 22° 34' on dep acc; and determine a true meridian with the Solar. at the cor. of T. 2 N and 25 S. Rs. 1 E and 1 W.

Thence We run

40.00 South on a random line bet secs 1 & 6 after diligent search no old 1/16 sec. cor. can be found.

84.70 We find the cor. of Secs. 1, 6, 7 & 12 E. 4.61 chs. W. which is a Hachy'd stone 8 x 9 x 7 ins above ground marked with one notch on N and 5 on the S. edges; mound of stone.

The course of this line is therefore S. 3° 0' E. dist 84.37 chs.

This brings the closing cor within limits, therefore we discontinue retracement.

OFFICE OF THE UNITED STATES SURVEYOR GENERAL,

Salt Lake City, Utah, May 26th, 1899

The foregoing field notes of the survey of the West Boundary of Township No. 25 South, Range No. 1 West of the Salt Lake Base & Meridian, Utah

executed by Hubert D. Page and George C. Swann under his contract No. 209, dated December 26, 1896, having been critically examined, and the necessary corrections and explanations made, the said field notes, and the surveys they describe, are hereby approved.

Jacob F. Bean

United States Surveyor General.

I certify that the foregoing transcript of the field notes of the above-described surveys in _____, has been correctly copied from the original notes on file in this office.

Retracement of Subdivisions of T. 25 S., R. 1 W.

Chains.

Survey commenced June 1st 1897, and executed with a W. & L. E. Gurley light mountain transit, No. 30, with solar attachment, the horizontal limb is provided with two double Verniers placed opposite to each other, reading to single minutes of arc, which is also the least count of the Verniers of the lat. and decl. arcs.

The instrument was examined, tested on the true meridian at Salt Lake City, found correct, and was approved by the Surveyor General for Utah. May 26th 1897.

We examine the adjustments of the transit and find them correct; then, to test the solar apparatus by comparing its indications resulting from solar observations made during a.m. and p.m. hours, with a true meridian determined by observation on Polaris, We proceed as follows: At the standard cor. of secs. 33 and 34, on the 5th standard parallel in T. 25 S., R. 1 W. In lat. 38° 36' N. Long. 111° 57' W: We set off 38° 36' on lat. arc; 22° 13' 11" on decl. arc; and at 5 h. 0 m. p.m., l. m. t., determine with the solar a true meridian, and mark a point thereof, on a stone firmly set in the ground 5 chs. N. of the corner.

June 1st 1897.

June 2nd at 2h 40m a.m. l. m. t. We observe Polaris at eastern elongation, in accordance with manual.

of instructions, and mark a point in the line thus determined on a plug driven in the ground 5 chs. N. of the cor.

At 6h. 10m. a.m. l.m.t., I/C lay off the azimuth of Polaris, 1°35' to the W. and mark the True meridian, thus determined; by cutting a small grove in the stone set June 1st. on which the true Meridian falls on the mark determined by the solar.

At 7h. 0m. a.m. l.m.t., I/C set off 38°36' on lat. arc; 72°18' N. on dec. arc; and determine a true meridian with the solar, which falls on the mark determined by the Polaris observation; therefore, I/C conclude the adjustments of the instrument are correct.

The magnetic bearing of the true meridian at 7h. 30m. a.m. is N. 15°00' W. the angle thus determined reduced by the table Page 100. of the manual gives the mean magnetic dec. 14°56' E.

After taking numerous readings I/C conclude the magnetic needle is unreliable. due to large quantities of iron ore.

Preliminary to commencing the subdivision of this T., I/C run E. on a blank line on the S. boundary of sec. 34. on the 5th standard parallel; at 40.00 chs. I/C search diligently and can find no trace of old

1/4 sec. cor.
and at 80.00 chs. W.E find the cor. of secs. 34 and 35. N. 1.81 chs. dist;
Which is a trachyte stone 8 x 6 x 6 ins. above ground, firmly set, and marked and witnessed as described by the surveyor general.
The course of this line is therefore N. 88°42' E. dist. 80.18 chs.
Therefor, We continue our retracement.
Thence We run N. bet. secs. 34 and 35. 40.00 chs. after dilligent search no old 1/4 cor. can be found at 80.30 W.E find the cor. of Secs. 26, 27, 34 and 35. W. 1.50 chs. dist. Which is a trachyte Stone 8 x 6 x 5 ins. above the ground, firmly set, and marked with 2 notches on the E. and 1 notch on the S. edges. with a mound of stone W. of cor; The course of this line is therefor N. 1°04' W. dist 80.31 chs.
Thence We run N. bet. secs. 26 and 27., 40.00 chs. after dilligent search no old 1/4 cor. can be found. at 80.30 chs. We find the Cor.s of secs. 22, 23, 26 and 27. W. 1.75 chs dist. which is a trachyte stone 8 x 10 x 6 ins. above ground, firmly set, and marked with 2 notches on the E. and 2 notches on the S. edges.
The course of this line is therefor E. N. 1°15' W. dist 80.37 chs.
Thence We run W. on blank line. bet. secs. 22 and 27.
40.00 chs. after dilligent search no old 1/4 sec. cor. can be found.
65.00 chs. after dilligent search no Witness

Retracement of subdivision of T. 25 S., R. 17 W., continued.

Cor. can be found.
80.00 chs. Set temp. sec. cor.
Thence we run N. on a blank line
bet. secs. 21 and 22.
40.00 chs. After dilligent search no
old 1/4 sec. cor. can be found.
77.94 chs. We find the cor. of secs.
15, 16, 21 and 22. W. 53 lks. dist.
Thence We run N. on a blank line
bet. secs. 15 and 16. 40.00 chs. after
dilligent search no old 1/4 sec. cor.
can be found. and at 81.00 chs.
We find the cor. of secs. 9, 10, 15 and
16. W. 12 lks. dist. which is a trachyte
stone 8 x 10 x 6 ins. above ground.
marked 3 notches on the E. and 4
notches on the S. edges. We rebuild
mound of rocks 2 ft. base, 1½ ft.
high. W. of cor.
The course of this line is therefore,
N. 0° 5' W.
Thence We run W. on a blank line
bet. secs. 9 and 16. 40.00 chs. After
dilligent search no old 1/4 sec. cor.
can be found. and at 79.97 chs.
We find the cor. of secs. 8, 9, 16 and
17. S. 1.91 chs. dist. which is a trachyte
stone 6 x 4 x 9 ins. above ground, firmly
and marked as described
by the Surveyor General.
The course of this line is there-
fore. S. 88° 38' W. dist. 79.99
Thence We run W. on a blank
line bet. secs. 8 and 17. 40.00 chs after
dilligent search no old 1/4 sec. cor. can
be found. 80.00 chs. After dilligent
search no old sec. cor. can be found.
Set temp. sec. cor.
Thence We run S. on a blank
line bet. secs. 17 and 18. 40.00 chs.
After dilligent search no old 1/4 sec.

Retracement of Subdivision of T. 25 S., R. 17 E.- continued.

Cor. can be found, and at 81.97 chs. We find the cor. of secs. 17, 18, 19 and 20. E. 18 lks. dist. which is a Granite stone 8 x 11 x 7 ins. above ground, marked as described by the Surveyor-General. The course of this line is therefore S. 50° E. dist. 81.97 chs.

Thence run S. on a blank line bet. secs. 19 and 20. 40.00 chs. after diligent search no old W. cor. can be found, and at 80.08 chs. We find the cor. of secs. 19, 20, 29 and 30. E. 20 lks. which is a Granite stone 10 x 8 x 6 ins. above ground, set firmly, and marked as described by the Surveyor General.

The course of this line is therefore S. 0° E. dist. 80.08 chs.

Thence run W. on a blank line bet. secs. 19 and 30. 77.00 chs. after diligent search no old W. cor. can be found, and at 77.45 chs. We find the cor. of secs. 19, 24, 25 and 30. N. 1.51 chs. dist. which is a Granite stone 8 x 13 x 10 ins. above the ground, which We rebuick June 7th. The course of this line is therefore N. 88° 53' W. dist. 77.46 chs. June 3rd 1897.

Many of the cors. having been destroyed.

We resurvey and reestablish the old lines as follows:

June 4th at 7h 0m a.m. Const. We set off 38° 38' on Lat. Arc; 72° 32' W. on Dec. Arc; and determine a due meridian with the Solar at the cor. of secs. 19, 24, 25 and 30 on the W. bdy. of Tp.

Resurvey of the Subdivision of T. 25 S., R. 17 W.

Chains.	
	Thence W. per run S. 88°53' E. on a true line bet. secs. 19 and 30. descending over rolling land through heavy pine and aspen timber.

Land mountainous.
Soil, stony loam, 2nd and 4th rate.
Timber, heavy aspen and pine.
Mountainous land. 83.58 chs.

June 5th 1897.

General Discription.

This portion of the township is entirely mountainous. Sec. 31 contains the two highest peaks, from which the land slopes North and East and is very broken.

The township is poorly watered. Much young timber is found in the ravines and central portion of the township; the largest and best timber having been cut.

Aspen, pine and cedar.

General Description

The entire township is good grazing land.

There are no settlers.

On account of the unreliability of the Magnetic needle we suspect there are large bodies of magnetic iron ore. No surface indications.

FINAL OATH OF UNITED STATES DEPUTY SURVEYOR.

I, Hubert D Page and George L Swaan, United States Deputy Surveyors, solemnly swear that, in pursuance of a contract received from George W Bacon, United States Surveyor General for the District of Utah, bearing date of the 26th day of December, 1896, I have well, faithfully, and truly, in my own proper person and in strict conformity with the instructions furnished by the United States Surveyor General for the District of Utah, the Manual of Surveying Instructions, and the laws of the United States, ~~surveyed~~ retraced all those parts or portions of the subdivisional lines of Township 25 South Range 1 West

of the Salt Lake Base and meridian, in the State of Utah, which are represented in the foregoing field notes as having been ~~surveyed~~ retraced by me, and under my direction; and I do further solemnly swear that all the corners of said survey have been established and perpetuated in strict accordance with the Manual of Surveying Instructions, and the special written instructions of the United States Surveyor General for the District of Utah and in the specific manner described in the field notes, and that the foregoing are the original field notes of such ~~survey~~ retracement; and should any fraud be detected, I will suffer the penalty of perjury under the provisions of an Act of Congress approved August 8, 1846.

Hubert D Page. George L Swaan
United States Deputy Surveyors

Subscribed by said Hubert D Page and George L Swaan, and sworn to before me this 5th day of December 1900, 189

Edward M Anderson
U S Surveyor General
for Utah

SEAL

APPROVAL.

OFFICE OF THE UNITED STATES SURVEYOR GENERAL,

Salt Lake City Utah December 7 1900, 189

The foregoing field notes of the ~~survey~~ retracement of the subdivisional lines of Township 25 South Range 1 West of the Salt Lake Base and Meridian, Utah

executed by Hubert D Page and George L Swaan under his contract No. 209, dated December 26, 1896 having been critically examined, and the necessary corrections and explanations made, the said field notes, and the ~~surveys~~ retracements they describe, are hereby approved.

Edward M Anderson
United States Surveyor Gen

I certify that the foregoing transcript of the field notes of the above-described surveys in _____, has been correctly copied from the original notes on file in this office.

Preliminary Oaths of Assistants.

We, James M. Lentz, James Holdaway and Douglas A. Swan and Owen A. Smoot do solemnly swear that we will well and faithfully execute the duties of chainmen; that we will level the chain upon even and uneven ground, and plumb the tally pins either by sticking or dropping the same; that we will report the true distance to all notable objects, and the true lengths of all lines that we assist in measuring, to the best of our skill and ability, and in accordance with instructions given us in the survey of the Fifth Standard Parallel South through Ranges Nos. 2 and 3 West of the Salt Lake Base & Meridian, Utah

South bdy. of T. 25 S., R. 2 W.

Fifth Standard Parallel South, through Range 2 West.

Survey commenced June 6th 1897.
and executed with a light mountain transit with solar attachment, No. 30. made by W. & L. E. Gurley. The horizontal limb being provided with two opposite verniers reading to 1 minute of arc, which is also the least count of the verniers of the latitude and declination arcs.

We begin at the Standard cor. of secs. 33 and 34. T. 25 S., R. 2 W. on the Fifth Standard Parallel South, Lat. 38°36' N., Lon. 119°41' W. which is a trachyte stone 8 x 13 x 6 ins. above the ground, marked and witnessed as described by the Surveyor General. Polaris for determination.

At 2 hrs. 21 m. a.m. L.M.T., We observe Polaris at Eastern elongation, in accordance with instructions in the Manual; and mark the line thus determined, by a tack driven in a wooden plug set in the ground 5 chs. North of our station.

At 7 a.m., We turn off the azimuth of Polaris 1°35' to the W., and mark the true Meridian thus determined by cutting a mark on a stone firmly set in the ground, west of the mark established this date.

At 7 hrs 30 m. a.m., L.M.T., We set off 27° 41' N. on the dec. arc; 38°36' on the Lat. arc. and determine a true meridian with the solar, which falls on the mark determined by the Polaris observation. We conclude that the adjustment of the instrument is correct.

Local attraction effects the needle and, We cannot get a satisfactory magnetic reading.

We lay off from the true Meridian, an angle of 90° from N. to W. and run

Dep. 1st Standard parallel South through R. 7 W. continued

Hubert D. Page
George E. Goss
U.S. Deputy Surveyor

Fifth Standard Parallel South, through R. 3 W.

Chains.

Survey commenced July 2nd 1897
and executed with the instrument
described in book "A" and "B"
At the Standard cor. of sec. 34 and 35 S.
bdy. T. 7 S., R. 3 W., on the Fifth standard
parallel South. Lat. 38°36' N., long. 117°09
W., which is a trachyte stone 7 x 11 x 9
ins. above ground. Marked and
witnessed as described by the Surveyor
General. Too late for P.M. observation.
At 0 hrs. 38 m. a.m., l.m.t., We observe
Polaris at eastern elongation in accord-
ance with manual of instructions, and
mark the line thus determined by a
tack driven in a plug set firmly in
the ground 5 chs. N. of the cor.
At 6 h. 30 m. a.m., l.m.t., We turn off the
azimuth of Polaris. 1°35' to the W. and
mark the True Meridian thus deter-
mined by a tack driven in a stake
firmly set in the ground west of the
mark established this day.
At 7 a.m., l.m.t., We set off 38°36' on the
lat. arc; 22°56" N. on dec. arc; and de-
termine a true meridian with the
solar, which falls on the mark set
on the true meridian determined by
Polaris observation; We conclude that
the adjustment of the instruments
are correct.
Local attraction effects the needle
and We cannot get a satisfactory
magnetic reading.
We lay off from the true Meridian
an Angle of 90° from North to East and
run E. on a random line along the
S. bdy of Sec. 35.
Difference between measurements of
40.00 chs. by two set of chainmen is
4 lks. position of middle point
By 1st set 40.02 chs.
By 2nd set 39.98 chs.; the mean of—

which is.

40.00 N. 0.13 ft. from the tangent
Set temp. 1/4 sec. cor.
Difference between measurements of 80.00 chs. by two set of chainmen is 6 lks. position of middle point
By 1st set 80.03 chs.
By 2nd set 79.97 chs. the mean of which is

80.00 N. 0.53 ft. from the tangent
Set temp. sec. cor.
S. 89° 59' E. on the tangent, along S. bdy of sec. 36.
Difference between measurement of 40.00 chs. by two set of chainmen is 4 lks.; position of middle point
By 1st set 40.02 chs.
By 2nd set 39.98 chs. the mean of which is.

40.00 N. 1.20 ft. from the tangent
Set temps. 1/4 sec. cor.
Difference between measurement of 70.51 chs. by two set of chainmen is 4 lks; position of middle point.
By 1st set 70.53 chs.
By 2nd set 70.49 chs. the mean of which is

70.51 N. 2.00 ft. from the tangent
near top of N. edge of Cañon 1,000 ft. deep. point for cor. falls on slide rock.
Set temp. Witness cor.
To determine the distance across the cañon to a flag set 51.78 chs. E. of the point for Stand. cor. to T. 25 S. R. 2 W. on the 5th Stand. parallel S. which is N. 49° 28' E.
then measure a base line N. 19° 28' W. 41.00 chs. to a point, whence the flag bears N. 79° 37' E. From the flag the S. end of the base bears S. 49° 28' W.
Therefore the angles taken in order

of measurement are respectively 68° 56', 80° 55' and 30° 09'; this sum being 180°.

We compute the distance across the canon as follows;

Sin 80° 55' × 41 of 98.75 / 50.23 × 41 = 80.61 chs.
Sin 30° 09'

The bearing of the flag from the W.C. is N 49° 28' E and the dist. 80.61 chs. this is equal to a difference in Lat. of 52.39 chs. N. & a difference in departure of 61.21 chs. Subtracting 51.76 chs. which is the dist. of the flag E. of the range line gives us the dist. that the range line is E. of the W.C. on the Standard Line; which is 9.49 chs.

80.00. Standard cor. of T. 2 S., R. 3 W. falls in slide rock and is not set. And point for stone is 52.39 chs. S. of the point for Standard cor. of T. 2 S., R. 2 W. Therefore at 70.51 chs. We establish permanent W. cor. for Standard cor. of T. 2 S., R. 3 W. as follows;

Set a trachyte stone 14 × 12 × 10 ins. 10 ins. in the ground for W.C. Stand. cor. of T. 2 S. R. 3 W.

Marked S.C. on the N. with 2 S. and 6 grooves on N. R. 3 W. and 6 grooves on the W. and W.C. on N. faces.

raised a mound of stone 3 ft. base, 2 ft. high W. of cor.

Pits impracticable.

At this cor. we set off 22° 55' N. on decl. arc; and at 12 h. 3 m. P. m. l. m. t. observe the sun on the meridian the resulting bad is 38° 35'

Thence We run

W. on a true line along the S. bdy. of Sec. 36.

9.49 Witness cor. for Standard cor. to T. 2 S., R. 3 W.

Descend over rolling land. Through dense sage brush.

34.49 Top of steep descent over sandstone ledges and cliffs 1000 ft. high. Lead W. and S.

Difference between measurement to 40.00 chs. by two set of Chainmen 4 lks. position of middle point

Fifth Standard Parallel South through R. 3 W.—Continued

Chains.	
	By 1st set 40.02 chs.
	By 2nd set 39.98 chs.; the mean of which is
40.00	Set a sandstone 18 x 8 x 8 ins. 12 ins. in the ground for standard ¼ sec. cor. marked S.C. ¼ on N. face, raised a mound of stone 2 ft. base, 1½ ft. high N. of Cor. Pits impracticable.
56.19	Bottom of ravine and cliffs 1000 ft. deep. Course N 10° W. and S branch of Monroe Creek. 5 lks. wide, pure water flows N. 10° W. ascend.
71.99	Top of ridge, bears N. and S.
	Drag road, bears N. and S.
	Difference between measurements of 80.00 chs. by two set of chainmen is 6 lks.; position of middle point
	By 1st set 79.97 chs.
	By 2nd set 80.03 chs.; the mean of which is
80.00	Set a trachyte stone 18 x 15 x 10 ins. 12 ins in the ground for standard cor. of secs. 35 and 36. Marked S.C. on N. with 1 groove on E. and 3 Grooves on the W. faces raised a mound of stone 2 ft. base 1½ ft. high: N. of Cor. Pits impracticable. Land mountainous Soil, stony 4th rate. No timber. Mountainous land 80.00 chs.

July 3rd

July 4th; At 7 a.m. L.m.t., W.E. set off 38°36' on lat. arc; 22°51½' N. on dec. arc; and determine a true meridian with the solar, at the standard cor. of secs. 35 and 36.

Thence W.E. run.

Fifth Standard Parallel South, through R. 3 W.— continued

	N. along the E. bdy. of sec. 35. Over rolling land; through dense sage brush.
1.80	Spring branch drains N. into basin 1 lks. wide, fresh water flows N.
	Ascend along N.E. slope of mountain
	Difference between measurement of 40.00 chs. by two set of chainmen is 4 lks. position of middle point.
	By 1st set 40.02 chs.
	By 2nd set 39.98 chs. the mean of which is
40.00	Set a trachyte stone 12 x 10 x 8 ins. 8 ins. in the ground for standard 1/4 sec. cor. marked S.C. 1/4 on N. face.
	raised a mound of stone 2 ft. base, 1 1/2 ft. high. N. of cor.
	Pits impracticable.
46.00	Cross saddle and pass on to S. slope of ridge. enter scattering pine and cedar.

Final Oaths of Deputy Surveyors and their Assistants.

LIST OF NAMES.

A list of the names of the individuals employed by Hubert D. Page and George C. Swan, United States Deputy Surveyor, to assist in running, measuring, and marking the lines and corners described in the foregoing field notes of the survey of The Fifth Standard Parallel South through Ranges Nos 2 and 3 West of the Salt Lake Base & Meridian, Utah showing the respective capacities in which they acted:

James M. Lentz, James Holdaway, Chainman.
Douglas A. Swan Jr. Owen A. Smoot Jr., Chainman.
James M. Lentz, Moundman.
James Holdaway, Moundman.
, Axman.
Charles A. Cramer, Axman.
Charles A. Cramer, Flagman.

FINAL OATH OF ASSISTANTS.

We hereby certify that we assisted Hubert D. Page and George C. Swan, United States Deputy Surveyor, in surveying all those parts or portions of the Fifth Standard Parallel South through Ranges Nos. 2 and 3 West.

of the Salt Lake base and meridian, In the State of Utah, which are represented in the foregoing field notes as having been surveyed by him and under his direction; and that said survey has been in all respects, to the best of our knowledge and belief, well and faithfully surveyed, and the corner monuments established, according to the instructions furnished by the United States Surveyor General for Utah.

James M. Lentz, James Holdaway, Chainman.
Douglas A. Swan Jr. Owen A. Smoot, Chainman.
James M. Lentz, Moundman.
James Holdaway, Moundman.
Samuel Meehan, Axman.
Charles A. Cramer, Axman.
Charles A. Cramer, Flagman.

Subscribed and sworn to before me this 18th day of October, 1897.

North boundary of T. 25 S., R. 2 W.

Survey commenced June 8th 1897. and executed with the instrument described in book A-5 B.

When to test the solar apparatus by comparing the indications resulting from solar observations made during a.m. and p.m. hours with a true meridian determined by observations on Polaris, We proceed as follows:

At the established corner of secs. 2. 3. 34 and 35: on the N. bdy. of T. 25 S., R. 2 W., Lat. 38° 41' N., Long. 112° 08' W., at 4hr 30m p.m. l.m.t., We set off 22° 57' N. on the decl. arc: 38° 41' N. on the lat. arc: and determine with the solar a true meridian: and mark a point thereof with a tack driven in a stake firmly set in the ground 5 chs N. of the cor.

June 8th 1897.

June 9. 1897.

At 2hr 13m a.m. l.m.t. We observe Polaris at eastern elongation in accordance with the Manual of Instructions, and mark a point on the true line thus determined on a stake set firmly in the ground 5 chs. N. of our station.

At 7 a.m. l.m.t., We lay off the azimuth of Polaris 1° 35' to the west, the true Meridian thus determined falls on the mark determined by p.m. solar observations. June 8th

At 7hr 30m a.m. l.m.t., We set off 38° 41' N. on the lat. arc: 23° 01' N. on the decl. arc: and determine a true meridian with the solar which falls on the mark set on the true meridian established by Polaris observations.

The solar apparatus by p.m. and a.m. observations defines position of the true Meridian established by Polaris observations. Therefore We conclude

North boundary of T. 25 S., R. 2 W. - continued.

the adjustments of the instrument are satisfactory.
Owing to local attractions we cannot get satisfactory magnetic readings.

From the sec. cor. already described, we run West on a random line along the N. bdy. of T. 25 S., R. 2 W., setting temp. 1/4 sec. and sec. cors. at intervals of 40.00 chs. and at 317.07 chs. intersect N. and S. line 42.30 chs. N. of the established cor. of Tps. 24 and 25 S., Rs. 2 and 3 W.,
Set a temp. closing corner.
The falling is beyond the limits prescribed by the Manual of Instructions therefore we proceed to retrace. For notes of which see subdivisions of this Tp.
June 9th 1897.

June 23rd 1897. Having proven the correctness of our work, we establish our random line as a permanent line and establish the temp. cor. as a permanent cor. as follows:
Set a trachyte stone 18 x 12 x 10 ins., 12 ins. in the ground for closing cor. of Tps. 24 and 25 S., R 2 W., marked C. C. on E. with 6 grooves on N. S. and E. faces, and raise a mound of stone 2 ft. base, 1/2 ft. high, E. of cor.
Pits impracticable. We obliterate marks on old cor. referring to R. 2 W.
June 23rd 1897.

June 24th 1897. At 7 a.m. l.m.t., We set off 38° 41' N. on the lat. arc: 23° 26' N. on the decl. arc: and determine a true meridian with the solar at the above described cor.
Thence We run, E. bet. secs. 6 and 31 placing fractional dist. in mid-chn 1/2 mile: Retracement to shortening the S. bdy. of Tp. 24 S., R 2 W. to be 83.77 chs. long. Therefore We set corners for said S. Bdy. as follows and Ascend over rolling land through scattering cedars

North boundary of T. 25 S., R. 27 E.—Continued.

Chains.	
15.25	Branch 3 lks. wide in bottom of wash course N.
33.00	Top of spur projects N.
43.77	Near foot of slope.
	Set a trachyte stone 14 x 12 x 8 ins., 10 ins. in the ground for 1/4 sec. cor. marked 1/4 S. on N. face and raise a mound of stone 2 ft. base 1 1/2 ft. high. N. of cor. Pits impracticable.
49.73	Drag road bears N. W. and S. E.
61.00	Drag road bears S. W. and N. E.
66.33	Drag road bears N. W. and S. E.
73.25	Top of spur projects N. W.
83.77	Set a trachyte stone 18 x 8 x 8 ins., 12 ins. in the ground for cor. of secs. 31 and 32. Marked with 6 notches on E. and 1 notch on W. edges, and raise a mound of stone 2 ft. base 1 1/2 ft. high. N. of cor. Pits impracticable.
	Land mountainous.
	Soil stony: 4th rate.
	Timber cedar.
	Mountainous land 83.77 chs.
	E. bet. secs. 5 and 32
	Descend soil stony.
2.20	Top of cliffs 200 ft. high bears. N. and S.
3.20	Bottom of cliffs
5.50	Bottom of Norton creek cañon 200 ft. deep course N. small seepage.
	Ascend over stony land through scattering cedars.
24.35	Top of ridge bears N. 30° W. and S. 30° E.
	Descend
39.35	Bottom of cotton-wood cañon 300 ft. deep course N. 30° W. and Cotton-wood creek 3 lks. wide. ascend.
40.00	Set a trachyte stone 15 x 9 x 9 ins., 10 ins. in the ground for 1/4 sec. cor. marked 1/4 on N. face and raise a mound of stone 2 ft. base 1 1/2 ft. high. N. of cor. Pits impracticable.
80.00	On the S. W. slope of ridge.

Chains	
	Set a trachyte stone 16 x 10 x 6 ins., 11 ins. in the ground for cor. of secs. 32 and 33. marked with 4 notches on E. and 2 notches on N. edges, and raise a mound of stone 2 ft. base, 1½ ft. high N. of cor. Pits impracticable. Land mountainous. Soil stony; 4th rate. Timber cedar scattering. Mountainous land 80.00 chs.
	June 24, 1897. At this cor. the deck off 23° 24' 30" N. on the decl. arc; and at 12 hrs 02 m p. m. l. m. t., observe the sun on the meridian, the resulting lat. is 38° 41' N.
	E. bet. secs. 4 and 33. Over rolling land through scattering cedars, soil stony. Ascend.
26.30	Top of Red butte ridge bears N. W. and S. E. Descend.
34.40	Bottom of Gulch 70 ft. deep course N. W. Ascend
40.00	Set a trachyte stone 14 x 9 x 8 ins., 10 ins. in the ground for ¼ sec. cor. marked ¼ on N. face and raise a mound of stone 2 ft base 1½ ft. high N. of cor. Pits impracticable
53.30	Top of spur projects N. W.
71.25	Top of ridge bears N. 10° E. and S. 10° W.
80.00	Set a trachyte stone 17 x 9 x 9 ins., 12 ins. in the ground for cor. of secs. 33 and 34. marked with 3 notches on E. and W. edges, and raise a mound of stone 2 ft. base 1½ ft. high N. of cor. Pits impracticable. Land mountainous. Soil stony; 4th rate. Timber cedar, scattering. Mountainous land 80.00 chs.

	to sec. secs. 3 and 34.
	Over rolling land, through scattering cedar and aspen.
7.00	Bottom of ravine 100 ft. deep course N 10° E;
28.85	Bottom of canon 800 ft. deep, course N,
	ascend along N slope of mountain,
40.00	set a trachyte stone 18×12×10 ins., 12 ins. in the ground for 1/4 sec. cor. marked 1/4 on N. face and raised a mound of stone 2 ft. base 1½ ft. high N. of cor; Pits impracticable.
46.40	Top of ridge bears N. and S. leave cedars enter pine.
73.30	The cor. of secs. 2, 3, 34, 35, T. 25 S., R. 2 W.
	Land mountainous.
	Soil stony; 4th rate;
	Timber, cedar, aspen, and pine.
	Mountainous land 73.30 chs.
	June 24, 1897.

West boundary of T. 25 S., R. 2 W.

Survey Commenced June 7th 1897 and dedicated with the instruments described in book "A".

At 7 a.m. L.m.t. We set off 22° 50' N. on dec. arc. 38° 36' N on lat. arc. and determine a true meridian with the solar at the temp. witness cor. for T. 25 S., Rs. 2 and 3 W.

Thence We run North on a random line along the W. bdy. of T. 25 S., R. 2 W. setting temp. 1/4 sec. and sec. cors. at intervals of 40.00 chs. and at 411.00 chs. intersect E. and W. line 9.68 chs. E. of the established cor. of Ts. 24 and 25 S., Rs. 2 and 3 W. which is a trachyte stone 6 x 12 x 9 ins. above ground, marked and witnessed as described by the Surveyor General.

At the above described cor., latitude 38° 41' N., longitude 112° 07' W. at 5 h. 0 m. p.m. L.m.t. We set off on the dec. arc. 38° 41' N on lat. arc. and determine a true meridian with the solar, and mark a point thereof by a tack driven in a stake set firmly in the ground 5 chs. N of the cor.

June 8th at 2 h. 15 m. a.m., L.m.t., We observe Polaris at eastern elongation in accordance with manual of instructions and mark a point in the line thus determined on a plug driven in the ground 5 chs. N of my station.

At 7 a.m. L.m.t. We lay off the azimuth of Polaris 1° 35' to the West the True Meridian thus determined falls 0.3 ins. E. of the mark determined by the solar.

Chains.	
	At 7h. 30m. a.m., l. m. t., W. set off 22° 56' N. on decl. arc; 38° 24' N. on lat. arc; and mark a point in the true meridian determined with the solar, by a cross on the stone already set 5 chs. N. of my station; this mark falls 0.3 ins. east of the true meridian established by the Polaris observation.
	The solar apparatus, by p. m. and a. m. observations, defines positions for true meridians, about 0'16" W. and E. of the meridian established by the Polaris observation; therefore, W. conclude that the adjustments of the instrument are satisfactory.
	Owing to local attraction can get no satisfactory magnetic reading.
	We begin at the established cor. of T. 24 S. and T. 25 S., R. 2 and 3 W.
	Thence we run
	South on a true line along the W. bdy. of sec. 6, T. 25 S., R. 2 W., placing the fractional distance in the Northern mile.
	Over rolling land, through scattering cedar, along W. slope of mountain.
3.29	Dry wash, bears N. 45° E. dist. W.
8.29	Wood road, bears N. 45° E.
20.04	Wood road, bears N. 45° E. ascend.
24.85	Wood road, bears N. 45° E.
33.50	Set a trachyte stone 20 x 10 x 8 ins., 15 ins. in the ground for cor. of secs. 6 and 7, marked C. C. on the E. 5 grooves on the S. and 1 groove on the N. faces, raised a mound of stone 2 ft. base, 1½ ft. high E. of cor.
	Pits impracticable.
	Land, Mountainous.
	Soil, stony. 4th rate.
	Timber; Cedar.
	Mountainous land 33.50 chs.

West boundary of T. 25 S., R. 27 E. - Continued

Chains.	
	South on W. bdy. of Sec. 7.
	Over rolling land, through scattering cedars and dense sage brush.
1.53	Bottom of ravine, 50 ft. deep, course N. W.
8.50	Bottom of ravine and wash 70 ft. deep. Course W.
13.35	Bottom of ravine and wash 50 ft. deep Course N. 25° E.
35.75	Top of spur, projects W.
40.00	Set a trachyte stone 20 x 15 x 8 ins 15 ins. in the ground for 1/4 sec. Cor. marked 1/4 on E. face, raised a mound of stone 2 ft. base, 1/2 ft. high E. of Cor. Pits impracticable.
47.00	Bottom of ravine 75 ft. deep, bears N. W.
75.80	Top of Spur, projects W. 1500 ft. above sec. Cor.
80.00	Set a trachyte stone 19 x 10 x 8 ins. 15 ins. in the ground for cor. of secs. 7 and 18. marked C. C. on E. with 2 grooves on the N. and 4 grooves on the S. faces. raised a mound of stone 2 ft. base, 1 1/2 ft. high E. of Cor. Pits impracticable.
	Land, mountainous
	Soil, stony 4th rate.
	Timber, cedar
	Mountainous land, 80.00 chs.
	At this cor. We set off 22° 56' N. on decl. arc: and at 11h 58 m. a. m. L. m. t., Observe the sun on the meridian the resulting latitude is 38° 39' N.

	South on W. bdy. of Sec. 18.
	Over rolling land, through scattering cedars and sage brush W. slope of mountain
6.00	Old drag road bears S. E. and N. W.
40.00	Set a trachyte stone 15 x 10 x 6 ins. 10 ins. in the ground, for 1/4 sec. Cor. Marked 1/4 on E. face, raised a

Chains.	
	Mound of stone, 2 ft. base, 1½ ft. high E. of cor. Pits impracticable.
41.20	Top of spur, projects W.
53.79	Descend.
66.79	Ledges, bear E. and W.
76.79	Spur, projects W.
80.00	Set a trachyte stone, 8 x 8 x 8 ins. 12 ins. in the ground, for cor. of secs. 18, 19, 13, 24. marked C.C. on E. with 3 grooves, on the N. and S. faces, raised a mound of stone 2 ft. base, 1½ ft. high E. of cor. Pits impracticable. Bears W. thick a cedar 24 ins. in diam. bears S. 85° E. 20 lks. dist. marked T. 25 S. R. 2 W. Sec. 19. B.T. No other trees within proper dist.
	Land, mountainous.
	Soil, stony ... 4th rate.
	Timber, cedar
	Mountainous land, ... 80.00 Chs.

South on W. bdy. sec. 19.
Over rolling land, through scattering cedar and pinion pine, along the W. slope of mountain.

44.00	Top of trachyte ledges and cliffs, 25 ft. high, bears N.E. and S.W.
50.00	Bottom of cliffs.
114.00	Bottom of ravine 150 ft. deep, course S.W. ascend.
118.60	Top of spur, projects W.
120.00	Bottom of ravine 100 ft. deep, course W.
127.00	Top of spur, projects W.
130.50	Bottom of ravine 100 ft. deep, course W.
140.00	Set a trachyte stone 20 x 10 x 6 ins. 15 ins. in the ground, for ¼ sec. cor. marked ¼ on E. face, raised a mound of stone 2 ft. base, 1½ ft. high E. of cor. Pits impracticable.

June 8th 1897

Chains.	
	June 9th at 7h 0m a.m. L.m.t., I set off 23° 00' 30" N. on decl. arc; 38° 38.3' N. on lat. arc; and determine a true meridian with the solar at the 1/4 sec. cor. to sec. 19. W. bdy. T. 25 S., R. 7 W. Thence run South
53.00	Top of rocky ridge. bears N.E. and S.W.
	descend along the E. slope of ridge.
8.000	Set a trachyte stone 20"x12"x10" ins. 18 ins. in the ground, for cor. of secs. 19 & 30. marked with C.C. on E. and 4 grooves on the N. and 2 grooves on the S. faces. raised a mound of stone, 2 ft. base, 1½ ft. high E. of Cor. Pits impracticable. from which a pinion pine tree 8 ins. in diam. bears E. 50 lks. dist. Marked T. 25 S., R. 7 W. sec. 19 & 30. B.T. no other tree within proper dist.
	Land, mountainous.
	Soil, stony, 4th rate.
	Timber: Cedar & pinion pine.
	Mountainous land 8.000 chs.
	South on W. bdy. of sec. 30. over rolling land, through scattering pinion pine and cedar. descend.
27.60	Bottom of ravine 300 ft. below cor. Course S. 25° W.
30.40	North branch of Monroe Creek. 15 lks. wide pure water flows S.W. and Bottom of ravine 400 ft. below cor. Course S.W.
31.20	Washed out wagon road. Now used as trail. bears S.W. & N.E.
	ascend through juniper, sage and oak brush.

West boundary of T. 25 S., R. 2 W.—Continued.

chains.	
40.00	Set a trachyte stone 20 x 8 x 8 ins., 15 ins. in the ground for 1/4 sec. cor., marked 1/4 on E. face, raised a mound of stone 2 ft. base, 1 1/2 ft. high E. of cor. Pits impracticable. From which a pine 8 ins. in diam. bears S. 45° E. 20 lks. dist., marked 1/4 S 13 T.; a cedar 12 ins. in diam. bears N. 40° E. 21 lks. dist., marked 1/4 S B. T.
41.70	Spring branch 2 lks. wide, pine woods flows W.
76.20	Top of ridge, bears N. E. and W. 700 ft. above 1/4 cor., leave cedar and pine.
80.00	Set a trachyte stone 24 x 8 x 6 ins., 18 ins. in the ground for cor. of secs. 30 and 31, marked C. C. on E. face with 5 grooves on the N. and 1 groove on the S. faces, raised a mound of stone 2 ft. base, 1 1/2 ft. high E. of cor. Pits impracticable. Land, mountainous. Soil, stony. 4th rate. Timber, cedar and pinion pine. Mountainous land, 80.00 chs. At this cor. W's set off 23° 01' N. on the decl. arc; and at 11h 59m. a. m., l. m. t., observe the sun on the meridian, the resulting lat. is 38° 37'
	South on W. bdy. of sec. 31, over rolling land, descending through cedar
17.00	Bottom of ravine 500 ft. deep, bears W. ascend
30.00	Top of ridge, bears E. and W.
40.00	Set a trachyte stone 24 x 10 x 8 ins. in a mound of rock for 1/4 sec. cor., marked 1/4 on E. face, raised a mound of stone 2 ft. base, 1 1/2 ft. high E. of cor. Pits impracticable.

Chains.	
57.00	descend.
57.50	Intersect offset line from the Fifth Standard Parallel south 9.68 chs. W. of the temp. witness cor. previously set.
	We can proceed no farther south on account of perpendicular cliffs 1,000 ft. high, bear N. W and S. E. Therefore at this point We set a blackstone stone 18 x 10 x 6 ins 12 ins in the ground for Witness cor. to Standard cor. of T. 25 S., R. 2 W. as follows; Marked W. C. S. C. 25 S. with 6 grooves on the N. and 6 grooves with 2 W. on the E. faces.
	Raised a mound of stone 2 ft. base 2 ft. high N. of Cor.
	Pits impracticable.
80.00	The cor. point for Standard Cor. of T. 25 S., R. 2 W. falls in impassable Cañon (Monde Cañon) and the corner is not set.
	Land, Mountainous
	Soil, stony with slate
	Timber: Scattering cedar.
	Mountainous land 80.00 chs.
	June 9th 1897.

General for _____, the Manual of Surveying Instructions, and the laws of t

United States, surveyed all those parts or portions of _____

_____

_____

_____

_____ of the _____ b

and _____ meridian, in the _____ of _____, which are represented in

foregoing field notes as having been surveyed by me, and under my directions; and I do further solem

swear that all the corners of said survey have been established and perpetuated in strict accordance with

Manual of Surveying Instructions, and the special written instructions of the United States Surve

General for _____ and in the specific manner described in the field notes, and t

the foregoing are the *true* field notes of such survey; and should any fraud be detected, I will suffer

penalty of perjury under the provisions of an Act of Congress approved August 8, 1846.

Survey of the subdivisions of T. 25 S., R. 2 W.

June 10, 1897.

At 7 a.m., l.m.t. We set Sta. 38° 41' N. on the lat. arc: 23° 05' N. on the ded. arc; and determine a true meridian with the solar at the established cor. of secs. 2 and 3 on N. bdy. of Tp. 25 S. R. 2 W.,

Thence We run

S. bet. secs. 2 and 3; at 40.00 chs. after diligent search no old 1/4 sec. cor. can be found, and at 87.34 chs. We find the cor. of secs. 2, 3, 10 and 11. W. 5.94 chs. dist; which is a Trachyte stone 24 x 8 x 6 ins. above the ground marked and witnessed as described by the Surveyor General. The course of the line is therefore N. 3° 54' E. 87.34 chs.

Thence We run

South at 22.70 chs. We find a Trachyte stone 6 x 8 x 5 ins. above the ground, marked with 1/4 on W. face, and mound of stone W. of cor.

Thence We run South and at intervals of 40.00 chs. and 80.00 chs. after diligent search no 1/4 sec. or sec. cors. can be found, and at 2 mi. 45.82 chs. We find the cor. of secs. 22, 23, 26 and 27, E. 11.81 chs. dist. which is a Trachyte stone 8 x 12 x 10 ins. above the ground, marked and witnessed as described by the Surveyor General. The course of the line is therefore N. 3° 17' W., 20.16 chs.

June 10th 1897.

June 11, 1897.

At 7 a.m., l.m.t., We set Sta. 38° 38' N. on the lat. arc: 23° 09' N. on the ded. arc; and determine a true meridian with the solar at the cor. of secs. 22, 23, 26 and 27.

Thence We run
S. bet. secs. 26 and 27: at 40.38 chs.
the 1/4 sec cor. E. 1.57 chs. dist. We
continue our line S. and at 80.78 chs.
We find the cor. of secs. 26. 27. 34 and 35:
E. 3.13 chs. dist.: which is a Trachyte
stone 5"x14"x10" ins. above the ground
marked and witnessed as described
by the Surveyor General. The course
of this line is therefore N. 2° 13' W., 80.84 chs.
Thence We run
S. bet. secs. 34 and 35: at 40.00 chs. search
diligently for no trace of said 1/4 sec cor.
and at 79.87 chs. intersect E. and W.
line 3.10 chs. N. of the Standard cor. of
secs. 34 and 35. S. bdy. Tp. 25 S., R. 2 W.,
the course of this line is, therefore N. 2°
13' W., 79.93 chs.

June 11th 1897

June 15:

At 7 a. m., L. m. t., We set off 38° 36' N.
on the lat. arc: 23° 22' N. on the decl.
arc: at the Standard cor. of secs. 34 and
35 S. bdy. of Tp. 25 S. R. 2 W.

As a portion of this Tp. each of
this line has been subdivided and
that many of the corners are ob-
literated. We proceed to resurvey
the line and reestablish the corners
in their original places as follows:
Thence We run
N. 2° 13' W. bet. secs. 34 and 35.
Ascend over stony soil through dense
sage brush.

10.00 Point of low, stony spur bears E. and W.
slopes N. Descend

22.00 Mound of rock 6 chs. wide course S. W.
Ascend, enter pine and aspen.

39.96½ Set a Trachyte stone 14"x9"x7" ins., 10" ins

Chains	ns. the ground for 1/4 sec. cor. marked 1/4
	on W. face and raise a mound
	of stone 2 ft. base 1 1/2 ft. high. W. of cor.
	Pits impracticable.
	Descend.
62.00	Branch 4 lks. wide course S.E. and
	Bottom of ravine
	Ascend.
73.00	Point of spur slopes S.E.
	Descend. Leave timber
79.93	The cor. of secs. 26. 27. 34 and 35
	Land mountainous.
	Soil stony: 4th rate.
	Timber. Pine and aspen.
	Mountainous land. 79.93 chs.
	N. 2° 3' W. bet. secs. 26 and 27.
	Descend through dense undergrowth:
	soil stony.
2.00	Branch 3 lks wide course S.E. and
	bottom of ravine Ascend.
6.00	Cedars scattering pine and aspen
40.43	The 1/4 sec cor. previously mentioned.
78.00	Ledges and bks of mountain bear E. and W.
80.84	The cor. of secs. 22. 23. 26 and 27.
	Land mountainous.
	Soil stony: 4th rate.
	Timber. Pine and aspen scattering.
	Mountainous land. 80.84 chs.
	June 15: At this cor. the ecl 5° 23° 22' N.
	on the decl. arc: and at 12 hr. 0 m.
	l. m. t. observe the sun on the meridian
	the resulting lat. is 38° 38' N.
	N. 3° 17' W. bet. secs 22 and 23.
2.35	Begin descend. cedars scattering pine
22.35	Head of ravine course E.
32.00	Stony knoll 20 ft high 40 lks W.
	Descend along E. slope of ridge.
40.06½	Set a Trachyte stone 14 x 10 x 6 ins., 10 ins.

See connecting Notes Book 11

chains		
		in the ground for 1/4 sec. cor. marked 1/4 on W. face, and raised a mound of stone 2 ft. base 1½ ft. high W. of cor. Pits impracticable, after dilligent search no trace of old 1/4 sec. cor. can be found.
	80.13	Set a Trachyte stone 16 x 10 x 7 ins., 12 ins. in the ground for cor. of secs. 14. 15. 22 and 23. marked with 3 notches on S. and 2 notches on E. edges, and raised a mound of stone 2 ft. base, 1½ ft. high W. of cor. Pits impracticable after dilligent search no trace of old cor. can be found.
		Land mountainous.
		Soil stony, 4th rate.
		Timber. Pine.
		Mountainous land 80.13 chs.
		June 15. 1897.

June 16, 97.

At 7 a. m., l. m. t., Ne set off 38° 38' 30" on the tab arc 23° 24' N on the decl. arc, and determine a true meridian with the solar at the cor. of secs. 14. 15. 22 and 23.

Thence Ne run

N. 3° 17' W. bet secs. 14 and 15.

Descending over stony soil, through scattering pine and aspen.

Saconnecter Note Book 11.

4.00	Enter dense pine.
28.40	Branch 2 lks. wide, course E.
	Ascend, leave dense timber.
40.06½	Set a Trachyte stone 13 x 12 x 9 ins., 9 ins. in the ground for 1/4 sec. cor. marked 1/4 on W. face, and raised a mound of stone 2 ft. base 1½ ft. high, W. of cor. Pits impracticable, after dilligent search no trace of old 1/4 sec. cor. can be found.
48.36	Top of ridge bears N. E. and S. W.
	Enter dense pine, descend.

Resurvey of the subdivisions of T. 25 S., R. 27 W. Continued

Chains	
76.00	Leave dense timber under scattering pine and young growth aspen.
80.13	Set a Trachyte stone 8 x 10 x 4 ins., 12 ins. in the ground for cor. of secs. 10, 11, 14 and 15, marked with 4 notches on S. and 2 notches on E. edge and raise a mound of stone 2 ft. base 1½ ft. high W. of cor. Pits impracticable After diligent search no trace of old cor. can be found. Land mountainous Soil stony; 4th rate. Timber, Pine and Aspen. Mountainous land 80.13 chs.
	N. 3° 17' W. bet. secs. 10 and 11. Descending through scattering pine and aspen.
6.00	Enter dense pine and aspen
26.30	Leave timber
27.00	Road bears E. and W.
28.10	South side of reservoir bears E. and W.
30.66	North side of reservoir bears E. and W. Ascend.
37.00	Enter aspen.
40.00	Search diligently find no trace of old ¼ sec. cor.
42.00	Ridge bears E. and W. Descend.
45.80	Leave timber
46.90	The ¼ sec cor. previously described Thence N.
56.00	Enter Pine and aspen.
68.60	The cor. of secs. 2, 3, 10 and 11. previously described Land mountainous Soil stony; 4th rate. Timber, Pine and aspen. Mountainous land 68.60 chs. June 16; At this cor. the dec. of ☉ is 23° 23' 30" N. on the dec. arc; and at 12 hrs. 0 m.

See corrected notes, Book

Record of the subdivisions of T. 25 S., R. 2 W.

	Chain	I. m. t. observe the sun on the meridian
		Hence run to cor. to secs. 33 & 34 on the 6th std. par. N. 38° 40' W.

N. 3° 50' E. bet. secs. 2 and 3.
Descending
0.00 Leave timber
4.66 Road. bears E. and W.
5.66 Enter timber. Ascend.
Incountered Pebble Rock. 27.00 Leave timber.
31.00 Road. bears N. W. and S. E.
40.00 Left a Quadruple stone 15x9x7 ins., 10 ins. in the ground for 1/4 sec. cor. marked 1/4. on N. face and raised a mound of stone 2 ft. base 1½ ft. high W. of cor. Pits impracticable. After diligent search no trace of old 1/4 sec. cor. can be found.
Ascend.
50.00 Ridge. bears E. and W.
Enter Pine and aspen
Descend along E. slope
67.31 The cor. to secs. 2 and 3 N. bdy of T. 25 S. R. 2 W.
Land mountainous.
Soil stony & poor.
Timber. Pine and Aspen.
Mountainous Land.

87.31 chs.
June 16, 1897

Traverse of the N. bdy of T. 25 S. R. 2 W.

June 17. At 7 a. m. I. m. t. The dec. off 31° 2' N. on the 1st arc: 23° 26' N. on the 2nd arc: and determine a true meridian with the solar attach. to cors. 2 and 3 on N. bdy T. 25 S., R. 2 W. Hence the run

Retracement of the N. bdy. of T. 25 S. R. 2 W.,

E. on a blank line along the N. bdy. of sec. 2: at 40.00 chs. We find the 1/4 sec. cor. and at 80.00 chs. after diligent search no old sec. cor. can be found. We continue our line E. and at 120.00 chs. after diligent search no old 1/4 sec. cor. can be found, and at 155.85 chs. We find the cor of Tps. 24 and 25 S., Rs. 1 and 2 W., S. 1.77 chs. dist. which is a trachyte stone 6 x 12 x 9 ins. above the ground marked and witnessed as described by the Surveyor General, the course of this line is therefore S. 89° 08' E.

June 17th 1897.

Resurvey of the N. bdy. of T. 25 S. R. 2 W., June 23. 1897.

At 7 a.m, l.m.t., We set off 38° 41' N. on the lat. arc; 23° 27' N. on the decl. arc; and determine a true meridian with the solar at the cor. of Tps. 24 and 25 S. Rs. 1 and 2 W. Thence We run. through aspen and fallen timber, N. 89° 08' W. bet. Tps. 24 and 25 S. R. 2 W. setting cors. for both Tps. and those for the township south at porportionate dist. ances bet. the corners found, knowing from previous survey that the closing cor. to Tps 24 S. Rs. 1 and 2 W. is 10.86 chs. N. 88° 13' E, of the cor. to Tps. 25 S. Rs. 1 and 2 W., thereforc ch.

29.15 Set a trachyte stone 14 x 9 x 7 ins, 10 ins. in the ground for 1/4 sec. cor. of sec. 36 T. 24 S. marked 1/4 on N. face and raise a mound of stone 2 ft base 1 1/2 ft. high, N. of cor. Pits impracticable. from which a aspen 6 ins. diam. bears N. 20 lks dist. marked 1/4 S. B. T.

38.62 Set a trachyte stone 16 x 10 x 6 ins, 12 ins. in the ground for reestablished 1/4 sec. cor. of sec. 1 Tps. 25 S, R. 2 W. marked 1/4 on S. face and raise a mound of stone 2 ft. base, 1 1/2 ft. high S. of cor. Pits impracticable. from which An aspen 8 ins. diam. bears S. 18 lks.

dict. marked 1/4 S. B. T.
42.00 Leave timber, descend into cañon
55.10 Water cañon creek 10 lks. wide and bottom of cañon 700 ft. deep, course N. Ascend,
69.15 Set a trachyte stone 18 x 10 x 7 ins., 12 ins. in the ground for cor. of secs. 35 and 36 T. 24 S. R. 2 W., marked with 1 notch on the E and 5 notches on W. edges and raise a mound of stone 2 ft. base 1½ ft. high N. of cor. Pits impracticable
71.50 Top W. side of cañon enter scattering pine and aspen over rolling land.
77.24 Set a trachyte stone 18 x 10 x 6 ins., 12 ins. in the ground for reestablished cor. of secs. 1 and 2 T. 25 S. R. 2 W., marked with 5 notches on the W and 1 notch on E. edges and raise a mound of stone 2 ft. base 1½ ft. high S. of cor. Pits impracticable. No trees within proper dist.
Land mountainous.
Soil, stony and gravelly: 2nd and 3rd rate.
Timber, Aspen and pine
Mountainous land 77.24 chs.

N. 89° 08' W. bet. Tps. 24 and 25 S. R. 2 W.
Over rolling land, through scattering pine and aspen.
31.91 Set a trachyte stone 14 x 9 x 7 ins., 10 ins. in the ground for 1/4 sec. cor. of sec. 35 T. 24 S. R. 2 W., marked 1/4 on N. face and raise a mound of stone 2 ft. base 1½ ft. high N. of cor. Pits impracticable
38.62 The old 1/4 sec. cor. We obliterate marks refering to T. 24 S. R. 2 W. and mark for sec. 2 T. 25 S. R. 2 W.
Thence We run. West.
41.50 Old wagon road, bears N. and S.
71.91 Set a trachyte stone 15 x 11 x 9 ins., 10 ins. in the ground for cor. of secs. 34 and 35, T. 24 S. R. 2 W., marked with 4 notches on the W. and 2 notches on E. edges and raise a mound of stone 2 ft. base 1½ ft. high, N. of cor. Pits impracticable.
78.62 The cor. of secs 2 and 3 T. 25 S., R. 2 W.,
Land mountainous.
Soil gravelly loam: 2nd rate
Timber aspen and pine
Mountainous land 78.62 chs.

Survey commenced June 11th 1897. and executed with the instrument described in book A. and B. page 1.

Then to test the solar apparatus by comparing its indications resulting from solar observations made during a. m. and p. m. hours with a true meridian determined by observations on Polaris. We proceed as follows:

June 11. At the established cor. of sec. 25. 26. 35 and 36. which is a Trachyte stone 6 x 14 x 8 ins. above the ground marked and witnessed as described by the Surveyor General.

Lat. 38° 36' N., Long. 112° 01' W.,

We set off 38° 36' N. on the lat. arc: 23° 11' N on the decl. arc: and at 5 p. m., l. m. t., determine with the solar a true meridian and mark a point thereof with a lath driven and a stake firmly set in the ground 3 lks. N. of Mon.

June 11, 1897

June 12.

At 2 hrs. 02 m. a. m., l. m. t. We observe Polaris at eastern elongation in accordance with the Manual of Instructions and mark a point on the line thus determined and a stone set firmly in the ground 3 lks. N of the Cor.

At 6 hrs. 20 m. a. m., l. m. t., We lay off the azimuth of Polaris 1° 35' to the west. the true Meridian thus determined falls on the mark determined by p. m. solar observations, June 12.

At 7 h 20 m a. m. l. m. t., We set off 38° 36' N. on the lat. arc: 23° 13' N on the decl. arc: and determine a

Chains.	true meridian with the Polar, which falls on the mark set on the true meridian established by Polaris observations. The Polar observations by p. m. and a. m. observations define position of the True Meridian established by Polaris observations. Therefore We conclude the adjustments of the instrument are satisfactory. From the sec. cor. already described We run E. on a random line bet. secs. 25 and 36.
40.00	Set temp 1/4 Sec cor.
80.00	Intersect N. and S. line at the cor. of secs. 25. 30. 31 and 36. Thence We run N. on a true line bet. secs. 25 and 36. Descend
4.00	Enter pine and aspen, dense fallen timber.
26.00	Leave pine and fallen timber enter dense young growth of aspen
40.00	Set a Trachyte stone 22 x 10 x 6 ins. 12 ins. in the ground for 1/4 Sec. cor. marked 1/4. on N. face and raise a mound of stone 2 ft. base 1 1/2 ft. high N. of cor. Pits impracticable
54.00	Leave young growth of aspen.
56.00	Enter dense undergrowth
59.00	Spring. flows S.W.
64.50	Leave undergrowth enter aspen
74.75	Branch 1 lk wide. flows S.W.
78.45	Branch 4 lks wide flows N.
80.00	The cor. of secs. 25. 26. 35 and 36. Land mountainous. Soil stony and gravelly. 3rd and 4th rate. Timber. pine and aspen. Mountainous land 80.00 chs
	N. 0° 1' W. bet. secs. 25 and 26. Ascend through dense undergrowth
6.72	Enter young growth of aspen.

Chains.	
22.00	Descend
28.00	Bottom of small ravine and branch 3 lks. wide course S.W.
	Ascend under scattering pine and aspen
44.00	Set a Trachyte stone 18 x 8 x 6 ins., 12 ins. in the ground for 1/4 sec. cor. marked 1/4 on W. face and raise a mound of stone 2 ft. base 1 1/2 ft. high. W. of cor. Pits impracticable.
68.50	Top of ridge bears S.W. and N.E.
80.00	Set a Trachyte stone 26 x 12 x 8 ins., 18 ins. in the ground for cor. of secs. 23. 24. 25 and 26. Marked with 1 notch on E. and 2 notches on S. edges. and raise a mound of stone 3 ft. base 2 ft. high. W. of cor. Pits impracticable.

Land. mountainous.
Soil. stony: 4th rate.
Timber. Pine and aspen.
Mountainous land 80.00 chs.

June 12: At this cor we ret N 23° 15' W. on the dec. arc: and at 12 hr. 00 m. l. m. t., observe the sun on the meridian the resulting lat. is 38° 34' N.

E. on a random line bet. 24 and 25;

40.00	Set temp. 1/4 sec. cor.
79.54	Intersect line N 2° 40' W. 95 lks. from the cor. of secs. 19. 24. 25. and 30.

As the falling is beyond the limits prescribed in the Manual of Instructions we therefore proceed to ret a closing cor. for secs. 24 and 25. on E. bdy. Tp. 25 S. R 2 W. as follows:

Set a Trachyte stone 14 x 10 x 8 ins., 10 ins. in the ground for closing cor. of secs. 24 and 25. Marked C.C. on W. with 4 grooves on N. and 2 grooves on S. faces and raise a mound of stone 2 ft. base 1 1/2 ft. high. W. of cor. Pits impracticable.

We obliterate marks on old cor. pertaining to secs. 24 & 25.

chains	Thence W. run
	W. on a true line bet. secs. 24 and 25;
	Ascend over stony soil
1.25	Branch 1 lk wide course N.E.
2.50	Old wood road bears N.E. and S.W.
4.00	Enter dense pine and aspen
34.75	Leave dense pine, enter young growth aspen and scattering pine.
39.77	Set a Trachyte stone 16 x 10 x 8 ins., 12 ins. in the ground for 1/4 sec. cor. marked 1/4, on N. face and raise a mound of stone 2 ft. base 1 1/2 ft. high. N. of cor. Pits unprocurable. from which
	A Pine 6 ins. diam. bears S. 35 lks. dist. marked . . 1/4 S. B.T.
	A Pine 8 ins. diam. bears N. 20 lks. dist. marked . . 1/4 S. B.T.
50.75	Head of ravine course N.E.
55.00	Top of ridge bears N.W. and S.E.
	Descend along S.W. slope of mountain
79.54	The cor. of secs. 23. 24. 25. and 26.
	Land mountainous
	Soil stony; 4th rate.
	Timber. Pine and aspen.
	Mountainous land 79.54 chs.
	June 12, 1897

June 14. At 7 a.m. l.m.t. We set off 38° 37' N. on the lat. arc: 23° 19" N. on the dec. arc: and determine a true meridian with the solar at the cor. of secs. 23. 24. 25 and 26.

Thence We run

N. 0° 1' W. on a random line bet. secs. 23 and 24.

40.00	Set temp. 1/4 sec. cor.
81.28	Intersect E. and W. line 10.80 chs. E. of the established cor. of secs. 13. 14. 23 and 24. which is a Trachyte boulder marked and witnessed as described by the Surveyor General.

From errors discovered in our retracement and the falling is beyond the limits prescribed in the Manual of Instructions We therefore proceed to set a closing cor. for secs. 23 and 24. as follows:
Set a Trachyte stone 22 x 9 x 9 ins., 17 ins. in the ground for closing cor. of secs. 23 and 24 marked C.C. on S. with 3 grooves on S. and 1 groove on E. faces. and raise a mound of stone 2 ft. base, 1/2 ft. high. S. of cor. Pits impracticable. We obliterate marks on old cor referring to secs. 23 and 24.
Thence We run
S. 0° 1' E. on a true line bet. secs. 23 and 24.
ascend along E slope of ridge
6.70 Cedar pine and aspen
32.60 Leave timber
41.28 Set a Trachyte stone 18 x 10 x 9 ins., 14 ins. in the ground for 1/4 sec. cor. marked 1/4 on W. face. and raise a mound of stone 2 ft. base 1/2 ft. high. W. of cor. Pits impracticable
68.90 Top of ridge bears W. and E. descend.
81.28 The cor of secs 23, 24, 25 and 26,
Fr. Fornerface notes of secs. 23. and 24. see end of subdivision.
Land mountainous.
Soil stony. 4th rate.
Timber. Pine and aspen.
Mountainous land. 81.28 chs.

W. on a random line bet. secs. 23 and 26.
40.00 Set Temp. 1/4 Sec cor.
85.78 Intersect N. and S. line 65 lks. S. 2° 13' E. of the cor of secs. 22. 23. 26 and 27. The falling corresponds with errors discovered in our retracement and is beyond the limits prescribed in the Manual of Instructions. We therefore set a closing cor. for secs. 23 and 26 as follows:

	Chains	Set a Trachyte stone 28 x 18 x 8 ins., 21 ins. in the ground for closing cor. of secs 23 and 26. marked C. C. on E. with 2 grooves on S. and E. faces, and raise a mound of stone 2 ft. base 1½ ft. high. E. of cor., Pits impracticable, from which A Pine 30 ins. diam. bears N. 85° E. 1 chain dist. Marked B.T. S. 23. No other trees within proper dist. We obliterate marks on old cor. referring to secs. 23 and 26.
		Thence We run E. on a true line bet. secs. 23 and 26, Ascend over stony soil.
	15.00	Top of ridge, bears N. and S.
		Descend along S. slope of mountain through scattering pine.
	42.00	Bottom of ravine, course S. Ascend along S. slope of mountain
45.78	45.78	Set a Trachyte stone 24 x 18 x 12 ins, 18 ins. in the ground for ¼ Sec. cor. marked ¼ on N. face, and raise a mound of stone 2 ft. base 1½ ft. high. N. of cor. Pits impracticable.
	66.00	Top of stony ridge bears N. & S. Descend.
	72.00	Ledges, 20 ft. high
	76.00	Bottom of ravine, course S. Ascend gradual slope
	85.78	The cor. of secs. 23. 24. 25 and 26. Land, mountainous. Soil stony; 4th rate. Timber. Pine. scattering. Mountainous land. 85.78 chs.

June 14th 1897.

For retrace notes of sec 26 see end of Subdivision.

Chains	June 25: 1897. at 7 a.m. L.m.t. We ack off 38°36' N. on the lat. arc: 23°24' N. on the decl. arc: and determine a true meridian with the solar at the Standard cor. of secs. 32 and 33 on S. bdy. Yp.
	Thence We mnd
	No° 1 W. bch. secs. 32 and 33,
	Descend through dense undergrowth scattering pine and aspen.
10.50	Bottom of canon 800 ft deep and small branch 2 rds wide course N. ascend.
40.00	Set a trachyte stone 16x10x10 ins, 12 ins. in the ground for 1/4 sec. cor. marked 1/4 on N. face and raise a mound of stone 2 ft. base 1 1/2 ft. high W. of cor. Pits impracticable
42.10	a point 1000 ft above bottom of canon and top of ridge bears E. and W. descend.
61.20	ascend.
80.00	Set a trachyte stone 18x10x9 ins, 12 ins. in the ground for cor. of secs, 28, 29, 32 and 33, marked with 1 notch on the S. and 4 notches on E. edges and raise a mound of stone 2 ft. base 1 1/2 ft. high W. of cor. Pits impracticable.
	Land mountainous.
	Soil stony: 4th rate.
	Timber pine and aspen
	Mountainous land 8100 chs.
	June 25: At this cor. We ack off 23°23' N on the decl arc: and at 12 hrs. 02 m. L.m.t. observe the sun on the meridian the resulting lat. is 38°37' N.

	E. on a random line bch secs 28 and 33.
40.00	Set temp 1/4 sec cor
80.00	Intersect N. and S. line at the cor of secs 27. 28. 32 and 34.
	Thence We mnd
	W. on a true line bch secs. 28 and 33
	Descend through scattering pine and aspen
4.00	Bottom of ravine and Dry run course S.
	Ascend the E. slope of mountain

Chains	
32.85	Face of cliffs 70 ft high bears N.E. and S.W.
	Rapid descent at foot of cliffs under dense undergrowth
40.00	Set a trachyte stone 16 x 10 x 7 ins, 11 ins in the ground for 1/4 sec. cor. marked 1/4 on N. face and raise a mound of stone 2 ft. base 1 1/2 ft. high N. of cor. Pits impracticable
41.35	Head of ravine course S.W. over rolling land along the S. slope of ridge
80.00	The cor of secs. 28, 29, 32 and 33. Land mountainous. Soil stony and gravelly: 3rd and 4th rate. Timber, pine and aspen. Mountainous land. 80.00 chs.
	June 25th 1897.

June 26: At 7 a.m. l.m.t. We left off 38° 37' N. on the tch. arc: 23° 22' N on the dcd. arc: and determine a true meridian with the solar at the cor of secs. 28, 29 32 and 33.

Thence We run

N. 0° 1' W. tch. secs. 28 and 29,

Ascend through dense undergrowth scattering pine and aspen,

33.50	Top of ridge bears E. and W.
	Descend
30.00	Bottom of ravine and branch 5 lks wide course N.W. ascend.
32.50	Ditch flows N.W.
40.00	Set a Limestone 14 x 10 x 7 ins, 10 ins, in the ground for 1/4 sec. cor. marked 1/4 on W. face and raise a mound of stone 2 ft. base 1 1/2 ft high W. of cor. Pits impracticable.
41.45	Top of ridge bears N.W. and S.E. enter scattering pine. Soil stony,
	Descend.

Chains	
45.00	Ditch 3 lks. wide flows N. E. into reservoir.
46.00	Leave timber S. side of reservoir
50.00	North side of reservoir
57.50	Begin ascend.
73.70	Top of ridge bears E. and W. slopes W. Descend
76.00	Ledges 30 ft. high bears S. W. and N. E. descend
80.00	Set a trachyte stone 18 x 8 x 6 ins., 12 ins. in the ground for cor. of secs. 20, 21, 28 and 29, marked with 2 notches on S. and 4 notches on E. edges, and raised a mound of stone 2 ft. base 1½ ft. high W. of cor. Pits impracticable
	Land mountainous
	Soil stony; 4th rate
	Timber pine and aspen.
	Mountainous land 80.00 chs.
	E. on a random line bet. secs. 21 and 28,
40.00	Set temp. ¼ sec. cor.
79.96	Intersect N. and S. line 2 lks. N. of the cor. to secs. 21, 22, 27 and 28,
	thence N.
	N. 89° 59' W. on a true line bet. secs. 21 and 28,
	along top of mountain, Soil stony,
7.00	Begin descend W. slope of mountain through dense undergrowth and scattering pine and aspen.
39.08	Set a trachyte stone 24 x 10 x 6 ins., 18 ins. in the ground for ¼ sec. cor. marked ¼ on N. face and raised a mound of stone 2 ft. base 1½ ft. high W. of cor. Pits impracticable. This cor. is on top of ridge bears S. 85° W. and N. 85° E. Descend.
65.20	Small ditch course S.
79.96	The cor. of secs. 20, 21, 28 and 29.
	Land mountainous
	Soil stony; 4th rate

Subdivision of Sec. 6, T. 2 N. R. 2 W. - Continued.

Chains	
	Timber. Pine and aspen.
	Mountainous land 720 Acres.
	Note - Sky being overcast could take no observation for Lat. this day, June 26, 1897.
	June 27: At 7 a.m. L.M.T. proceed E. 38.38 W. on the Lat. arc: 23° 20' N. on the decl. arc: and determine a true meridian with the polar at the cor. of secs. 20. 21. 28. and 29. Hence the run N. 0° 01' W. bet. secs. 20 and 21, Ascend over rolling land. Through scattering pine and aspen.
21.00	Top of ridge bears S.W. and N.E. Descend.
33.10	Branch 2 lks. wide course W. Ascend. Leave timber.
40.00	Set a Bradley stone 16 x 10 x 8 ins, 12 ins. in the ground for the cor. common to secs. 16. 17. 20. and 21. marked with 3 notches on the S. and 4 notches on the E. edges, and raise a mound of stone 2 ft. base, 1½ ft. high, W. of cor. Pits impracticable.
80.00	Set a Bradley stone 20 x 10 x 8 ins, 18 ins. in the ground for cor. of secs. 16. 17. 20. and 21. marked with 3 notches on the S. and 4 notches on the E. edges, and raise a mound of stone 2 ft. base 1½ ft. high. W. of cor. Pits impracticable. Land mountainous. Soil stony: 2d rate. Timber Pine and aspen. Mountainous land. 80.00 Acres.
	June 27: At this cor. the obs. for lat. is 23° 16' N. on the decl. arc: and at 12 hrs. 03 m. L.M.T. and observing the sun on the meridian the resulting lat. is 23° 38' N.

Subdivision of T. 25 S., R. 2 W., continued

Chains.	S. 89° 59' E. on a random line bet. secs. 16 and 21.
40.00	Set temp. 1/4 sec. cor.
80.12	Intersect N. and S. line 9 lks S. of the cor. of secs. 15, 16, 21 and 22. Thence We run S. 89° 57' W. on a true line bet. secs. 16 and 21. Ascend, soil stony, through scattering pine.
3.63	Top of mountain, bears N. and S. along N side of mountain.
20.00	Top of ridge bears N. and S. leave timber. Descend.
30.00	Ledges, bears N. W. and S. E. ~~rapid descent S. W.~~ slope of mountain
40.06	Set a Brachyle stone 30 x 12 x 10 ins., 22 ins in the ground for 1/4 sec. cor. marked 1/4 on N. face and raise a mound of stone 2 ft. base 1½ ft. high. N. of cor. Pits impracticable.
48.00	Ledges, bears N. E. and S. W.
59.00	Ledges, bears N. E. and S. W.
68.00	Top of stony ridge bears N. and S. Descend over slide rock through dense undergrowth.
80.12	The cor. of secs. 16, 17, 20 and 21. Land mountainous. Soil stony; 4th rate. Timber, Pines scattering. Mountainous land 80.12 chs.

June 27, 1897.

June 28, At 7 a.m. l. m. t. We set ~~Sf~~ 38° 38' on the lat. arc: 23° 17' N. on the decl. arc: and determine a true meridian with the solar at the cor of secs. 16, 17, 20 and 21.
Thence We run
N. 0° 01' W. bet secs. 16 and 17.
Ascend, through dense undergrowth over stony soil.

18.00	Top of mountain bears E. and W. Descend.

Subdivision of T. 23 S., R. 2 W., continued.

Chains	
37.00	Bottom of ravine 200 ft. deep, course N.W. ascend
40.00	Set a trachyte stone 14 x 7 x 7 ins., 10 ins. in the ground for 1/4 sec. cor. marked 1/4 on W. face and raise a mound of stone 2 ft. base 1 1/2 ft. high W. of cor. Pits impracticable
47.38	Point of spur projects N.W.
48.00	Cedar, scattering pine and mahogany.
71.88	Bottom of ravine 150 ft. deep, course W. ascend leave timber and cedar, dense undergrowth.
80.00	Set a trachyte stone 16 x 10 x 9 ins., 11 ins. in the ground for cor. of secs. 8, 9, 16 and 17, marked with 4 notches on the S. and E. edges, and raise a mound of stone 2 ft. base 1 1/2 ft. high W. of cor. Pits impracticable.
	Land mountainous
	Soil stony; 4th rate.
	Timber, pine and mahogany.
	Mountainous land 80.00 chs.
	June 28th, at this cor. Mag. dec. 23° 15' 30" N. on the dec. arc; and at 12 hrs. 03 m. 1 m.t., observe the sun on the meridian, the resulting lat. is 38° 39' N.
	S. 89° 57' E. on a random line bet. secs. 9 and 16.
40.00	Set temp. 1/4 sec. cor.

Pp 25 S., R. 2 W. as follows— Set a trachyte stone 18 x 12 x 8 ins., 12 ins. in the ground for closing cor. of secs. 5 and 6. marked C. C. on S., with 5 grooves on E. and 1 groove on W. faces and raise a mound of stone 2 ft. base 1½ ft high S. of cor. Pits impracticable Thence W. on a true line between secs. 5 and 6.
23.80	Ascend along W. slope of ridge through scattering cedar, soil stony, Top of spur projects N. descend,
33.78	Set a trachyte stone 16 x 10 x 9 ins. 12 ins in the ground for ¼ sec cor. marked ¼ on W. face and raise a mound of stone 2 ft. base 1½ ft high W. of cor. Pits impracticable,
56.50	Drag road bears E. and W.
59.30	Branch 5 lks wide course W. ascend
75.78	The cor of secs. 5. 6. 7 and 8. Land mountainous Soil stony: with rock Timber cedar scattering Mountainous land 75.7 Chs.

July 2nd 1897.

Retracement of Subdivisions of T. 25 S. R. 2 W.

Sec 23 of This Tp does not close within the proper limits, therefore retrace as follows.

We begin at the corner of secs 14 and 23 previously described Thence W. on

East on a retracement line bet secs 14 and 23, and at 40.00 chs. after diligent search no trace of old 1/4 cor can be found, and at 79.51 chs. the old cor of secs 13 and 14 as previously described, N. 1.10 chs. dist. the course of this line is therefore S. 89° 13' W. Thence N. on a retracement line bet secs 13 and 23, 10.80 chs the closing cor of secs 23 and 24 previously set by us and at 40.00 chs after diligent search found no trace of old 1/4 sec. cor. and at 86.60 chs Intersect a point N. 2° 40' W. from the closing cor. of secs 24 and 25 E. bdy. Pp. Running this is the point for the cor. of secs. 13, 18, 19 and 24 Tps. 2 S. Rs. 1 and 2 W., from the retracement made of the W. bdy of T. 2 S. R. 1 W., thereby we set a cor. for secs. 13, 18, 19, and 24, as follows:

Set a Brachyle stone 14 x 10 x 9 ins., 10 ins. in the ground for cor. of secs 13, 18, 19 and 24 marked with 3 notches on the N. and S. edges and raised a mound of stone 2 ft. base, 1/2 ft. high W. of cor. Pits impracticable.

Thence we run S. 2° 40' E. on a retracement line bet. secs. 19 and 24 Tps. 2 S. Rs. 1 and 2 W., at 40.00 chs. search diligently but find no trace of old 1/4 sec. cor. can be found, and at 81.12 chs. Intersect the closing cor. previously set by us. This closes secs. 23 and 24.

As sec 26 of this Tp does not close on the proper limits we retrace as follows:

We begin at the cor of secs 26, 27, 34 and 35 previously described and run East on a Blank line bet secs 26 and 35 at 40.00 chs. after diligent search no trace of 1/4 sec cor can be found, and

See corrected Notes Book

See corrected Notes book

See corrected Notes book

at 82.60 chs. Intersect N. and S. line E. cor.
S. of the cor. of secs. 26, 27, 34, and 35
previously described. This makes the
closing. Therefore We conclude our
work is correct. The course of this
line is thereon S 89° 56' W.

General Description.

This portion of the township is entirely
mountainous. The soil ranges from
gravelly loam to stony clay.
The southern part of the township is well
watered, all the branches are tributary
to Monroe creek.
This portion has quite a heavy growth
of aspen and pine timber, while
the northern and western has scattering
cedar, pinion pine and mahogany with
dense growth sage, oak and juniper
brush.
The south-eastern portion of the town-
ship is excellent grazing and the entire
township would be considered good
range land. There is a small reservoir
on the east line between secs. 28 and 29 but
We were unable to learn who owned
the same.
Mr Moroni Hunt, Thos Hunt and
David Collins, were residents of Monroe
Their claims must be located in the
township south. There are no notable
indications of minerals.

6—151

Subdivision of T. 25 S., R. 2 W.

Survey Commenced
May 17th 1901.
and executed with the instrument described in book 1 of this survey.

We know from recent observation made May 14th and 15th at the cor. of secs. 10, 11, 14 and 15 T. 24 S., R. 2 W.
and recorded in book I of this survey, that the instruments is in adjustment.

At 8 a.m., l. m. t.,
At the cor. of secs. 2, 3, 10 and 11
which is a trachyte 8 x 6 x 4 ins. above ground, firmly set and marked as directed by the Surveyor General.

We set off 38° 40' N. on dec. arc: 19' 17" W. on dec. arc: and determine a true meridian with the solar.

We know by previous survey the length of this line is 87.34 chs. and the course N. 3° 54' E.
Therefore,
We run
N. 3° 54' E.
Set secs. 2 and 3.
Descend
0.50 Leave timber
4.65 Wagon road
Meas. E. and W.
5.65 Enter timber

Subdivision of T. 25 S. R. 27 E. continued.

Chains	
27.00	Leave timber.
31.55	Wagon road bears N. W. and S. E.
40.00	the 1/4 sec. cor. established by us. We destroy all trace of same.
43.78	Set a trachyte 16 x 16 x 5 ins. 10 ins. in the ground, for reëstablished 1/4 sec. cor. marked 1/4 S. 3 on W. 2 on E. faces. Raised a mound of stone 2 ft. base 1 1/2 ft. high W. of cor. Pits impracticable.
50.00	Top of mountain and ridge bears E. and W. descend through heavy aspen and pine timber.
87.34	The cor. of secs. 2 and 3 on the N. bdy. of T. Land, Mountainous Soil, clay and loam. 2nd rate. Timber, heavy aspen and pine. Mountainous land and heavily timbered 87.34 chs.
	We begin at a point N. 2° 13' W. 65 lks. from the reëstablished cor. of secs. 22, 23, 26 and 27. where this cor. was originally established. Thence We run N. 3° 17' W. bet. secs. 22 and 23.
7.35	Begin steep descent. Enter pine and aspen timber.
27.35	Head of ravine, Course E.

Subdivision of T. 25 S., R. 2 W. Continued.

Chains.	
32.00	Stony knoll 30 ft. high. Descend along E. side of ridge
39.15	The 1/4 sec. cor. set by us for destroy all trace of same.
41.23	set a trachyte 18 x 9 x 5 ins. 10 ins. in the ground for re-established 1/4 sec. cor. marked 1/4 S. 22 on W. 23 on E. faces. From which a pine 10 ins. in diam. bears S. 50° W. 28 lks. dist. marked 1/4 S. 22 B.T. An aspen 3 ins. in diam. bears S. 40° E. 6 lks. dist. marked 1/4 S. 23 B.T.
79.48	The cor. of secs. 14, 15, 22 and 23 set by us. for destroy all trace of same. at this point. We set a closing cor. for secs. 15 and 22 as follows: Set a trachyte stone 15 x 10 x 5 ins. 10 ins. in the ground for Closing Cor. to secs. 15 and 22. marked C.C. on W. with 3 grooves on S. and 2 grooves on E. faces. From which a pine 9 ins. in diam. bears S. 51° W. 29 lks. dist. marked T. 25 S., R. 2 W. S. 22 B.T. A pine 4 ins. in diam. bears N. 70° W. 30 lks. dist. marked T. 25 S. R. 2 W. S. 15 B.T.
82.46	set a trachyte stone 16 x 9 x 6 ins. 11 ins. in the ground for re-established cor. of secs. 14 and 23. marked with 3 notches on the S. and 2 notches on E. edges. From which a pine 24 ins. in diam. bears N. 89 E. 39 lks. dist. Marked T. 25 S. R. 2 W. S. 14 B.T.

Subdivision of T. 7 S., R. 2 W. continued.

Chains	
	A pine 7 ins. in diam. bears S. 77° E. 30 lks. dist. marked T. 36 S., R. 2 W. S. 73 B.T.
	Land, mountainous.
	Soil, Stony 3rd rate
	Timber, aspen and pine.
	Mountainous land
	Heavily timbered 82.47 chs.
	At this cor. the set off 19° 18' N. on dec. arc; and at 12h 40m. l.m.t. observe the sun on the meridian the resulting lat. is 38° 38' N.

U.S. Deputy Surveyors

There being no notary public or other officer authorized to administer oaths within reasonable distance at the beginning or ending of the survey, in order to save time and expense, I administer the preliminary and final oaths myself.

Hubert D. Page
U.S. Deputy Surveyor.

FINAL OATHS OF DEPUTY SURVEYOR AND HIS ASSISTANTS.

LIST OF NAMES.

A list of the names of the individuals employed by Hubert D. Page and George E. Sievers, United States Deputy Surveyors, to assist in running, measuring, and marking the lines and corners described in the foregoing field notes of the survey of the Subdivisions of Township 25 South Range 2 West of the Salt Lake Base & Meridian Utah showing the respective capacities in which they acted:

William O. Halquist, Chainman.
Jay Morrison, Chainman.
Ernest H. Anderson, Moundman.
, Moundman.
Ernest H. Anderson, Axman.
, Axman.
Harry Lane, Flagman.

FINAL OATH OF ASSISTANTS.

We hereby certify that we assisted Hubert D. Page and George E. Sievers, United States Deputy Surveyors in surveying all those parts or portions of the Subdivisions of Township 25 South Range 2 West

of the Salt Lake base and meridian, State of Utah, which are represented in the foregoing field notes as having been surveyed by him and under his direction; and that said survey has been in all respects, to the best of our knowledge and belief, well and faithfully surveyed, and the corner monuments established, according to the instructions furnished by the United States Surveyor General for Utah

William O. Halquist Chainman.
Jay Morrison, Chainman.
Ernest H. Anderson, Moundman.
, Moundman.
Ernest H. Anderson, Axman.
, Axman.
Harry Lane, Flagman.

FINAL OATH OF UNITED STATES DEPUTY SURVEYOR.

I, Hubert S. Page and George E. Swan, United States Deputy Surveyor, solemnly swear that, in pursuance of a contract received from George W. Shaw, United States Surveyor General for the District of Utah, bearing date of the 26th day of December, 1896, I have well, faithfully, and truly, in my proper person, and in strict conformity with the instructions furnished by the United States Surveyor General for the District of Utah, the Manual of Surveying Instructions, and the laws of the United States, surveyed all those parts or portions of the subdivisions of Township 25 South Range 2 West

of the Salt Lake Base and meridian, in the State of Utah, which are represented in the foregoing field notes as having been surveyed by me, and under my direction; and I do further solemnly swear that all the corners of said survey have been established and perpetuated in strict accordance with the Manual of Surveying Instructions, and the special written instructions of the United States Surveyor General for the District of Utah, and in the specific manner described in the field notes, and that the foregoing are the original field notes of such survey; and should any fraud be detected, I will submit to the penalty of perjury under the provisions of an Act of Congress approved August 8, 1846.

Hubert S. Page
George E. Swan
United States Deputy Surveyors

Subscribed by said Hubert S. Page and George E. Swan, and sworn to before me this 5th day of December 1896.

Resurvey of Subdivision of T. 24 S., R. 2 W.

Survey Commenced June 18th 1897, and executed with the instrument described in book "A" and "B"

at 2 p.m. L.m.t. We set off 23° 27' W. on the decl. arc, 38° 4' N.E. lat. arc, and determine a true meridian with the solar, the line thus determined falls on the mark of the True Meridian established by the Polaris observation made June 9th 1897 at the cor. of R. 24 and 25 S., Rs. 2 and 3 W.

Preliminary to commencing the subdivision of this township, we run N. on a blank line on the E. bdy. of sec. 36. at 40. chs we find the 1/4 sec. cor. which is a trachyte stone 6 x 8 x 7 ins. above ground set firmly and

marked 1/4 on W. face. Mound of stone 2 ft. base, 1 1/2 ft. high. W. of cor. and at 80.00 chs. the cor. of secs. 25, 30, 31 and 36. W. 1 lk. dist. which is trachyte stone 13 x 14 x 10 ins. laying loose, 5 notches on the N. and 1 notch on S. edges. laying loose on the ground. The land in this vicinity is subject to floods. therefore, we reestablish the cor. at the same point as follows: Set a blue granite boulder 36 x 36 x 16 ins. on a solid rock base, 16 ins. in the ground for cor. of secs. 25, 30, 31 and 36 marked with

5 notches on the N. and one notch on the S. edges raised a mound of stone 3 ft base, 2 ft. high W. of cor.

Resurvey of Subdivision of T. 24 S., R. 2 W.- contin.

The course of this line is therefore North.
Thence We run E. on a blank line bet. secs. 30 and 31, at 40. chs We find 1/4 sec. cor. which is a trachyte stone 25 x 11 x 8 ins. set in a mound of stone marked 1/4 on the N. face. raised Mound of stone, 2 ft. base 1½ ft high N. of cor.
and at 79.93 chs. We find a partly destroyed mound of rock, No Marked rock could be found, S
We reestablish the cor. at this place as follows:
Set a granite stone 16 x 10 x 6 ins. 11 ins. in the ground, for cor. of secs. 29 and 30. Marked with 5 notches on the E. and 1 notch on the S. edges; raised a mound of stone N. of the cor.
Thence We run N. on a blank line bet. secs. 19 and 30. and at 39.90 chs. We find the 1/4 sec. cor. W. 26 lks. dist. which is trachyte stone 8 x 10 x 10 ins. above ground, firmly set & marked 1/4 on W. face. raised a mound of stone 2 ft. base, 1½ ft. high W. of Cor. The course of this line is therefore N. 0° 22' W. Without moving the cor. We continue our line N. and at 80.11 chs. We find the cor. of secs. 19, 20, 29 and 30. E. 1.81 chs. dist. which is a trachytic rock 14 x 12 x 8 ins 8 ins. above the ground. set firmly. marked with 5 notches on the E. and 2 notches on the S. edges. raised a mound of stone 2 ft. base, 1½ ft. high. W. of cor. The course of this line is therefore N. 2° 56' E. dist 40.36 chs.

Thence We run E. on a blank line bet. Secs. 20 and 29. and at 40.75 chs. We find the 1/4 sec. cor. N. 10 lks. dist. which is a trachyte rock 8 x 14 x 7 ins. above ground set firmly. Marked 1/4 on N. face, raised a mound of stone 2 ft. base, 1 1/2 ft. high N. of cor. The course of this line is therefore N. 89° 51' E. Without moving to the cor. We continue our line E. and at 81.69 chs. We find the cor. of secs. 20, 21, 28 and 29. N. 1/2 lks. dist. which is a trachyte rock 8 x 10 x 6 ins. above the ground. Marked as described by the Surveyor General. We raise a mound of stone 2 ft. base, 1 1/2 ft. high. N. of the cor.

The course of this line is N. 89° 58' E.

Thence We run N. on a blank line bet. Secs. 20 and 21. 40.00 chs, after diligent search no old 1/4 sec. cor. can be found. 80.68 chs. we find the cor. of secs. 16, 17, 20 and 21. W. 9 lks. dist. which is a trachyte rock 8 x 12 x 10 ins. above ground: firmly set and marked as described by the Surveyor General. We rebuild mound of stone 2 ft. base, 1 1/2 ft. high W. of cor.

The course of this line is therefore N. 0° 08' W.

Thence We run E. bet. secs 16 and 21 39.63 chs. we find the 1/4 sec. cor. N. 18 lks dist. which is a trachyte rock 8 x 9 x 6 ins. above the ground, firmly set, and marked 1/4 on the N. face raised a mound of stone 2 ft. base 1 1/2 ft. high N. of cor.

The course of this line is therefore N. 89° 44' E.

78.93 chs. we find the cor. of secs. 15, 16, 21 and 22. N. 45 lks. dist. which is a trachyte rock 8 x 11 x 10 ins. above ground, firmly set, and marked as described by the Surveyor General. We rebuild mound of stone 2 ft. base, 1½ ft. high N. of cor.

The course of this line is therefore N. 89° 36' E.

Thence we run E. on a blank line bet. secs. 15 and 22. 40.13 chs. We find the ¼ sec. cor. S. 17 lks. dist. which is a trachyte 8 x 10 x 5 ins. above ground, firmly set, and marked ¼ on the N. face, raised a mound of stone 2 ft. base 1½ ft. high N. of cor.

The course of this line is therefore S. 89° 50' E. Thence we run E. 80.63 chs. We find the cor. of secs. 14, 15, 22 and 23. Which is a trachyte rock 8 x 11 x 10 ins. above ground, firmly set, and marked as described by the Surveyor General. We rebuild mound of stone 2 ft. base, 1½ ft. high N. of cor.

The course of this line is therefore East.

Thence we run N. bet. secs. 14 and 15. 40.00 after diligent search no old ¼ sec. cor. can be found. 81.15 chs. We find the cor. of secs. 10, 11, 14 and 15. E. 7 lks dist. Which is a trachyte rock 16 x 17 x 9 ins. Lying loose in a mound of rocks. We reestablish the cor. in the same place as follows:

Set a trachyte rock 16 x 17 x 9 ins. 11 ins. in the ground, for cor. to secs. 10, 11, 14 and 15, marked with

4 notches on the S. and 2 notches on the E. edges, raised a mound of stone 2 ft. base 1½ ft. high W. of cor.

The course of this line is therefore N. 0° 34' E.

Thence we run N. on a blank line, bet. secs. 10 and 11.

40.00 chs. after diligent search no old ¼ sec. cor. can be found.

80.00 chs. after diligent search no old sec. cor. can be found.

120.00 chs. after diligent search no old ¼ sec. cor. can be found.

164.94 chs. We find a mound of rock, bearing evidences of a cor. but no marked rock.

W. 3 lks. dist. We reestablish cor. at this place as follows:

Set a trachyte stone 18 x 6 x 5 ins. 12 ins. in the ground, for cor. of secs. 2, 3, 34 and 35, marked with 2 notches on the E. and 4 notches on the W. edges raised a mound of stone 2 ft. base, 1½ ft. high W. of cor.

The course of this line is therefore N. 0° 07' W.

Thence We proceed to the cor. of secs. 34, 33 and 34, which is a trachyte stone 15 x 7 x 6 ins. in a mound of rock, marked as described by the Surveyor General.

Thence we run E. on a blank line, bet. secs. 3 and 34.

42.80 chs. We find the ¼ sec. cor. N. 20 lks. dist. which is a trachyte stone 6 x 8 x 6 ins. above the ground, firmly set and marked ¼ on W. face, raised a mound

See corrections Note Book 1.

of stone 2 ft. base, 1½ ft. high, N. of cor.

The course of this line ~~and~~ is therefore N. 87° 03' E. dist. 42.86 chs.

We continue our line E. and at 80.49 chs. We find the cor. of secs. 2, 3, 34 and 35 established by us. N. 5.26 chs. dist.

The course of this line is therefore N. 85° 25' E. dist 37.81 chs.

Thence We run E. on a blank line bet. secs. 2 and 35

40.19 chs. we find the 1/4 sec. cor. N. 56 lks. dist. which is a trachyte stone 8 x 6 x 6 ins. above ground, firmly set, and marked 1/4 on N. face, raised a mound of stone 2 ft base, 1½ ft. high N. of cor. The course of this line is therefore N. 89° 17' E. a distance 40.19 chs.

Thence We run E. on a blank line 40.00 chs. after diligent search no old sec. cor. can be found. 180.00 chs after diligent search no old 1/4 sec. cor. can be found. 181.21 chs. We find the cor. of 1, 12, 13 and 24 S. Rs. 1 and 2 W.

N. 65 lks. dist. which is a trachyte stone 7 x 8 x 5 ins. above ground, firmly set and marked as described by the Surveyor General.

The course of this line is therefore N. 89° 42' E.

The township north having been subdivided, We reestablish the missing corners in their original places, and by allowing proportionate measurements.

We run

17.50	Top of boulder knoll.
22.00	Leave boulder knoll and mahogany enter rolling land.
40.00	Set a trachyte stone 13 x 8 x 6 ins 9 ins. in the ground for 1/4 sec. cor. marked 1/4 on N. face. raised a mound of stone 2 ft base, 1 1/2 ft. high N. of cor. Pits impracticable.
50.90	Enter scattering cedar and pinion pine timber.
62.80	Begin steep descent.
80.00	The cor. of secs. 23, 24, 25 and 26. Land, mountainous Soil Stony 3rd and 4th rate Timber, Mahogany, cedar and pinion pine. Mountainous land, 80.00 chs.
	N. 0° 1' W. on a random line bet. secs 23 and 24.
39.39	Intersect an E. and W. line 7 lks E. of the cor. of secs. 14, 23, 24 & 25 set by us. Thence We run S. 0° 6' E., on a true line bet secs. 23 and 24. Begin ascending along N. slope of ridge, over rolling land through dense sage brush.
18.70	Enter ledges and slide rock. Spur projects N. begin descending along S. W. slope of ridge.
28.70	Ledges 15 ft high N. W. and S. E.
39.39	the cor. of secs. 23, 24, 25 and 26. Thence We proceed to a point 61 links

Subdivision of T. 24 S., R. 2 W. - Continued

	N. of the cor. of secs 14 and 23 and establish 1/4 sec. cor. to sec. 24 as follows:
40.00	Set a trachyte stone 15x6x8 ins. 10 ins. in the ground for 1/4 sec. cor. marked 1/4 on E. face. raised a mound of stone 2 ft. base, 1 ft. high E. of cor. Pits impracticable. Land, mountainous. Soil, stony ... 4th rate. No timber. Mountainous land . 40.00 chs.
	July 15th 1897. At 7 a.m. l.m.t, We set off 38°43' N. on lat. arc; 21°28' N. on dec. arc; and determine a true meridian with the solar. at the cor. of secs. 13 and 24 on E. bdy. of T. Thence We run N. on a random line bet. secs. 13 and 24.
40.00	Set Temp. 1/4 sec. cor.
80.08	Intersect N. and S. line 7 lks. S. of the 1/4 sec. cor. for sec. 14. This corresponds to previous survey made on retracement, therefore We set a closing cor. for secs 13 and 24 as follows: Set a trachyte stone 15 x 8 x 6 ins. 10 ins. in the ground for cor. of secs. 13 and 24. Marked C.C. with 1 groove on the E. and 3 grooves on the S. faces. raised a mound of stone 2 ft. base, 2 ft. high E. of cor. Pits impracticable. Thence we run E. on a true line bet. secs. 13 and 24. Ascending over rolling land, through dense sage brush and scattering cedar.
9.00	Top of ridge bears N. W. and S. E.
21.00	Bottom of ravine, 200 ft. deep. course N. W.
40.04	Set a trachyte stone 15 x 8 x 5 ins. 10 ins. in the ground for 1/4 sec. cor, marked 1/4 on N. face, raised a mound of stone 2 ft. base, 2 ft high N. of cor. Pits impracticable.

Chains.	
41.00	Wagon road to top of Mountain bears N.W. and S.E.
80.08	The cor. of secs. 13 and 24 on E. bdy. of Tp. Land, mountainous. Soil, stony 4th rate. Timber scattering cedar. Mountainous land 80.08 chs.

We know by previous surveys and intersection line between secs. 13 and 14 the cor. of secs. 11 and 14 is 40.57 chs. N. from the closing cor. to secs. 13 and 24. We obliterate the marks pertaining to secs. 12 and 13 and establish a 1/4 sec. cor. to sec. 13. S. 57 links. as follows: Set a trachyte stone 15 x 6 x 6 ins. 18 ins. in the ground for 1/4 sec. cor. to sec. 13. marked 1/4. on E. face. raised a mound of stone 2 ft. base, 2 ft. high E. of cor. Pits impracticable. Thence We run N. on a true line bet. secs. 13 and 14. Over rolling land, through dense sage brush and scattering cedar. along W. slope of ridge.

See Corrections Order Book 1

0.57	The cor. of secs. 11 and 14.
	Thence We run N. 0° 01' W. bet. secs. 11 and 13.
25.50	Wagon road, along ridge bears N. 7° W. and S.E.
40.00	Set a trachyte stone 15 x 8 x 6 ins. 10 ins. in the ground, for closing cor. of secs. 12 and 13. marked C.C. with 1 groove on the E. and 4 grooves on the S. faces raised a mound of stone 2 ft. base, 2 ft. high E. of cor. Pits impracticable. Land, mountainous. Soil, stony 4th rate. Timber, scattering Cedar Mountainous land, 40.00 chs.

Thence We run E. on a random line bet. secs. 12 and 13.

40.00	Set temp. 1/4 sec. cor.
80.08	Intersect E. bdy. of Tp. at the cor. of secs. 12 and 13.
	Thence We run W. on a true line bet. secs. 12 and 13.

chains	
	Descending over rolling land, through dense undergrowth and scattering cedar.
38.50	Ravine 100 ft. deep. Course N. W.
39.00	Wood road, bears N. W. and S. E.
40.04	Set a trachyte stone 15 x 6 x 6 ins. 10 ins. in the ground for 1/4 sec. cor. marked 1/4 on N. face, raised a mound of stone, 2 ft. base, 2 ft. high N. of cor. Pits impracticable.
69.00	Spur, projects N.
78.00	Ravine 75 ft. deep course N. W.

	and reserves;
	therefore
	We run
	East a true line
	bet. secs. 2 and 11.
	Ascending over rolling land, through
	dense sage brush and scattering cedar.
8.00	Top of ridge bears N. and S.
41.23	The cor. of secs. 2 and 11.
	Land mountainous.
	Soil, stony — H^d rate;
	Timber, scattering cedar.
	Mountainous land, 41.23 chs.
	July 15th 1897.

July 16th 1897.

At 8 A.M. L.M.T., We set off 38' 41' N. on lat. arc; 21° 17' N. on dec. arc; and determine a true meridian with the solar, at the cor. of secs. 34 and 35, on the S. bdy. of T.

Thence We run.

N. 0° 01' W. bet. secs. 34 and 35.

Descending over rolling land, through scattering pine and aspen.

5.60	Bottom of ravine, 100 ft. deep, course N. 65° W.
7.00	Leave timber, enter dense sage brush.
	The land at cor. being subject to slides,
	We place witness Cor. at
10.50	On gentle S.W. slope of ridge,
	set a trachyte stone 30 x 10 x 6 ins. on a
	solid rock base, in mound of stone,
	for W.C. to secs. 34 and 35. Marked W.C. on
	N.E. face, with 2 notches on E. and 4
	notches on W. edges.
	Raised a mound of stone 2 ft. base,
	2 ft. high, N. of cor. Pits impracticable.
17.50	Top of ridge bears N.W. and S.E.
75.50	Enter pine and aspen.

Chains	
27.15	Bottom of ravine 100 ft. deep—course N. 70° W.
27.50	Leave timber.
38.00	Enter timber, (heavy pine.)
40.00	Set a trachyte stone 16 x 14 x 12 ins. 11 ins. in the ground for 1/4 sec. cor. Marked 1/4 on W. face, raised a mound of stone, 2 ft. base, 1 1/2 ft. high W. of cor. From which a pine 8 ins. in diam. bears E. 10 lks. dist. marked 1/4 S. B. T. a pine 6 ins. in diam. bears W. 12 lks. dist. marked 1/4 S. B. T.
48.50	Trachyte ledges, bear E. and W. Leave timber.
53.50	Enter scattering pine, young growth.
78.90	Ravine 1500 ft. below 1/4 sec. cor. drains N. W.
80.00	Marked a projecting trachyte rock 20 x 20 x 20 ins. for cor. of secs. 26, 27, 34 and 35. Marked with 2 notches on the E. and 1 notch on the S. edges. raised a mound of stone 3 ft. base, 2 ft. high, W. of cor. Pits impracticable. Land, mountainous. Soil, stony, 4th rate. Timber, pine and aspen. Mountainous land and Dense undergrowth 80.00 chs.
	E. on a random line bet. secs. 26 and 35.
40.00	Set temp. 1/4 sec. cor.
80.00	Intersect N. and S. line 5 lks. N. of the cor. of secs. 25, 26, 35 and 36.

Chains	
	Thence West. N. 89° 58' W. on a true line bet. secs. 26 and 35. Begin ascending the West side of cañon over slide rock.
12.50	Leave cañon, ascend over rolling land, enter dense sage brush, and scattering cedar and pinion pine timber.
21.00	Top of ridge, bears N. W. and S. E.
40.00	Set a trachyte stone 16 x 10 x 5 ins. 11 ins. in the ground, for 1/4 sec. cor. marked 1/4 on N. face, raised a mound of stone, 2 ft. base, 1½ ft. high N. of cor. Pits impracticable.
51.50	Ravine 200 ft. deep course N. 40° W.
62.00	Begin rapid descent.
80.00	The cor. of secs. 26, 27, 34 and 35. Land, mountainous. Soil, stony 4th rate. Timber, scattering cedar and pine. Mountainous land and dense undergrowth 80.00 chs.
	N. 0° 01' W. bet. secs. 26 and 27. Descending over rolling, land through dense sage and oak brush, along the N. W. slope of the mountain.
40.00	Set a trachyte stone 16 x 8 x 6 ins. 11 ins. in the ground, for 1/4 sec. cor. marked 1/4 on W. face, raised a mound of stone 2 ft. base, 1½ ft. high W. of cor. Pits impracticable.
70.00	Begin descending W. side of ravine enter scattering cedar and pine.

80.00	On West side of ravine. Set a trachyte stone 20 x 10 x 6 ins. 15 ins. in the ground, for the cor. of secs. 22, 23, 26 and 27 marked with 2 notches on the E. and S. edges. Raised a mound of stone 2 ft. base 1½ ft. high W. of cor. Pits impracticable. Land, mountainous. Soil, stony 3rd and 4th rate. Timber, scattering cedar and pinion pine, mountainous land and dense undergrowth. 80.00 chs.
	July 26th: At this cor. observed ⊙ ♌ 21° 15' N. on decl. arc; and at 2h 6m l.m.t. observed the sun on the meridian; the resulting lat. is 38° 43' N.
	S. 89° 58' E. on a random line bet. secs. 23 and 26.
40.00	Set temp. ¼ sec. cor.
80.06	Intersect N. and S. line 5 lks. E. of the cor. of secs. 23, 24, 25 and 26. Thence W.
	West on a true line bet. secs. 23 and 26.
	Begin descending over stony land.
0.75	Drag road, bears N. 77. 30' S. E.
1.00	Bottom of ravine 15 ft. below sec. cor. Course N. W. begin steep ascent over slide rock and boulders.
8.75	Top of rocky ridge, 800 ft. above sec. cor. bears N. 40° W. and SE. begin descending.
27.00	Bottom of cañon 1000 ft. deep and Nate Creek 5 lks. wide, pure water flows N. 40° W. begin Ascending.

Chains	
3550	Top of steep slopes, leave canon, begin descending over rolling stony land, enter dense sage brush and scattering cedar and pinion pine timber.
40.08	Set a trachyte stone 14 x 10 x 8 ins. 10 ins in the ground, for 1/4 sec. cor., marked 1/4 cor. N. f. sec., raised a mound of stone 2 ft. base 1½ ft. high N. of cor. Pits impracticable, from which a cedar 18 ins. in diam. bears S. 60° W. 75 lks. dist. Marked 1/4 S. B. T.
50.00	Top of ridge bears N. W. and S. E.
64.10	Bottom of ravine, 150 ft. deep, course N. 30° W.
71.00	Enter heavy cedars, Top of ridge bears N. W. and S. E.
76.00	Leave heavy cedars.
79.20	Bottom of ravine 150 ft. deep, course N. 64° W.
80.06	The cor. of secs. 22, 23, 26 and 27. Land, Mountainous. Soil Stony 3rd and 4th rate. Timber, cedar and pinion pine. Mountainous land and dense under growth. 80.06 chs.
	N. 0° 11' W. on a random line bet. secs. 22 and 23.
39.43	Intersect E. and W. line 1.88 chs. E. of the cor. of secs. 14 and 15. This corresponds to measurement. Therefore I set a closing cor. as follows: Set a trachyte stone 12 x 12 x 8 ins. 8 ins. in the ground for cor. of fract. secs. 22 and 23. Marked C. C. with 3 grooves on the S. and 2 grooves on the E., raised a mound of stone 2 ft. base 1½ ft. high S. of cor.

Chains	
	Thence W. run S. 8° 1' E. on a true line bet. secs 22 and 23. Begin ascending over rolling land through dense sage brush and scattering cedar and pinion pine timber.
16.90	Irrigation conduct 5 lks wide, pure water, flows W. along W. slope of ridge
39.00	Bottom of ravine, 150 ft. deep. Course N. 64° W.
39.43	The cor. of secs. 22, 23, 26 and 27. Land, mountainous. Soil, stony. 3rd and 4th rate. Mountainous land and dense undergrowth, 39.43 chs

July 17th, 7 a.m., l.m.t., We set off 38° 41' Nov lat. arc; 21° 08' N, on decl. arc; and determine a true Meridian with the solar, at the cor. of secs. 33 and 34 on the S. bdy. of Tp.

Thence W. run.

N. 0° 2' W. bet. secs 33 and 34.

Begin descending N. slope of Mountain, over rolling rocky land through scattering cedar and pine

13.50	Top of ridge, bears N. 60° W. and S. 60° E.
40.00	Set a trachyte stone 14 x 8 x 6 ins. 10 ins. in the ground for 1/4 sec. cor. marked 1/4 on the W. face, raised a mound of stone 2 ft. base, 1½ ft. high, W. of cor. Pits impracticable.
61.60	Top of sandstone ledges, leave pine timber, bear E. and W.
68.00	Leave sandstone ledges
77.10	Bottom of ravine, 100.0 ft. below 1/4 sec. cor., course W.

Chains.	
80.00	on S. slope of ridge set a trachyte stone 16 x 12 x 8 ins. 11 ins in the ground, for cor of secs 27, 28, 33 and 34, marked with 3 notches on the E. and 1 notch on the S. raised a mound of stone 2 ft. base 1½ ft. high W. of cor. Pits impracticable. Land mountainous. Soil, stony, of the usual nature. Timber, scattering cedar and pine. Mountainous land 80.00 chs.
	E. on a random line between secs 27 and 34.
40.00	Set temp. ¼ sec. cor.
80.00	Intersect N. and S. line at the cor of secs 26, 27, 34 and 35. Thence we pursue West on a true line between secs 27 and 34. Begin descending over rocky rolling land, through dense sage, juniper and oak brush.
2.25	Top of trachyte cliffs, 75 ft high, bear S. 75 W. and N. 75 E.
2.75	Bottom of ravine, 100 ft below cor, course N. W.
10.50	Top of spur, projects N.
19.90	Bottom of ravine 150 ft deep, course N. E.
36.00	Bottom of ravine 150 ft deep, course N.
37.25	Enter heavy cedar and pinon pine.
40.00	Set a trachyte stone 14 x 12 x 6 ins. 10 ins in the ground, for ¼ sec. cor, marked ¼ on N. face, raised a mound of stone 2 ft base, 1½ ft high N. of cor. Pits impracticable, from which a cedar 14 ins. in diam bears N. 25 lks. dist. marked ¼ S. B. T.

Chains.	
	a cedar 12 ins. in diam., bears E. 40 lks. dist. marked 1/4 S. B.T.
47.90	Maple creek in bottom of ravine 500 ft. deep. 1 lk wide, pure water flows N. 20° W. Leave heavy cedar.
48.35	Drag road, bears N. 30° W. and S. 30° E.
60.45	Top of ridge 400 ft. above creek, bears N. 20° W. and S. 20° E.
70.50	Small wash drains S. W.
80.00	The cor. of secs. 27, 28, 33 and 34. Land, mountainous. Soil, stony 4th rate. Timber, scattering cedar, Mountainous land and dense undergrowth. 80.00 chs.
	N. 0° 2' W., bet. secs. 27 and 28. Begin ascending over stony and rolling land, through scattering cedar and pinion pine.
8.70	Top of ridge, 200 ft. above cor. bears N 60° W. begin descending through dense sage brush
17.70	Bottom of ravine, 250 ft deep below ridge, bears N. 30° W.
38.23	Point for cor. of secs 21 and 28. Where I've set temp. cor.
40.00	Set a trachyte stone 18 x 12 x 10 ins 12 ins. in the ground, marked 1/4 on E. face, for 1/4 sec. cor. sec. 27. and raised a mound of stone. 2 ft. base 1 1/2 ft. high E. of cor. Pits impracticable.
75.00	Bottom of ravine 75 ft. deep course N. W.
78.20	Wood road, bears N. W. and S. E.
80.00	Set a trachyte stone 16 x 10 x 6 ins. 11 ins. in the ground, for cor. of secs. 22 and 27. marked with 3 notches, on the E. and 2 notches on the S. raised a mound of stone 2 ft.

Chains	
	base, 1½ ft. high. E. of cor.
	Pits impracticable.
	Land mountainous.
	Soil, stony 3rd and 4th rate.
	Timber scattering cedar
	Mountainous land, dense under-growth. 8000 chs.
	July 17th at this cor. the set off 21° 06' on declination arc; and at 12h. 6m. l. mt., observe the sun on the meridian; the resulting lat. is 38° 48'
	E. on a random line bet. secs. 22 and 27.
40.00	set limbs. 1/4 sec. cor.
80.05	Intersect N. 2nd 5. line 27 chs S. of the cor. of secs. 22, 23, 26 and 27.
	Thence W. pass
	S 89° 59' W. on a true line bet. secs. 22 and 27. Begin ascending over rolling and stony land, through scattering cedar and pinion pine and dense sage brush.
10.00	Top of steep slope. Begin descending
25.00	Foot of slope — nearly level land
34.00	Begin ascending.
40.02½	Set a trachyte stone 16 x 12 x 5 ins. 11 ins. in the ground for 1/4 sec. cor. marked 1/4 on N. face, raised a mound of stone 2 ft. base, 1½ ft. high N. of cor. Pits impracticable
45.00	Top of spur, projects N. begin descending.
59.00	Bottom of ravine 200 ft. deep, course N. 20° W. Maple creek 2 chs. wide, ascend
68.00	Bottom of ravine 50 ft. deep, course N. 10° W.
75.00	Top of ridge, bears N. W. and S. E.
77.00	Bottom of ravine 80 ft. deep, course N. 10° W.

Chains	
80.05	The cor. of secs. 22 and 27. Land, mountainous. Soil, stony 3rd and 4th rate. Timber, scattering cedar Mountainous land, and dense under growth. 80.05 chs.
	N. 0° 30' W. on a random line bet. secs. 21 and 22.
39.48	Intersect S. and W. cor. 24.3 chs. S 89° 50' E of the cor. of secs. 15 and 16.
	Therefore we set a closing cor. for secs. 21 and 22 as follows; Set a Teachy's stone, 18 x 10 x 6 ins. 12 ins. in the ground, for cor of said secs. 21 and 22. Marked C.C. with 3 grooves on the S. and 3 grooves on the E. faces. Raised a mound of stone 2 ft. base, 1½ ft. high S. of cor. and dug pits on old cor. pointing to secs. 21 and 22 Pits impracticable.
	Thence we run S. 0° 30' E. on a straight line bet. secs. 21 and 22, ascending over rolling gravelly land, through scattering Cedar and dense sage brush.
11.50	Irrigation ditch. 5 lks. wide. Pipe-water flows N. W.
34.50	Top of ridge. bears N. 70° W. S. E.
39.48	The cor. of secs. 22 and 27. Land, mountainous. Soil, stony 3rd and 4th rate. Timber, scattering Cedar. Mountainous land, and dense Under growth. 39.48 chs.
	From the temp. cor. for secs. 21 and 28 We run West on a random line bet. secs. 21 and 28.

Subdivision of T. 7 S., R. 2 W. - Continued

Chains	
40.87	Intersect the 1/4 sec. cor. bet. sec. 21 and 28 whence a chiseled [illegible] ins. above ground. marked as described by the Surveyor General. This corresponds to petitioners
	Thence We run E. on a true line between secs. 21 and 28.
	Begin ascending over rolling land, through dense sage brush.
17.10	Top of ridge, bears N. W. and S. E.
	ascending
37.00	Bottom of ravine 50 ft. deep, course N. W. and
40.87	Temp. cor.
	Where we establish closing cor. for fractional secs. 21 and 28 as follows:
	Set a trachyte stone 14 x 10 x 6 ins. 10 ins. in the ground for closing cor. of secs. 21 and 28, marked C.C. on W. face. With 3 grooves on the E. and 2 grooves on the S. faces. raised a mound of stone 2 ft. base 1 1/2 ft. high, W. of cor. Pits impracticable.
	Land mountainous.
	Soil, gravelly 3rd rate.
	No timber.
	Mountainous land, and dense undergrowth 40.87 chs.

July. 18 at 7. a.m., l.m.t. We set off 38° 4' N on Lat arc; 20° 52' N on dec. arc; and determine a true meridian with the solar. at the cor. of secs. 27, 28, 33 and 34. West on a random line bet. secs. 28 and 33

40.00	Set temp. 1/4 sec. cor.
80.46	Intersect N. and S. line 1.77 chs. N. of the 1/4 sec. cor.

Chains.	
	Where we set a closing cor. for secs. 28 and 33 as follows:
	Set a trachyte stone 16 x 8 x 8 ins. 11 ins. in the ground for closing cor. to prac. secs. 28 and 33. Marked C.C. with 4 grooves on the E. and 1 groove on the S. face.
	Raised a mound of stone 2 ft. base 1½ ft. high E. of cor. Pits impracticable.
	From which a pinion pine 7 ins. in diam. bears N. 18 lks dist. marked T 24 S. R 2 W. S. 28. C.C. B.T.
	A cedar 8 ins. in diam. bears S 35° E. 48 lks. dist. marked T 24 S. R 2 W. S. 33 C.C. B.T.
	Thence We run
	E. on a true line bet secs. 28 and 33. See Corner Notes Book
	Begin ascending over rolling and rocky land, through scattering cedar and pinion pine along N. slope of mountain.
21.60	Projecting ledge 3 lks. N. of line. 30 x 30 x 50 ft. above ground. bears N and S.
39.00	Bottom of ravine 1000 ft. deep. Course N. 60° W.

General Description.

This portion of the township is entirely mountainous, the soil is stony throughout 3rd and 4th rate.

No crops could be raised without irrigation; the township is poorly watered, but could be improved by the construction of reservoirs. There is a luxuriant growth of grass in the ravines and is good grazing.

Scattering timber of all kinds that grows in this part of the country, cedar predominate, with a dense sage brush.

The roads in the Southern part have been washed out by recent floods and are impassable.

There are no settlers in this part of the township.

There is no visable indications of Minerals in this part of the township.

6—111

Subdivision of T. 24 S., R. 2 W.

Survey Commenced
May 14th 1901.
and executed with a W. and L. E. Gurley
light mountain transit No. — with
solar attachment, the horizontal
limb is provided with two double
verniers placed opposite to each
other, reading to single minutes
of arc, which is also the least
count of the verniers of the
latitude and declination arcs.

The instrument was
examined, tested on the line
meridian at Salt Lake City,
found correct, and was approved
by the Surveyor General of
Utah, June 16th 1900.

I examined the adjustments
of the instrument, and found
them correct: then, to test
the solar apparatus, by com-
paring its indications, resulting
from solar observations, made
during a. m. and p. m. hours, with
a true meridian determined by
observation on Polaris,
We proceed as follows:
At the cor. of secs. 10, 11, 14 and
15. T. 24 S., R. 2 W.
Lat. 38°44' N. Long. 112°02' W.

We set off 38°44' N. on Lat.
arc: 18°39' N. on decl. arc: and
at 4 p. m., l. m. t., determine a
true meridian with the solar
and mark a point
on a stone firmly set in the
ground 5 chs. N. of the cor.

At 9h 54m p. m., l. m. t., We
observe Polaris at lower Culmination

in accordance with manual of instructions, the true meridian thus determined falls on the mark determined by the solar.

May 15th 1901.

At 8 a. m. l. m. t., we set off 38°44' N. on lat. arc: 18°49' N. on decl. arc: the true meridian determined with the polar, falls on the mark determined by the Polaris observation.

The solar apparatus, by p. m. and a. m. observations define the position of the true meridian same as by Polaris observation, therefore, we conclude the adjustments of the instrument de correct.

The magnetic bearing of the true meridian at 8.30 a.m. is N. 16° W. the angle thus determined, reduced by the table, page 100, gives the mean Mag. decl. 15 5/6° E.

In compliance with supplemental special instructions, issued Sept 28th 1899.

We begin at the cor. of secs. 10, 11, 14 and 15, which is a tracing tree 10 x 8 x 5 ins. above ground, firmly set and marked with 4 notches on the S. and 2 notches on the E. edges, with a mound of stone 2 ft. base, 1½ ft. high W. of cor.

From previous survey we found the course and distance between the cors. of sec. 2, 3, 34 and 35, on the

N. bdy. of Tp. and the cor. of secs. 10, 11, 14 and 15. To be. S 0°07' E. 164.94 chs.
Thence W. per run
N. 0°07' W.
Dist. secs 10 and 11.
Ascending, through scattering Cedar and Spruce.
3.00 Ridge, bears E. and W. descend
10.00 Ravine 300 ft. dep. drains E. ascend.
17.50 Spur, projects N.E. descend.
40.00 1/4 sec. cor. set by US.
W. destroy all trace of same.
41.73 1/2 Set a trachyte 15 x 8 x 6 ins. 11 ins. in the ground, for reestablished 1/4 sec. cor., marked 1/4 S. 15 on W. 14 on E. faces, raised a mound of stone 2 ft. base, 1 1/2 ft. high W. of loc.
Pits impracticable.
45.00 Old wagon road
bears N.W. and S.E.
47.00 Ravine 150 ft. dep, course N.W. and
61.50 Top of Ascent, bears N.W. and S.E. descend.
80.00 Cor. of secs 2, 3, 10 & 11
set by US.
W. destroy all trace of same.
82.47 Set a trachyte 15 x 10 x 6 ins. 10 ins. in the ground, for reestablished Cor. of secs. 2, 3, 10, and 11 marked with 5 notches on the S. and 2 notches on the E. edges, raised a mound of stone 2 ft. base, 1 1/2 ft. high W. of Cor.
Pits impracticable.
Land, mountainous,
soil stony clay, 4th rate.
Timber, scattering
Mountainous land. 82.47 chs.

Subdivision of T. 24 S., R. 27 E. continued.

Chains.	
	East on a random line
	bet. secs. 2 and 11.
40.00	Old 1/4 sec. cor. bears S. 2.47 chs.
	which is a trachyte 6 x 6 x 4 ins.
	above ground, firmly set, and
	marked, as described by the Surveyor
	General,
	The course of this line is therefore,
	N. 86° 28' E. and dist. 40.08 chs.
	Thence the run
	N. 86° 28' E.
	bet. secs. 2 and 11. Descends over rolling
	land, through dense artimesia
17.00	Point of spur, projects S.
40.08	The cor. of secs. 2, 3, 10 and 11, 1.60 ft. below ground. Cor.
	Land, mountainous,
	Soil, stony, 4th rate,
	Timber, scattering
	Mountainous land, 40.08 chs.
	West bet.
	secs. 3 and 10.
	Ascending
	through scattering cedar and pinion
9.00	Ravine,
	course N.
11.00	Old wood road
	bears N. and S.
16.30	Road and ravine 10 ft. deep. road
	bears N. and S. ravine drains N. ascend
40.00	Set a trachyte 14 x 8 x 5 ins. 10 ins.
	in the ground, for 1/4 sec. cor.
	marked 1/4 S 3 on N., 10 on S. face,
	raised a mound, of stone 2 ft. base,
	1 1/2 ft. high N. of cor.
	Pits impracticable
	1/4 Cor. set by pus.
	bears S. 2.47 chs.

Subdivisions of T.24S., R.27E. continued.

Chains.	
	We destroy all trace of same.
60.00	Ridge, bears N. and S. descend
68.50	Ravine 500 ft. deep course N. ascend
79.50	Top of mountain ridge 1500 ft. above sec. cor. bears N. and S. descend
80.54	Intersect N. and S. line 24 chs. N. of the cor. of secs. 3, 4, 9 and 10. previously described. This is beyond the limits of 21' of arc. Therefore, We establish a closing cor. for secs. 3 and 10. as follows: Set a trachyte stone 15 x 8 x 6 ins. 10 ins. in the ground for closing cor. of secs. 3 and 10. Marked with 5 grooves on the S. and C.C. with 3 grooves on the E. faces, raised a mound of stone 2 ft. base, 1½ ft. high E. of Cor.
	Pits impracticable.
	Land, Mountainous.
	Soil, Stony. 4th rate.
	Timber, scattering cedar and pinion.
	Mountainous land, 80.54 chs.
	N. 0° 07' E.
	bet. secs. 2 and 3. Descend through scattering cedar and pinion.
31.00	Irrigation ditch, drains N.E.
37.53	¼ sec. cor. set by us.
	We obliterate all trace of same.
41.73½	Set a trachyte stone 16 x 10 x 7 ins. 11 ins. in the ground for re-established ¼ sec. cor. marked ¼ S. 3 on W. 2 on E. faces. Raised a mound of stone 2 ft. base,

Chains.	
	1½ ft. high W. of Cor.
	Pits impracticable.
65.00	Dry run, drains W. ascend mountain.
77.50	Spur, 500 ft. above ¼ sec. cor.
	Projects W. descend.
87.47	Cor. has been destroyed.
	We recognize locality and
	black point where cor. was
	originally placed by partly
	obliterated mound of stone.
	and at this point, We reestab-
	lish the cor. of secs. 2, 3, 34 and 35.
	on N. bdy. of T.
	As follows:
	Set a trachyte stone 18 x 10 x 7 ins.
	12 ins. in the ground for reestablished
	Cor. of secs. 2, 3, 34 and 35
	Marked with 2 notches on the E.
	and 2 notches on the W. edges
	and raised a mound of stone
	2 ft. base, 1½ ft. high. W. of
	Cor. Pits impracticable.
	Land, Nearly level and
	mountainous
	Soil, stony and clay. 3rd and 4th rate.
	Timber, scattering Cedar.
	Level land 65.00 chs.
	Mountainous land 22.47 "
	May 16th 1901.
	We proceed to the closing
	cor. of secs. 28 and 33. set by U.S.
	& obliterate all trace of same
	We begin at the ¼ sec. cor. on the
	E. bdy. of sec. 29.
	which is a trachyte stone 10 x 8 x 4
	ins. above ground firmly set
	and marked ¼ S. on W. face.

Chains.	
	which we also mark. C.C. with 4 grooves on the E. and 1 groove on the S. faces.
	Raised a mound of stone 2 ft. base, 1½ ft. high, E. of cor.
	Pits impracticable.
	At this cor. Gt. 8 a.m., L.M.T. We get off 38° 42' N. on Lat. arc: 1963' N. on decl. arc: and determine a true meridian with a solar.
	Thence We run East Met. secs. 28 and 33.
	Ascending over stony land, through scattering cedar, along N. slope of mountain.
31.00	Spur projects N.E. descend.
39.00	Bottom of ravine, 200 ft. deep. Course N. 60° W. descend.
40.00	Set a trachyte stone 16 x 10 x 6 ins. 11 ins. in the ground for 1/4 sec. cor. Marked 1/4 S. 28 on N. face, raised a mound of stone 2 ft. base, 1½ ft. high N. of cor.
	Pits impracticable.
	We destroy all trace of 1/4 sec. cor. set by us.
49.00	Spur, projects N. W.
59.00	Canon 800 ft. deep. Course N. W. ascend,
80.46	Intersect N. & S. line 1.77 chs. S. of the cor. of secs. 27, 28, 33, and 34.
	We obliterate all marks pertaining to secs. 28 and 33 and raise a mound of stone 2 ft. base, 1½ ft. high E. of cor.
	Pits impracticable.

Subdivision of 9 24 S. R. 27 W. concluded

Chains	
	At point of intersection, set a hackyte stone 16 x 10 x 6 ins. 11 ins. in the ground, for Closing cor. of secs. 28 and 33. Marked C.C. on W. with 1 groove on the S. and 3 grooves on E. faces raised a mound of stone 2 ft. base 1½ ft. high W. of Cor.
	Pits impracticable.
	Land mountainous.
	Soil stony.
	Timber, scattering cedar,
	Mountainous land 80.46 chs.
	N. 0° 01' W.
	On replacement line bet. secs. 11 and 13 and find a partially obliterated cor. at 36.43 chs. We obliterate all trace of the same.
	This was an error on the part of my chain men and was supposed to have been entirely destroyed, at the time the line was run bet. secs. 12 and 13.
	At 39.43 chs. We find the cor. of secs. 12 and 13.
	Partly destroyed by rolling stone.
	We rebuild mound of stone 2 ft. base 1½ ft. high E. of Cor. Pits impracticable and set same cor. firmly in the ground.

Corrected Subdivision of T. 24 S., R. 2 E.

Chains.	
	Owing to the change in the line bet. secs. 28 and 33. Thence the West bdy. of sec. 33.
	We begin at the cor. of secs. 32 and 33 on S. bdy. of Tp. which is a trachyte stone 10x6x5 ins. above ground, set by us. June 24th 1897. We know the course by previous survey, Therefore We run N. 0° 03' W. Ascending, through dense sage brush, and scattering cedar.
13.47	Top of ridge, bears N. 60° W. and S. 60° E. descend
37.70	The closing cor. of secs. 29 and 32 which is a trachyte stone 10x5x5 ins. above ground, set by us. July 17th 1897.
40.00	The W sec. cor. to sec. 33 which is a trachyte stone 10x6x5 ins. above ground, set by us. July 17th 1897.
44.47	Foot of steep descent, bears S. 10 and W.
78.70	The closing cor of secs. 28 and 33. and 1/4 cor. to sec. 29. Previously described. Land, mountainous. Soil, stony 4th rate. Timber, scattering cedar. Mountainous land.

78.70 chs.

Hubert D. Page.
George C. Brown,
U.S. Deputy Surveyors.

Affidavit

There being no notary public or other officer authorized to administer oaths within a reasonable distance, either at the beginning or ending of the journey, in order to save time and expense, I administer the preliminary and final oaths myself.

Hubert S. Page
U.S. Deputy Surveyor

FINAL OATHS OF DEPUTY SURVEYOR AND HIS ASSISTANTS.

LIST OF NAMES.

A list of the names of the individuals employed by Hubert D. Page and George L. Swan, United States Deputy Surveyor, to assist in running, measuring, and marking the lines and corners described in the foregoing field notes of the survey of Subdivision of T. 2 N. R. 2 W. of the Salt Lake base and Meridian, State of Utah, showing the respective capacities in which they acted:

William O. Halquist, Chainman.
Jay Morrison, Chainman.
Ernest H. Anderson, Moundman.
, Moundman.
Ernest H. Anderson, Axman.
, Axman.
Harry Lane, Flagman.

FINAL OATH OF ASSISTANTS.

We hereby certify that we assisted Hubert D. Page and George L. Swan, United States Deputy Surveyor, in surveying all those parts or portions of the Subdivision of T. 2 N. R. 2 W. of the Salt Lake base and meridian, State of Utah, which are represented in the foregoing field notes as having been surveyed by him and under his direction; and that said survey has been in all respects, to the best of our knowledge and belief, well and faithfully surveyed, and the corner monuments established, according to the instructions furnished by the United States Surveyor General for Utah.

William O. Halquist, Chainman.
Jay Morrison, Chainman.
Ernest H. Anderson, Moundman.
, Moundman.
Ernest H. Anderson, Axman.
, Axman.
Harry Lane, Flagman.

FINAL OATH OF UNITED STATES DEPUTY SURVEYOR.

I Hubert D Page and George L Swan, United States Deputy Surveyor
solemnly swear that, in pursuance of a contract received from George W Ivins
United States Surveyor General for the District of Utah, bearing date of
26th day of December, 1896, I have well, faithfully, and truly, in my
proper person and in strict conformity with the instructions furnished by the United States Surv
General for the District of Utah, the Manual of Surveying Instructions, and the laws of
United States, surveyed all those parts or portions of the Subdivisions of Township
24 South Range 2 West

of the Salt Lake
Base and meridian, in the State of Utah, which are represented in
foregoing field notes as having been surveyed by me, and under my direction; and I do further solem
swear that all the corners of said survey have been established and perpetuated in strict accordance
the Manual of Surveying Instructions, and the special written instructions of the United States Surv
General for the District of Utah and in the specific manner described in the field notes, and
the foregoing are the original field notes of such survey; and should any fraud be detected, I will s
the penalty of perjury under the provisions of an Act of Congress approved August 8, 1846.

Hubert D Page
George L Swan
United States Deputy Surv

West Boundary of T 10 N R 3 E. Resurvey

Claim

Survey commenced June 13, 1901 and executed with a Gurley light mountain transit with solar attachment. — The horizontal limb is provided with two double verniers placed opposite to each other reading to single minutes of arc which is also the least count of the verniers of the latitude and declination arcs. —

The instrument was examined tested on the true meridian at Salt Lake found correct and was approved by the surveyor general for Utah April 13, 1901

I examine the adjustments of the transit and correct the level and collimation errors; then to test the solar apparatus by comparing its indications resulting from solar observations during a.m. and p.m. hours with a true meridian determined by observations on Polaris I proceed as follows: —

June 13: At my camp which is in the S.E. ¼ of sec. 8 Tp. 10 N. R. 3 E. latitude 41° 36' 30" N. longitude 111° 38' W. at 4h 55m p.m, 7 m/t I set off 41° 36' 30" N. on the lat; arc 23° 14' 30" N. on the decl. arc and determine a true meridian with the solar, marking a point thereof, on a stone firmly set in the ground 4.70 chs N. of my station. —

At 9h 14m p.m, 6 m/t I observe Polaris in accordance with Manual of Instructions and mark a point on the line thus determined on a plug driven in the ground 4.70 chs. N. of my station. —

Observ. 7 m/t of obs. June 13 -----	9h 14m
U. C. Polaris June 12 -----	19 58.4
Hour angle of Polaris at obs.	13 15.6
Subtract from -----	23 56.1
Time argument for table II	10 40.5
Azimuth of Polaris at obs.	0° 32' E ✓

June 13, 1901

June 14 at 6h 40m a.m. 7 m/t I lay off the azimuth of Polaris 0° 32' to the west

Chains	
	and mark the true meridian thus determined on the stone set June 13
	At 7h 32m a.m. I set off 23°36'30" W on the hal. are 23°16' W on the decl. are and mark a point in the true meridian determined by the solar on the stone set June 13 at 4.70 chs N of my station. — I now examine the marks on the stone and find the two meridians determined with the solar to agree with the true meridian as determined by Polaris observation within 0°1' of arc and I therefore conclude the adjustment of the instrument are satisfactory. —
	The magnetic bearing of the true meridian at 8h a.m. is 18°23' W. the angle thus determined reduced by the table page 100 gives mean mag. decl. 18°17' E
	A careful search was made for the cor. of Tps. 10 and 11 N. Rs. 2 and 3 E. from which I was instructed to commence but said cor. could not be found therefore having found and fully identified the cor. of secs. 1-6-7 and 12 on E. bdy of Tp. 10 N. R 2 E. which is a limestone 5 x 9 x 16 ins. 4 ins. in the ground, mound scattered. I reset the stone 11 ins in the ground burning the 5 notches to the south and one notch to the north and raised a mound of stones 2 ft. base 1½ ft high W. of cor.
	Thence I run
	North on a reservey line bet. secs. 1 and 6
	Over mountainous land.
	Ascending on N. side of Blacksmith Fork Canon steep broken rocky slopes.
35.20	Bottom of hollow drains S. 25° W. 3.0 ft. deep.
40.00	Intersect the ¼ sec. cor. which is a stone firmly set marked and witnessed as described by the surveyor general. —
69.30	Top of canon and ridge running E. and W. 1100 ft. above sec. cor. Descend
71.50	Head of hollow draining S. E. —

West Boundary of T. 10 N. R. 3 E. – Resurvey

Chains	
80.00	Thence on gradual ascent on broken S.E. slope A pine tree 15 ins. diam. marked T. 11 N. R 3 E S. 31 B.T. bears N. 78° 10' E 53 lks. dist. but such tree is not mentioned on the field notes of original survey furnished by the surveyor general. – A careful search was made at this place but no trace of a cor. could be found within a radius of 3 chs. –
82.58	The distance to Tp. cor. furnished by the surveyor general. – A careful search was made for the cor. of Tps 10 and 11 N. R. 2 and 3 E but no trace of it could be found. – I therefore set a temp. cor. and run West. on a blank retracement line along S. bdy. of Tp. 11 N. R. 2 E.; at 39.85 chs. the 1/4 sec. cor. bet. secs. 1 and 36 bears S. 1.50 chs being a stone firmly set marked and witnessed as described by the surveyor general, and not believing that more valuable data could be obtained by continuing the retracement I return to the temp. cor. of Tp. and run S. 1.60 chs to
81.08	The point of intersection of E. and N. bdys – Set a sandstone 18 x 10 x 5 ins. 12 ins. in the ground for cor. of Tps. 10 and 11 N. Rs 2 and 3 E marked with 6 notches on each edge from which A pine tree 8 ins. diam. bears S 50° 15' W. 19 lks dist marked T. 10 N. R. 2 E. S. 1 B.T. A pine tree 14 ins. diam. bears N. 30° 45' W. 27 lks dist. marked T 11 N R 2 E S 36 B.T. No other trees within limits. – Raised a mound of stones 2 ft. base 1½ ft. high S of cor. – Hills impracticable Land mountainous Soil rocky and gravelly 3rd rate Timber pine and cedar on last 3 chs. – Mountainous land 81.08 chs. – June 14. 1901

For general description see subdivision of this boundary. –

West Boundary of Tp. 11 N. R. 3 E.

Chains	
	Survey commenced June 14, 1901 and executed with a Gurley light mountain transit with solar attachment. — The horizontal limb is provided with two double verniers placed opposite to each other reading to single minutes of arc which is also the least count of the verniers of the latitude and declination arcs.
	The instrument was examined, tested on the true meridian at Salt Lake found correct and was approved by the Surveyor General for Utah April 13. 1901
	Note: For examination of adjustments and test of solar apparatus completed this day see resurvey of W. bdy. of Tp. 10 S. R. 3 E. (designated Book "A" of this survey) reference to which is hereby made; wherefore I consider it unnecessary to repeat the test at this time. —
	June 14 at 2h 10m p. m. local mt I set off 41° 38' N. on the lat. arc 23° 16' 30" N on the decl. arc and determine a true meridian with the solar at the the cor of Tps. 10 and 11 N. Rs 2 and 3 E. as re-established by me this date by resurvey.
	The magnetic bearing of the true meridian at 2h 10m p.m. l mt is N. 18° 10' W. the angle thus determined reduced by the table page 100 gives the mean mag. decl. 18° 13' E. —
	From the Tp cor. already described I run North bet. secs. 31 and 36
	Over mountainous land
	Descending gradually through heavy timber. —
20,30	Bottom of gulch drains S. 60° E. turning to N.E. and drag road parallel with gulch. 130 ft. below cor. —
	Beginning of ascent
33,00	Leave timber course nearly E. and W.
40,00	Set a limestone 18 x 8 x 6 ins. 12 ins. in the ground for 1/4 sec cor. marked 1/4 on W face

BOOK A-279

West Boundary of Tp. 11 N. R. 3 E.

Chains	
	raised a mound of stones 2 ft. base 1½ ft. high W. of cor. – Pits impracticable
40,00	Top of spur S.E. 200 ft. above gulch. – Descend on N.E. slope to
58,15	Head of hollow drains S.E. 80 ft. deep. Begin steep rocky ascent
65,80	Top of sharp ridge and edge of canon bears S. 76° W and N. 75° E. 110 ft. above hollow Aneroid here registers 7410 ft elevation Begin steep broken descent on S. side of Left Hand Fork, or Saddle Creek Canon
80,00	Set a limestone 17 x 8 x 6 ins. 11 ins. in the ground for cor. of secs. 26 – 30 – 31 and 36, marked with – 1 notch on S. and 5 notches on N. edges; raised a mound of stones 2 ft. base 1½ ft. high W. of cor. Pits impracticable This cor. stands 260 ft below top of ridge Land mountainous Soil gravelly wash, and rocky 3rd and 4th rate Timber pine and aspen of fair quality Brush and thorn undergrowth – Mountainous land 80,00 chs. –
	North bet. secs. 25 and 30 Over mountainous land Descending steep rocky broken slope
17,55	Edge of precipitous breaks bears N.W. and S.E. 40 chains further is impossible I therefore place a flag at this point on the line and measure a base line at right angle – West 9.60 chs. to a flag and having also flagged my line ahead I now go to a point where flag at 17,55 chs on line, bears South and flag at west end of base bears S. 18° 34' W. hence tang 18° 34' : 9.60 :: 1 : x = dist. from station to flag at 17,55 = 28,58 or 6.13 present station whence I chain back on line 6.28 chs. to
39,85	Foot of precipitous breaks course easterly and westerly
40,00	Set a limestone 18 x 8 x 7 ins. 12 ins. in the ground for ¼ sec. cor. marked ¼ on W. face

West Boundary of Tp. 11 N. R. 3 E.

Chains	
	from which
	A maple tree 5 ins. diam. bears N 11° 65' W. 27 lks. dist. marked 1/4 S 25 B.T.
	A maple tree 6 ins. diam. bears N 73° 35' E 33 lks. dist. marked 1/4 S. 30 B.T.
41.06	Left Hand Fork or Saddle Creek 40 lks wide in bottom of narrow canon course westerly. — Aneroid elev. 6'650 ft.
42.05	Old stable bears W. 25 lks.
42.50	Old deserted cabin bears east 50 lks. claimant not known
43.90	Mountain road from Cache Valley runs parallel with canon
46.00	Begin steep ascent on rocky broken slope
57.20	Top of spur S.W. 140 ft above bottom of canon
	Thence on broken W. slope and gradual ascent to-
80.00	Set a limestone 16 x 10 x 8 ins. 11 ins. in the ground for cor. of secs. 19-24-25 and 30 marked with- 2 notches on S. and 4 notches on N. edges; raised a mound of stones 2 ft. base 1½ ft. high W. of cor. Pits impracticable. —
	Land mountainous very broken
	Soil rocky and gravelly 4th rate
	Timber pine mountain mahogany and maple in cliffs in S. side of canon, scattering
	Maple and thorn underground —
	Mountainous land 8.00 chs. —
	June 14. 1901

	June 16. On run
	North- bet. secs. 19 and 24
	Over mountainous land
	Broken W. slope and gradual ascent
12.50	Enter mountain mahogany timber course E and W
16.00	Top of spur S.W. 90 ft. high. and beginning of descent
19.20	Enter bottom of gulch course S. 15° W. — Leave timber
21.50	Stream 5 lks. wide runs S. 15° W.
	Begin gradual ascent to-
24.25	Beginning of abrupt broken ascent. — Leave gulch
	Enter scattering timber parallel with gulch
33.60	Top of spur E 100 ft. high. and beginning of descent
36.08	Dry wash 75 ft. below spur course S. 63° E.

West Boundary of Tp. 11 N. R. 3 E.

	Ascend in broken cliffs
4,00	Set a limestone 16 x 8 x 6 ins. 11 ins. in the ground for the sec. cor. marked from W. face from which a mahogany tree 6 ins. diam. bears east 5 lks dist. marked W.S. 19 B.T.
	A mahogany tree 5 ins. diam. bears S 75° W. 8 lks. dist. marked W.S. 24 B.T.
6,50	Top of rocky break course S.W. and N.E. 1100 ft above gulch: entire broken E. slope
8,00	Set a limestone 18 x 9 x 6 ins. 12 ins. in the ground for cor of secs. 13-18-19 and 24 marked with 3 notches on N. and S. edges: from which
	A pine tree 6 ins. diam. bears S 39° 45' W. 35 lks. dist. marked T. 11 N. R. 2 E. S 24 B.T.
	A pine tree 14 ins. diam. bears N. 71° 20' W. 1.17 chs. dist. marked T 11 N R 2 E S 13 B.T.
	No other trees within limit: raised a mound of stone 2 ft. base 1½ ft. high W. of cor. —
	Pits impracticable
	Land mountainous very broken
	Soil gravelly and rocky 4th rate
	Timber pine and mountain mahogany mainly scattering. —
	Mountainous land 80,00 chs. —

June 15: at 9 h 28 m a m, Instrument set off 41° 41' N on the Sat. arc 23° 19' N on the Decl. arc and determined a true meridian with the solar at the cor. of secs. 13-18-19 and 24, thence 0 mm North bet. secs. 19 and 18

Over mountainous land

Ow broken & steep through scattering timber

2,00	Bottom of hollow 25 ft deep drains E.
	Ascend to —
2,40	Top of sharp spur E. 150 ft above hollow
	Descend
2,80	Head of hollow 70 ft. deep drains E.
	Begin ascent on rocky slope
3,30	Top of spur E. 100 ft. high: thence over broken & steep and gradual ascent
	Entire down country broken and brush

West Boundary of T. 11 N. R. 3 E.

Chains	
40.00	Set a limestone 16 x 9 x 6 ins. 11 ins in the ground for 1/4 sec. cor. marked 1/4 on W. face; raised a mound of stones 2 ft. base 1½ ft. high W. of cor. Pits impracticable
80.00	An aspen tree 6 ins. diam. for cor. of secs. 7-12-13 and 18. I marked T. 11 N. S 7 on N E — R. 3 E. S 18 on S. E. R 2 E. S 13 on S. W. and S. 12 on N. W. sides: with 4 notches on S and 2 notches on E sides from which An aspen tree 6 ins. diam bears S. 0° 30' E. 15 lks. dist. marked T. 11 N. R. 3 E. S. 18 B. T. An aspen tree 5 ins. diam bears S. 47° 20' W. 20 lks. dist. marked T 11 N. R. 2 E. S. 13 B. T. An aspen tree 6 ins. diam. bears E 64° 30' E 15 lks. dist. marked T. 11 N. R. 3 E. S. 7 B. T. An aspen tree 6 ins. diam. bears N 45° 46' W. 13 lks dist. marked T. 11 N. R. 2 E. S 12 B. T.
	This cor. stands 300 ft. above the sec. cor. last described Land mountainous broken and rolling Soil rocky and gravelly 3rd and 4th rate Timber scattering pine of good size and dense aspen and willow of small size mainly. — Mountainous land and heavily timbered 80.00 ch.
	June 15. At this cor. I set off 23° 19' N. on the decl are and observe the sun on the meridian at 12h 30m 1mt the resulting lat. is 41° 42' N
	North - bet. secs. 7 and 12 Over mountainous land Ascending gradually on rolling E. slope in dense brake and timber
18.80	Bottom of gulch 40 ft. deep drains S. 60° E.
32.00	Top of Spur runs S. 70° E 150 ft above cor. Descend gradually to
40.00	An Aspen tree 5 ins diam. for 1/4 sec. cor. I marked 1/4 S 12 on W. side and T. on E side from which An aspen tree 5 ins. diam. bears S. 30° 0' E 10 lks dist. marked 1/4 S. 7. B. T. An aspen tree 4 ins. diam. bears S. 25° 5' W. 3 lks. dist. marked 1/4 S 12 B. T.

West Boundary of T. 11 N. R. 3 E.

Chains	
52,80	Head of hollow drains S. 60° E. 120 ft. below spur.
	Begin ascent
57,08	small spring 50 lks. E. of line drains S. E.
77,50	Top of spur runs E. 160 ft above hollow. — Aneroid Elev. 7900
	Begin descent
80,00	Set a sandstone 16 x 10 x 8 ins. 11 ins. in the ground for cor. of secs. 1-6-7 and 12 marked with 5 notches on S. and 1 notch on N. edges from which a willow tree 4 ins. diam. bears N. 3° 20' E. 11 lks. dist. marked T 11 N R 3 E S 6 B.T.
	A willow tree 4 ins. diam. bears N. 71° 40' W. 24 lks. dist. marked T 11 N R 2 E S 1 B.T.
	A willow tree 4 ins. diam. bears S 27° 35' W 29 lks. dist. marked T. 11 N R 2 E S 12 B.T.
	A willow tree 5 ins. diam. bears S. 27° 6' E. 18 lks. dist. marked T 11 N R 3 E. S. 7 B.T.
	Land mountainous, rolling
	Soil gravelly wash and loam 2nd and 3rd rate
	Timber, aspen and willow of small size mainly and a few scattering pine of good size. —
	Mountainous and heavily timbered land 80.00 chs. —
	North - bet. secs. 1 and 6.
	Over mountainous land
	Descending in dense timber and brake
17,40	Bottom of gulch 130 ft. below cor. course E.
	Ascend
37,00	Top of ridge bears E. and W. 175 ft. high
39,50	Begin steep rocky descent
40,00	Set a sandstone 17 x 9 x 6 ins. 11 ins. in the ground for 1/4 sec. cor. marked 1/4 on W. face: raised w. mound of stones 2 ft. base 1½ ft. high W. of cor. Pits impracticable
51,06	Bottom of gulch and stream 3 links wide course N. 65° E 200 ft. below top of ridge. —
	Ascending on rolling surface to
71,00	Top of spur; runs E. 90 ft. high
	Begin descent
80,00	Set a temporary cor. to Tps. 11 and 12 N. Rs. 2 and 3 E.

West Boundary of T. 11 N. R. 3 E.

Chains	
	June 15, 1901
	June 17, 1901 having established the permanent cor. of Tps. 11 and 12 N. Rs 2 and 3 E by survey of N. bdy of this Tp. I return to the temporary cor. of Tp. already described which I destroy and complete the survey of w. bdy as follows
	From the temp. Tp. cor. bet. secs. 1 - and 6 at 80 chs I run
	North bet. secs. 1 and 6
52.00	Bottom of gulch 80 ft. deep drains E.
	Ascend
87.50	Top of ridge dividing Blacksmith Fork watershed from that of Logan River bears E. and W. 50 ft above gulch
	Begin. descent
88.38	The cor. of Tps. 11 and 12 N. Rs 2 and 3 E as described in the field notes of N. bdy of this Tp.
	Land Mountainous
	Soil gravelly, wash and rocky 2nd and 3rd rate
	Timber aspen of dense growth but small size mostly, and pine of good size scattering
	Mountainous land 88.38 chs.
	June 17, 1901
	June 16: I run
	From the temp. cor. of Tps 11 and 12 N Rs 2 and 3 E East on a random line along the N. bdy of Tp. 11 N R. 3 E setting temp. 1/4 sec. and sec. cors at intervals of 40.00 chs.; and at 3.04.80 chs. intersect the E. bdy of Tp. at 8.38 chs. S. of the cor. of Tps. 11 and 12 N. Rs 3 and 4 E. which is a stone firmly set marked and witnessed as described by the surveyor general, whence I run
	West bet. secs. 1 and 36
	Over Mountainous land
	Descending in dense brush and brake
14.70	Bottom of gulch drains S. 90 ft. below cor. —
	Ascend
19.00	Top of spur runs S. 75 ft. high. — Descend
30.70	Dry wash and bottom of gulch course N. 30° W.
	160 ft. below spur. — ascend
40.00	Set a sandstone 18 x 8 x 6 ins. 12 ins. in the ground

chains	for 1/4 sec. cor. marked 1/4 on N. face: raised a mound of stones 2 ft. base 1½ ft. high N. of cor.—
	Pits impracticable.—
	This cor. stands on top of spur 60 ft. high
	Descend
44.26	Bottom of ravine 50 ft. deep course N 26° W.— ascend
53.50	Top of spur runs N. 40 ft. high.— Descend
64.63	Stream 5 lks. wide in bottom of gulch 90 ft. below spur course S. 65° W.
66.00	Begin ascent on steep S.E. slope
80.00	Set a limestone 18×9×8 ins. 12 ins. in the ground for cor. of secs. 1-2-36 and 36 marked with 1 notch on E. and 5 notches on W. edges: raised a mound of stones 2 ft. base 1½ ft. high W. of cor.—
	Pits impracticable.—
	This cor. stands 130 ft. above stream
	Land mountainous rolling
	Soil gravelly wash 3rd rate
	No timber.— Dense aspen brake and brush
	Mountainous land 8.00 chs.—

June 16: at 4h 30m p.m. Unit 9 set off 41° 43' 30" N. on the lat. arc 23° 23' N. on the decl. arc and determined a true meridian with the solar at the cor. of secs. 1-2-35 and 36

Thence I run

West bet. secs. 2 and 35

Over mountainous land

Ascending in dense undergrowth

2.00	Top of spur runs S. 26 ft. above cor. Descend
13.65	Bottom of ravine 100 ft. below spur course S.
	Begin ascent.— Enter aspen timber and brake
40.00	An aspen tree 4 ins. diam. for 1/4 sec. cor. B mark 1/4 S. 35 on N. side 2 on S. side from which An aspen tree 4 ins. diam. bears N. 23° 15' W. 4.5 lks. dist. marked B 1/4 S. 35 B.T.
	An aspen tree 4 ins. diam. bears S. 29° 30' E. 14 lks. dist. marked 1/4 S. 2 B.T.
45.00	Top of spur runs S.E. 250 ft. above ravine
	Begin descent
60.03	Bottom of ravine drains S. 125 ft. below spur

North Boundary of T. 11 N. R. 3 E.

Chains	
	Ascend
8,0,0	Set a sandstone 16 x 8 x 7 ins. 11 ins. in the ground for cor. of secs. 2-3-34 and 35: marked with 2 notches on E. and 4 notches on W. edges: raised a mound of stones 2 ft. base 1½ ft. high W. of cor.
	Pits impracticable.
	Land mountainous, rough and rolling
	Soil gravelly 3rd rate
	Timber aspen of small size and dense growth.
	Brush and thorn undergrowth.
	Mountainous land 8,0,00 chs.
	June 16. 1901
	June 17: at 7.20 a.m. I mt. I set off 41°43'30" N. on the lat. arc. 23°24' N. on the dec. arc and determine a true meridian with the solar at the cor. of secs. 2-3-34 and 35 thence I run
	West. bet. secs. 3 and 34
	Over mountainous land
1.	Through aspen brake and timber
1,00	Top. of ridge bears N. and S.
	Begin descent on N.W. slope
37,25	Bottom of gulch 160 ft. deep course N
	Begin abrupt ascent
4,0,00	Set a sandstone 16 x 7 x 6 ins. 11 ins. in the ground for 1/4 sec. cor. marked 1/4 on N. face: thence
	an aspen tree 4 ins. diam. bears N 70° 45' W. 24 lks. dist. marked 1/4 S. 34 B.T.
	An aspen tree 5 ins. diam. bears S 10° 5' E 24 lks. dist. marked 1/4 S. 3 B.T.
48,50	Top of spur runs N. 60° W. 125 ft. high
	Descend
6,9,75	Bottom of gulch 110 ft. deep drains N.
	Ascend abruptly
6,9,00	Top of steep ascent bears N.W. and S.E. 150 ft. above gulch: thence on N. side of ridge and gradual ascent to
8,0,00	Set a sandstone 16 x 9 x 7 ins. 11 ins. in the ground for cor. of secs. 3-4-33 and 34 marked with 3 notches on E. and W. edges; raised a mound of stones 2 ft. base 1½ ft. high W. of cor.

chains	Pits impracticable
	Land mountainous
	Soil gravelly 3rd rate
	Timber aspen of small size and dense growth
	and much brush and brake
	Mountainous land 80.00 chs. —
	West bet. secs. 4 and 33
	Over mountainous land
	Ascending gradually on N. side of ridge
6.00	Top of ridge course N. 70° W. and S. 75° E.
	Thence on gradual descent on S. W. slope to
21.50	Begin abrupt descent on W. slope
40.00	Set a sandstone 17 x 9 x 7 ins. 11 ins. in the ground for
	1/4 sec. cor. marked 1/4 on N. face; raised a mound
	of stones 2 ft. base, 1 1/2 ft. high N. of cor. —
	Pits impracticable
	Enter dense aspen brake course N. and S.
73.52	Stream 2 lks. wide course N. 10° E. in bottom of
	open gulch 1105 ft. below top of ridge
	Begin ascent
80.00	Set a sandstone 17 x 8 x 7 ins., 11 ins. in the ground, for cor. of secs. 4-5-
	32 and 33 marked with 4 notches on E. and 2
	notches on W. edges from which
	An aspen tree 4 ins. diam. bears S. 66° 44' W. 10 lks.
	dist. marked T. 11 N. R. 3 E. S. 5 B. T.
	An aspen tree 4 ins. diam. bears S. 27° 30' E. 11 lks.
	dist. marked T. 11 N. R. 3 E. S. 4 B. T.
	An aspen tree 4 ins. diam. bears N. 13° 25' W.
	39 lks. dist. marked T. 12 N. R. 3 E. S. 32 B. T.
	An aspen tree 4 ins. diam. bears N. 19° 46' E. 27 lks.
	dist. marked T. 12 N. R. 3 E. S. 33 B. T.
	Land mountainous
	Soil gravelly wash 2nd and 3rd rate
	No timber — Aspen brake and thorny brush
	Mountainous land 80.00 chs. —
	West bet. secs. 5 and 32
	Over mountainous land
	Ascending in aspen brake and timber
40.00	Set a sandstone 17 x 9 x 6 ins. 11 ins. in the ground

North— Boundary of T. 11 N. R. 3 E.

Chains	for 1/4 sec. cor. marked 1/4 on N. face: raised a mound of stones 2 ft. base 1½ ft. high N. of cor. Pits impracticable.—
	This cor. stands on top of a spur running S.E.
	June 17, at this cor. I set off 23°23'30" N on the decl. arc and at 12h m. 7m 7s observed the sun on the meridian: the resulting lat. is 41°43'30" N.
	Thence descending
48.25	Dry wash 60 ft. deep course S.E.: ascend.
76.00	Top of ridge course N and S 1200 ft. above sec. cor.— Aneroid Elev. 7940 ft.
	Descending gradually W
80.00	Set a sandstone 18×8×6 ins. 12 ins. in the ground for cor. of secs. 5-6-31 and 32 marked with 5 notches on E and 1 notch on W edges; raised a mound of stones 2 ft. base 1½ ft. high W. of cor. Pits impracticable.
	Land mountainous
	Soil gravelly 2nd and 3rd rate
	Timber Aspen of small size mainly and very dense growth.— A few scattering pine trees
	Mountainous land 80.00 chs.—
	West bet. secs. 6 and 31
	Over mountainous land
	Descending in aspen brake and timber
7.50	Bottom of hollow draining S. 35° W. 60 ft below cor. Ascend W
17.00	Top of spur runs S. 70 ft. high.— Descend
24.05	Bottom of gulch draining S. 60 ft. deep.— Ascend
31.00	Top of ridge dividing Blacksmith Fork waters from that of Logan River, runs S.W. and N.E. 140 ft. above gulch.—
	Thence on N.W slope, descending
40.00	An aspen tree 4 ins. diam. for 1/4 sec. cor. Ø mark 1/4 S. 31 on N. side 6 on S side from which An aspen tree 4 ins. diam. bears S 73°30' E 14 lks. dist. marked 1/4 S 6 B.T.
	An aspen tree 4 ins. diam. bears N 63°45' W. 12 lks. dist. marked 1/4 S. 31 B.T.
50.90	Head of ravine draining N 150 ft. below ridge

Chains	
	Ascend
67,50	Top of spur N. 200 ft. above ravine. — Descend
73,45	Head of hollow 60 ft. deep drains N. — Ascend
81,00	Top of ridge dividing Blacksmith Fork and Logan River watersheds course N 70° W and S 70° E. 80 ft. above hollow. — Descend
95,60	Top of ridge same as last described, course S. 76° W. and N. 76° E. — Same elevation
	Thence along ridge N. slope to
104.80	The temp. cor. of Tps 11 and 12 N R 2 and 3 E bears S. 38 Ch. South: see notes of West Boundary, therefore I set a sandstone 17x9x8 ins. 11 ins. in the ground for cor. of Tps. 11 and 12 N. R 2 and 3 E. marked 12 S. on N.E. — 3 E on S.E. — 11 N. on S.W. and 2 E. on N.W. faces. with 6 notches on each edge; raised a mound of stones 2 ft. base 1½ ft. high S. of cor. Pits impracticable. —
	Land mountainous
	Soil gravelly and rocky 2nd and 3rd rate
	Timber aspen of small age and very dense growth mainly; a few scattering pine trees. —
	Mountainous land 104.80 chs. —
	June 17, 1901

South Boundary of T 11 N R 3 E.

June 18: at 7 h 15 m a.m. I set off 41° 38' N. on the lat. arc 23° 26' N on the dec. arc and determine a true meridian with the solar at the cor. of secs. 3-4-33 and 34 on S. bdy. of Tp. 11 N. R 3 E. which is a stone firmly set marked and witnessed as described by the surveyor general. —

Thence I run

West on a random line along the S. bdy of Tp. 11 N. R 3 E setting temp. ¼ sec. and sec cors. at intervals of 40.00 chs. and at 263.96 chs. intersect the E bdy. of Tp. 10 N. R. 2 E. 5.02 chs. S. of the cor. of Tps. 10 and 11 N. R 2 and 3 E. as reestablished by me June 14, 1901 and hereafter described. — Therefore

I set a limestone 18x8x8 ins. 12 ins. in the

South Boundary of T 11 N R 3 E

Chains	
	ground for closing cor. of Tps. 10 and 11 N. R. 3 E. marked C.C. 3 E. no E. - 11 N. on N and 10 N on S. faces with 6 grooves on E. N. and S faces from which a maple bears 4 ins. diam. bears N 53° 30' W. 47 lks. dist. marked T 10 N. R 2 E S 1 B.T.
	No other trees within limits raised a mound of stones 2 ft. base 1½ ft. high E of cor. Pits impracticable. Did destroy all markings on old cor. referring to Tps 10 and 11 N R 3 E
	Thence S runs
	East bet. secs. 6 and 31
	Over mountainous land
	Descending gradually on broken rolling surface in scattering timber and thorny undergrowth
15.00	Head of gulch 10 ft. below cor. course N.
	Ascend
23.50	Enter Timber course N. and S.
57.45	Top of ridge 40 ft. above gulch. course N. and S.
	Begin descent
63.96	Set a limestone 18 x 10 x 5 ins. 12 ins in the ground for 1/4 sec. cor. marked 1/4 on N. face from which A pine tree 12 ins. diam. bears N. 0° 30' W. 40 lks. dist. marked 1/4 S. 31 B.T.
	A pine tree 13 ins. diam. bears S 61° 45' E. 25 lks. dist. marked 1/4 S 6 B.T.
87.30	Bottom of gulch drains N. 40 ft. below top of ridge. -
	Level timber course N. and S. and ascend
103.96	Set a limestone 18 x 9 x 6 ins. 12 ins. in the ground for cor. of secs. 5-6-31 and 32 marked with - 1 notch on W. and 5 notches on E. edges: raised a mound of stones 2 ft. base 1½ ft. high W of cor. Pits impracticable. -
	This cor stands 176 ft. above gulch, on W. slope
	Land mountainous
	Soil gravelly and rocky 3rd rate
	Timber aspen of small size and dense growth with scattering pine of good size on W side of ridge; on E side of ridge heavy pine forest
	Mountainous land 103.96 chs. -
	Note: The weather being cloudy during the noon hour I was unable to observe the sun or

chains	the meridian this day. —
	East bd. secs. 5 and 32.
	Over mountainous lands
	Ascending
3.50	Top of ridge bears N. and S. 90 ft. above cor. —
	Descending over rolling broken surface in scattering
	timber and dense undergrowth
28.40	Bottom of slope at head of gulches running N. and
	S. 30° W. 210 ft. below top of ridge. —
	Ascend on rolling slope
40.00	Set a limestone 18 x 8 x 6 ins. 12 ins. in the ground
	for 1/4 sec. cor. marked 1/4 on N. face; raised a
	mound of stones 2 ft. base 1½ ft. high N. of cor.
	Pits impracticable
76.00	Top of ridge bears N. and S. 250 ft. above gulch
	Descend to
80.00	Set a limestone 16 x 10 x 4 ins. 11 ins. in the ground
	for cor. of secs. 4-5-32 and 33 marked with 2
	notches on W. and 4 notches on E. edges; raised a
	mound of stones 2 ft. base 1½ ft. high W. of cor.
	Pits impracticable. —
	This cor. stands 80 ft. below top of ridge
	Land mountainous
	Soil gravelly and rocky 3rd rate.
	Timber Mountain Mahogany scattering
	Maple, aspen and thorn undergrowth. —
	Mountainous land 80.00 chs. —
	East bd. secs. 4 and 33
	Over mountainous land
	Descending
1.00	Bottom of gulch course N. 15° E
	Thence ascending over rolling surface
7.20	Top of spur runs N. 60 ft. high. — Descend
12.00	Hollow draws N. 50 ft. deep. — Ascend
20.60	Top of spur runs N. 70 ft. above hollow. — Descend
27.95	Hollow, course N. 60° W. 60 ft. deep. — ascending
34.50	Hollow, course N 60° W. 50 ft. deep.
40.00	Set a limestone 16 x 9 x 6 ins. for 1/4 sec. cor. marked 1/4
	on N. face; raised a mound of stones 2 ft. base 1½ ft.

South Boundary of T. 11 N. R. 3 E.

chains	
	high N. of cor. Pile impracticable
41.80	Head of hollow 40 ft. deep course N 60° W.
60.00	Top of ridge dividing waters heds of Blacksmith Fork and Saddle Creek, course N 76° E and S 75° W. 300 ft. above sec cor. — Descend on rolling surface
62.65	Head of hollow 50 ft. deep course S.
69.50	Head of hollow 60 ft. deep course S.
71.00	Bottom of hollow 70 ft. deep course S. — ascend to
78.00	Top of ridge course N. and S. 80 ft. above hollow Descending abruptly
80.00	The cor. of secs. 3—4—33 and 34

Land mountainous
Soil gravelly and rocky 3rd rate
Timber: Mountain Mahogany scattering
Maple ashen and thorn undergrowth —
Mountainous land 80.00 chs.

June 18. 1901

This township is all mountainous land very rough and broken. — It contains a few patches of good timber and is well watered. — The soil is gravelly and rocky but fertile and the whole township is well adapted for summer grazing. — The township should be subdivided

Andrew P Johnson
U.S. Dep. Surveyor.

FINAL OATH OF UNITED STATES DEPUTY SURVEYOR.

I, _____, United States Deputy Surveyo

solemnly swear that, in pursuance of a contract received from _____, bearing date o

United States Surveyor General for _____

_____ day of _____, 189 , I have well, faithfully, and truly, in my

proper person, and in strict conformity with the instructions furnished by the United States Sur

General for _____, the Manual of Surveying Instructions, and the laws

United States, surveyed all those parts or portions of _____

_____

_____

_____ of the _____

_____ meridian, in the _____ of _____, which are represented

foregoing field notes as having been surveyed by me, and under my direction; and I do further sol

swear that all the corners of said survey have been established and perpetuated in strict accordanc

the Manual of Surveying Instructions, and the special written instructions of the United States Su

General for _____ and in the specific manner described in the field notes, an

the foregoing are the original field notes of such survey; and should any fraud be detected, I will

the penalty of perjury under the provisions of an Act of Congress approved August 8, 1846.

APPROVAL.

OFFICE OF THE UNITED STATES SURVEYOR GENERAL,

Salt Lake City, Utah, August 27, 190

The foregoing field notes of the survey of the West, North & South Bounda

of Township 11 North, Range 3 East of the Salt Lake

Base & Meridian, Utah

executed by Cadwell Hanson

under his contract No. 234, dated November 30, 1899, hav

critically examined, and the necessary corrections and explanations made, the said field notes,

surveys they describe, are hereby approved.

Edward P. Anderson

United States Surveyo

I certify that the foregoing transcript of the field notes of the above-described surveys in

_____, has been correctly copied from the original notes on file in this

Subdivision of Tp. 11 N. R. 3 E.

chains

Survey commenced June 18. 1901. and executed with a W. & L. E. Gurley light mountain transit with solar attachment. — The horizontal limb is provided with two double verniers placed opposite to each other reading to single minutes of arc, which is also the least count of the vernier of the latitude and declination arcs. —
The instrument was examined tested on the true meridian at Salt Lake found correct and was approved by the surveyor general for Utah April 13, 1901
I examine the adjustments of the transit and correct the level and collimation errors then to test the solar apparatus by comparing its indications resulting from solar observations made during a.m. and p.m. hours with a true meridian determined by observations on Polaris I proceed as follows. —
I return to my permanent camp in the S.E. 1/4 of sec. 8 T. 10 N. R. 3 E. and at 4h 52m p.m. 7 m.t. June 18 go to the true meridian established by me June 13-14 by Polaris observations and having set off 41°36'30" N. on the lat. arc 23° 26'30" N. on the decl. arc determine a true meridian with the solar which I compare with the true meridian above mentioned and which is fully described in the field notes of the resurvey of E. and N. bdys of T. 10 N. R. 2 E. at the commencement of this survey. — The difference is within 1' of arc. —

June 18. 1901

June 19. at 7h 30m a.m. 7 m.t. I set off 41°36' 30" N. on the lat. arc 23°27' N. on the decl. arc and compare the true meridian indicated by the solar with the true meridian established by Polaris observation and find the difference to be within 1' of arc I therefore conclude the adjustments of the instrument are satisfactory. —

I begin at the cor. of Tps. 10 and 11 N. Rs. 3 and 4

Subdivision of T. 11 N. R. 3 E.

Chains	
	E. 1 Latitude 41°38' N longitude 111°33' W which is a stone firmly set marked and witnessed as described by the Surveyor general and having myself surveyed the E. bdy. of this Tp. under a former contract I run West on S. bdy. sec. 36; at 40.10 the 1/4 sec. cor. bears S. 38 lks. being a stone firmly set marked and witnessed as described by the surveyor general; at 80.20 the cor. of secs. 1-2-35 and 36 bears S. 75 lks. being a stone firmly set marked and witnessed as described by the surveyor general. - The course of this line is therefore S. 89-28' W. making the S. bdy of Tp. irregular and necessitating a sectional correction line. -
	I commence at the cor. of secs. 25 and 36 on E. bdy. of Tp 11 N. R 3 E which is a stone firmly set marked and witnessed as described by the surveyor general
	Thence I run
	West. on sectional correction line bet. secs. 25 and 36
	Over mountainous land
	ascending
4.00	Top of spur runs S. 60 ft. above cor. - Descend
40.00	Set a quartzite stone 18 x 7 x 6 ins 12 ins. in the ground for 1/4 sec. cor. marked 1/4 on N. face; raised a mound of stones 2 ft. base 1½ ft. high. N. of cor. - Pits impracticable
43.65	Dry wash and bottom of hollow course S.W. 300 ft. below spur -
	Thence over rolling broken surface
55.30	Stream 2 lks wide course S in bottom of hollow 30 ft. deep. — ascend
63.00	Top of spur bears S. 60 ft. high. — Descend
70.27	Wood road bears N. 25° W and S 25° E in bottom of hollow
70.43	Stream 3 lks wide runs S. 10° E in bottom of gulch 60 ft. below spur. - ascend
77.27	Stream 4 lks; course N. 80° E.
80.00	Set a quartzite stone 17 x 8 x 6 ins. 11 ins. in the ground for cor. of secs. 26-26-35 and 36 marked with 1 notch on S. and E. edges; raised a mound

Subdivision of T. 11 N. R. 3 E.

drains | of stones 2 ft. base 1½ ft. high W. of cor. —
Pits impracticable
This cor. stands 70 ft. above last gulch. —
Land mountainous
Soil gravelly and rocky 2nd and 3rd rate
no timber — scattering brush and brake
Mountainous land 80.00 chs. —
June 19 at this cor. I set off 23° 26' N. on the
decl. arc and at 12h 41m p.m. mnt. observed the sun
on the meridian, the resulting lat. is 41° 39' N.

West bd. secs. 26 and 35 —
Over mountainous land
Ascending on N.E. slope in aspen brake and
dense undergrowth —
40.00 Set a limestone 18 x 9 x 6 ins. 12 ins. in the
ground for ¼ sec. cor. marked with 1/4 on N.
face; raised a mound of stones 2 ft. base 1½ ft.
high N. of cor. — Pits impracticable
64.00 Top of spur runs S.E. thence on S.E. slope to
69.00 Top of ridge bears N. and S 500 ft. above sec. cor.
Begin gradual descent
80.00 Set a limestone 18 x 8 x 6 ins. 12 ins. in the ground
for cor. of secs. 26-27-34 and 35 marked with
1 notch on S. and 2 notches on E. edges; raised
a mound of stones 2 ft. base 1½ ft. high W. of
cor. Pits impracticable —
Land mountainous
Soil gravelly and rocky 3rd rate
No timber — dense aspen brake and underbrush
the entire distance. —
Mountainous land 80.00 chs. —

West bd. secs. 27 and 34
Over mountainous land
Descending, through scattering timber
62.50 Bottom of hollow 8.0 ft. deep course S. 20° E.
Ascend
145.00 Top of ridge course N. and S. 23° W. 120 ft. high
Descend
200.00 Head of hollow drains S. 70° W. 70 ft. below ridge

Subdivision of T. 11 N. R. 3 E.

chains	ascend on S. slope
33,40	Top of spur S. 90 ft. above hollow. —
	Descending W.
40,00	Set a limestone 18 x 8 x 6 ins. 12 ins. in the ground for 1/4 sec. cor. marked 1/4 on N. face: raised a mound of stones 2 ft. base 1½ ft. high N. of cor. Pits impracticable. —
71,50	Road in bottom of hollow draining N.W. to W. 330 ft below spur. —
	ascend
78,00	Top of spur runs N. 90 ft above hollow. —
	Begin descent on broken N.W. slope
80,00	Set a limestone 17 x 8 x 6 ins. 11 ins. in the ground for cor. of secs. 27-28-33 and 34 marked with 1 notch on S and 3 notches on E edges: raised a mound of stones 2 ft. base 1½ ft. high W. of cor. Pits impracticable
	Land mountainous
	Soil gravelly and rocky 3rd rate
	Timber, scattering mountain mahogany and a very few pine. —
	Mountainous land 80,00 chs.

	West bet. secs. 28 and 33
	Over mountainous land
	Descending over broken N.W. slope, through undergrowth
28,50	Trail bears N. and S. in bottom of gulch draining N. 250 ft. below sec. cor.
	Begin abrupt ascent
40,00	Set a limestone 18 x 8 x 5 ins. 12 ins. in the ground for 1/4 sec cor. marked 1/4 on N. face, raised a mound of stones 2 ft. base 1½ ft. high N. of cor. Pits impracticable
57,00	Top of ridge bears N. and S. 400 ft. above gulch
	Descending gradually over broken surface
80,00	Set a limestone 17 x 8 x 6 ins. 11 ins. in the ground for cor. of secs. 28-29-32 and 33 marked with 1 notch on S and 4 notches on E. edges: raised a mound of stones 2 ft base 1½ ft. high W. of cor. — Pits impracticable. —

Subdivision of T. 11 N. R. 3 E.

chains	
	This cor. stands 150 ft. below top of ridge
	Land mountainous
	Soil gravelly and rocky 3rd rate
	Timber: a few mountain mahogany and pine scattering. — Maple and thorn undergrowth —
	Mountainous land 8000 chs. —
	June 19, 1901
	June 20 Sunday
	West bet. secs. 29 and 32
	Over mountainous land
	Descending
1.10	Bottom of hollow 40 ft. deep course N 20° W.
	ascend
5.00	Top of spur runs N. 60 ft. high. —
	Begin gradual descent on broken slope
14.00	Bottom of hollow 40 ft. deep drains N. 30° W.
21.00	Begin abrupt descent
30.20	Bottom of gulch 120 ft. deep course N.
	Ascend abruptly
40.00	Set a limestone 17 x 8 x 6 ins. 11 ins. in the ground for 1/4 sec cor. marked 1/4 on N. face: raised a mound of stones 2 ft. base 1 1/2 ft. high N. of cor.
	Pits impracticable. —
49.60	Top of ridge bears N. 30° W. and S 30° E 350 ft. above gulch. — Descend
58.06	Bottom of gulch 200 ft. deep and stream 2 lks. wide course N.W. - ascend
68.40	Top of spur runs N. 190 ft. high. - Descend
73.70	Bottom of gulch 180 ft. below spur course N 15° E. — ascend
80.00	Set a limestone 18 x 11 x 6 ins. 12 ins. in the ground for cor. of secs. 29-30-31 and 32 marked with 1 notch on S and 5 notches on E edges: raised a mound of stones 2 ft. base 1 1/2 ft. high W. of cor. Pits impracticable
	This cor. stands 120 ft. above bottom of gulch. —
	Land mountainous
	Soil gravelly and rocky 3rd and 4th rate
	Timber: scattering pine and mountain mahogany
	Mountainous land 8,000 chs. —

Subdivision of T. 11 N. R. 3 E.

Chains	
	West bet. secs. 30 and 31.
	Over mountainous land
	Ascending abruptly; scattering timber and brush
15.20	Top of ridge bears N.E. and S. 300 ft. above cor.
	Begin abrupt descent in pine timber course
	N. and S.
24.60	Bottom of narrow gulch 360 ft. deep course N. and
	drag road parallel with gulch
	Ascend steep rocky slope. - Leave pine timber course N. and S.
40.00	Set a limestone 16 x 9 x 6 ins. 11 ins. in the
	ground for 1/4 sec. cor. marked 1/4 on N. face:
	raised a mound of stones 2 ft. base 1½ ft. high
	N. of cor. Pits inspractical. -
44.55	Top of gulch bears N. and S. 430 ft. above bottom;
	thence on gradual ascent W.
50.00	Top of ridge bears N. and S. - Aneroid Elev. 6760 ft.
	Descend gradually on broken slope
71.00	Top of sharp ridge bears S 75° W and N. 75° E.:
	Begin abrupt descent on N. W. slope W.
105.10	Intersect W. bdy of Tp. 3 N. 4 chs S of cor. of secs.
	25 - 30 - 31 and 36 as heretofore described and from
	which I now removed all markings pertaining to
	secs. 30 and 31 thence
	I set a limestone 16 x 9 x 6 ins 12 ins. in the
	ground for closing cor. of secs. 30 and 31 marked C.
	C. on E. with 1 grove on S and 6 groves on N. faces:
	from which
	A pine tree 4 ins. diam. bears S. 85° 2' E 33 lks.
	dist. marked T 11 N R 3 E S 31 B.T.
	no other trees within limit. - Raised a mound of
	stones 2 ft. base 1½ ft. high E. of cor.
	Pits inspractical
	Elev. cor stands 420 ft. below top of ridge
	Land mountainous
	Soil gravelly and rocky 4th rate
	Timber pine, and mountain mahogany
	scattering. - Aspen brake and underbrush
	Mountainous land 105.10 chs. -
	Pine 20: at this cor. Dist. off 23° 27' N. on
	the Lat. arc and at 12 41 m p m, I with observer

Subdivision of T. 11 N. R. 3 E.

chains	
	The run on the meridian: the resulting lat. is 41° 39' N.
	At the cor. of secs. 25-26-35 and 36 as heretofore described I set off 41° 39' N on the lat. arc 23° 27' N. on the decl. arc and at 2h 15m p.m, I mt determined a true meridian with the solar.
	Thence I run
	S. 0° 1' E. on a random line bet. secs. 35 and 36
40.00	Set temp. 1/4 sec. cor.
81,04	Intersect S. bdy of Tp. 29 lks E. of cor. of secs. 1-2 35 and 36 as heretofore described
	Thence I run
	N. 0° 11' E. on a true line bet. secs. 35 and 36.
	Over mountainous land.
	Ascending
31,45	Top of ridge bears S. 70° E and N. W. 360 lks above cor.
	Begin descent
41,04	Set a quartzite stone 18 x 10 x 7 ins, 12 ins in the ground for 1/4 sec. cor. marked 1/4 on W. face: raised a mound of stones 2 lks. base 1½ lks. high W. of cor. Pits impracticable
43,55	Bottom of gulch drains E 100 lks. below ridge
	Ascend
59,50	Wood road bears E and W on top of spur E 90 lks. above gulch
	Descend on N.E. slope
80,75	Small spring, drains E.
81,04	The cor. of secs. 25-26-35 and 36
	This cor. stands 225 lks. below top of spur
	Land mountainous
	Soil gravelly and rocky 2nd and 3rd rate
	No timber:- scattering brake and brush
	Mountainous land 81.04 chs. —
	N. 0° 1' W. bet. secs 25 and 26
	Over mountainous land
1,09	Stream 3 lks wide flows E.- ascend
	Enter timber and dense brush course E and W.
6,00	Leave timber and brush course E and W.
32,50	Top of spur runs S 30° E 290 lks. above cor.
	Descend gradually
40,00	Set a sandstone 17 x 8 x 6 ins. 11 ins in the ground

Subdivisions of T. 4 N. R. 3 E.

chains	
	for 1/4 sec. cor. marked 1/4 on W. face; raised a mound of stones 2 ft. base 1½ ft. high W. of cor. —
	Pits impracticable.
42.06	Bottom of gulch course S. 30° E. 11½ ft. deep. — ascend
60.60	Top of spur runs S. 30° E. thence on S. E. slope and gradual ascent to
80.00	set a limestone 18 x 9 x 6 ins. 12 ins. in the ground for cor. of secs. 23-24-25 and 26 marked with 2 notches on S. and 1 notch on E. edges; raised a mound of stones 2 ft. base 1½ ft. high W. of cor. —
	Pits impracticable. — Aneroid Elev. 6873 ft.
	This cor. stands 220 ft. above gulch
	Land mountainous
	Soil gravelly and rocky 3rd rate
	Timber aspen and scattering mountain mahogany
	Mountainous land 80.00 chs. —
	June 20, 1901

June 21st. at 7.45 a.m. I met Mr. [illegible] and set off 4° 40' E. on the lat. and 23° 28' N. on the declination and determined a true meridian with the solar at the cor. of secs. 23-24-25 and 26 thence I run East on a random line bet. secs. 24 and 25 —

40.00	Set temp. 1/4 sec. cor.
79.96	Intersect E bdy of Tp. at cor. of secs. 24 and 25 — which is a stone firmly set marked and witnessed as described by the Surveyor General
	Thence I run West on a true line bet. secs. 24 and 25 —
	Over mountainous land
	Descending on steep broken N. slope
24.00	Bottom of ravine 150 ft. deep course N. 10° W.
	Ascending
39.98	Set a limestone 17 x 10 x 6 ins. 11 ins. in the ground for 1/4 sec. cor. marked 1/4 on N. face raised a mound of stones 2 ft. base 1½ ft. high N. of cor. Pits impracticable
45.00	Top of spur N.W. 100 ft. above ravine
	Leave steep N. slope and descend on W. slope
62.10	Bottom ravine 190 ft. below spur, drains N. Ascend
67.00	Ascent becomes less abrupt. Course N. and S.

Subdivision of T. 11 N. R. 3 E.

chains

	brake and brush
	Mountainous land 91,50 chs. —
	June 24, 1901

June 25th: At 7 43 am I met — I set off 41° 39' N. on the Lat. arc 23° 26' W on the dec. arc and determine a true meridian with the solar at the cor. of secs. 27-28-33 and 34. thence I run S. 0° 2' E. on a random line bet. secs. 33 and 34

40,00	Set limest. 1/4 sec. cor.
81,44	Intersect S. bdy. of Tp. 11 N. R. E of the cor. of secs. 3-4-33 and 34 which is a stone heavily set marked and witnessed as described by the surveyor general
	Set a limestone 20x8x6 ins. 13 ins. in the ground for closing cor. of secs. 33 and 34 marked C.C. on N. with 3 grooves on S and W. faces: raised a mound of stones 2 ft. base 1½ ft. high N. of cor. Pits impracticable. —
	I destroy all markings on original cor. pertaining to secs. 33 and 34.
	Thence I run
	N. 0° 2' W on a true line bet. secs. 33 and 34.
	Over mountainous land
	Ascending on broken slope in scattering timber
12,50	Top of ridge course E and W. 100 ft. above cor.
	Begin descent on broken N.W. slope
41,44	Set a limestone 16x9x7 ins. 11 ins. in the ground for 1/4 sec. cor. marked 1/4 on W. face: raised a

Chains	mound of stones 2 ft. base 1½ ft. high W. of cor. —
	Pits impracticable
87.44	The cor. of secs. 27-28-33 and 34
	This cor. stands 600 ft. below the ridge
	Land mountainous
	Soil gravelly and rocky 4th rate
	Timber mountain mahogany and cedar scattering
	Mountainous land 87.44 chs —
	N 0° 2' W. bet. secs. 27 and 28
	Over mountainous land
	Descending
4.48	Road bears E and W. in bottom of gulch 75 ft. below cor.
	course W. — Ascend
14.00	Top of spur runs S. 30° E. ; thence on S. E. slope
37.90	Enter mountain mahogany timber course E and W.
40.00	Set a limestone 17 x 8 x 5 ins. 11 ins. in the ground
	for 1/4 sec. cor. marked 1/4 on W. face ; raised a
	mound of stones 2 ft. base 1½ ft. high W. of cor.
	Pits impracticable Aneroid Elev. 7080 ft.
64.00	Top of ridge bears N. E. and S. W. 700 ft. above gulch
	Descend
75.00	Edge of cañon bears E and W. ; begin abrupt descend
80.00	Set a limestone 18 x 8 x 6 ins. 12 ins. in the
	ground for cor. of secs. 21-22-27 and 28 marked
	with 2 notches on S and 3 notches on E. edges ;
	raised a mound of stones 2 ft. base 1½ ft. high W.
	of cor. — Pits impracticable
	This cor. stands 350 ft. below top of ridge
	Land mountainous
	Soil gravelly and rocky 3rd rate
	Timber mountain mahogany cedar and a few pines
	of small size mainly. —
	Mountainous land 80.00 chs. —
	East on a random line bet. secs. 22 and 27
4.00	Set iron 1/4 sec. cor.
80.14	Intersect N. and S. line 18 lks E. of cor. of secs. 22-23-
	26 and 27
	Thence 9 ins
	S. 89° 52' W. on a true line bet. secs. 22 and 27

Subdivisions T. 11 N. R. 3 E.

	Over mountainous land.
	Descending on N.W. slope, in scattering timber and undergrowth—
22,30	Bottom of ravine 300 ft. below cor. course N. 23° W.
	Ascend
40,04	Set a limestone 17 x 9 x 6 ins. 11 ins. in the ground for 1/4 sec. cor. marked 1/4 on N. face; raised a mound of stones 2 ft. base 1½ ft. high N of cor. Pits impracticable
42,10	Top of spur 260 ft. above ravine course N. 20° W.
	Descend abruptly to—
68,30	Bottom of ravine 360 ft. below spur
	Ascending gradually on N. slope to
80,14	The cor. of secs. 21-22-27 and 28
	Land mountainous
	Soil gravelly and rocky 4th rate
	Timber, pine cedar and mountain mahogany maple wild cherry and thorn undergrowth—
	Mountainous land 80,14 chs. —
	June 25: at this cor. I set off 23° 24' 30" N. on the declinator and at 12h 2m P.M., I sun— observed the sun on the meridian the resulting lat. is 41° 40' N. —

	N. 0° 2' W. bet. secs. 21 and 22
	Over mountainous land.
	Descending abruptly, in dense undergrowth—
24,00	Descent becomes rocky and precipitous
40,00	Set a limestone 17 x 8 x 5 ins. 11 ins. in the ground for 1/4 sec. cor. marked 1/4 on on W. face; raised a mound of stones 2 ft. base 1½ ft. high W. of cor.
	Pits impracticable
45,00	Enter bottom of saddle creek canon 800 ft. below sec. cor.
45,30	Road running E and W.
46,43	Saddle creek 20 lks. wide rapid current good water course S.
47,00	Begin abrupt ascent course E. and W.
70,00	Enter slide rock bears E. and W., and timber course N.W. and S.E.
80,00	Set a limestone 17 x 8 x 6 ins. 11 ins. in the ground for cor. of secs. 15-16-21 and 22 marked with 3 notches on S. and E. edges from which

Subdivision of T. 11 N. R. 3 E.

chains

Chains	
8.00	Intersect N. and S. line at cor. of secs. 2-3-10 and 11
	Thence I run
	N. 89° 51' W. on a true line bet. secs. 3 and 10.
	Over mountainous land
	Ascending in aspen brake and brush
20.10	Top of ridge bears N. and S. 200 ft. above cor
	Descend
29.36	Bottom of gulch 135 ft below ridge course S. 35° W.
	Thence over rolling slope on gradual descent to
40.00	Set a sandstone 18 x 9 x 4 in. 12 in. in the ground for 1/4 sec. cor. marked 1/4 on N. face: raised a mound of stones 2 ft. base 1½ ft. high N. of cor. —
	Pits impracticable
42.40	Spring branch in bottom of open gulch 200 ft. below ridge course S. — Spring and head of gulch about 15 chs N. — Begin ascent
75.00	Top of ridge bears N. and S. 320 ft. above gulch
	Descend to
80.00	The cor. of secs. 3-4-9 and 10. —
	This cor. stands 90 ft. below top of ridge
	Land mountainous
	Soil gravelly 3rd rate
	No timber. — Aspen brake and brush
	Mountainous land 80.00 chs. —

June 26 at 4h 30m p.m. my ? mT — Sect off 41° 42' 30" N. on the bet. arc 23° 23' 00" N. on the dec. arc and determine a true meridian with the solar at the cor. of secs. 3-4- 9 and 10

Thence I run

N. 0° 2' W. on a random line bet. secs. 3 and 4

40.00	Set temp. 1/4 sec. cor
91.76	Intersect N. bdy. of Tp. at cor. of secs. 3-4-33 and 34 as hereinbefore described
	Thence I run
	S. 0° 2' E. on a true line bet. secs. 3 and 4
	Over mountainous land
	Ascending gradually to
1.40	Top of ridge bears N. 80° W and S. 65° E
	Begin descent. —

Chains	
4,25	Head of gulch 50 ft. below ridge course S. 66° W.
	Enter dense ashen timber parallel to gulch and
	Begin ascend
17,75	Top of ridge bears E and W. 175 ft. above gulch
	Descend
44,45	Bottom of gulch draining W. 250 ft. deep
	Ascend
67,76	An ashen tree 4 in diam. for 1/4 sec cor. S
	mark 1/4 S. 4 on W. side 3 on E side from which
	an ashen tree 6 in diam. bears N 88° 30' W. 33
	lks. dist. marked 1/4 S 4 B.T.
	An ashen tree 4 in. diam. bears S. 17° E 10 lks
	dist. marked 1/4 S 3 B.T.
86,80	Top of spur runs N W. 125 ft. high. —
	Descend
62,25	Bottom of ravine 50 ft deep course N W
	Ascend
71,26	Top spur 90 ft. high course W. 60° W. — Descend
91,76	The cor. of secs. 3 — 4 — 9 and 10
	This cor. stands 200 ft. below the spur
	Land mountainous
	Soil gravelly and rocky 3rd rate
	Timber ashen of small size mainly but dense
	growth. —
	Mountainous land 91,76 chs. —
	June 26. 1901.

June 27: at 7h 5m a.m. I set off 41° 39' N. on the lat. arc 23° 22' N. on the decl. arc and determined with the solar a true meridian at the cor. of secs. 28-29-32 and 33. Thence I run S 0° 3' E on a random line bet. secs. 32 and 33

40,00	Set temp. 1/4 sec. cor.
81,50	Intersect S. bdy. of Tp. 1 N. 12 chs. E. of cor. of secs. 4-5-32 and 33 as heretofore described
	Set a limestone 18 x 10 x 3 ins. 12 ins. in the ground for closing cor. of secs. 32 and 33 marked C. C. on N. with 4 grooves on E and 2 grooves on W. faces, raised a mound of stones 2 ft. base 1½ ft. high N. of cor. —
	Pits impracticable. —

Subdivision of T. 11 N. R. 3 E.

Claim	I destroy all marking on original cor. pertaining to sees. 32 and 33.
	Thence I run
	N. 0° 3' W. on a true line bet. sees. 32 and 33
	Over mountainous land
	Descending in bottom of gulch running N. 15° E.
2,90	Begin ascent on E. slope
5.00	Top of spur E. 60 ft. high. - Descend
23,70	Bottom of gulch bears N. 25° W. and S. 25° E. 100 ft. below spur. — Thence in bottom of gulch to
27,50	Dry wash and bottom of gulch course N.W.
	Begin ascent on S.W. slope
41,50	Set a limestone 18 x 8 x 6 in. 12 in. in the ground for 1/4 sec cor. marked 1/4 on W. face: raised a mound of stones 2 ft. base 1½ ft. high W. of cor.
	Pits impracticable
43.60	Top of ridge bears N.W. and S.E. 200 ft. above gulch
	Descend gradually on rolling surface
63,00	Bottom of draw course N.W. 60 ft. deep. - ascend
68.00	Top of spur 80 ft. high runs N.W. — Descend
78.60	Bottom of hollow 120 ft below spur course N.W.
81.50	The cor. of sees. 28-29-32 and 33.
	Land mountainous
	Soil gravelly and rocky 3rd rate
	Timber, scattering mountain mahogany and cedar. — maple undergrowth
	Mountainous land 81.50 chs. —
	N. 0° 3' W. bet. sees. 28 and 29
	Over mountainous land
	Descending gradually, in scattering timber and dense brush
13.00	Begin abrupt descent on side of canon course E. and W.
28.93	Bottom of gulch and stream 2 lks. wide course W. 400 ft. below cor. — ascend in rocky brakes
40.00	Set a limestone 17 x 9 x 6 in. 11 in. in the ground for 1/4 sec. cor. marked 1/4 on W. face raised a mound of stones 2 ft. base 1½ ft. high W. of cor. Pits impracticable
48.00	Top of ridge bears E. and W. 450 ft. above gulch

	chains	
		Begin abrupt descent on N.W. slope
	80,00	Set a limestone 17 x 9 x 8 ins. 11 ins. in the ground for cor. of secs. 20-21-28 and 29 marked with 2 notches on S. and 4 notches on E. edges; raised a mound of stones 2 ft. base 1½ ft. high W. of cor.
		Pits impracticable —
		This cor. stands 500 ft. below top of ridge
		Land mountainous
		Soil rocky and gravelly ¼ ch. rate —
		Timber scattering cedar and pine —
		Thorn and snake undergrowth —
		Mountainous land 80,00 chs. —
		June 27: at this cor. I set off 23° 21' N. on the decl. arc and at 12 h 3m p.m. ? mr. observe the sun on the meridian: the resulting lat. is 41° 40' N. —
		East on a random line bet. secs. 21 and 28

74.75	Bottom of gulch and dry wash 100 ft deep, course S. E. — ascending to
78.60	Top of gulch; thence on E. slope
91.80	The cor. of secs. 5 - 6 - 7 and 8
	Land mountainous
	Soil gravelly 3rd rate
	Timber ashen of small size, and a few pine scattering. —
	Mountainous land 91.80 chs. —

July 2. I return to the meridian established June 14 by observation on Polaris as fully described at beginning of field notes of survey of W. bdy. of T. 10 N. R. 3 E. Book A of this survey reference to which is hereby made. - At 9h 58m a. m. I set off 41° 36' 30" N. on the lat. arc 23° 04' N. on the decl. arc and test the adjustment of my solar, finding it given the same meridian as before. —

At 2h 0m p. m. I set off 41° 36' 30" N. on the lat. arc 23° 03' N. on the decl arc and test the adjustments of the solar finding the meridian indicated, to agree with the true Polaris meridian within 1' of arc and conclude the adjustments are satisfactory. —

July 2. 1901

General Description

This township is all mountainous land very rough and broken. The soil is mostly fertile producing native grasses excellent for summer pasture but no part of the township is fit for cultivation nor owing to the deep snow, for permanent settlement. —

Field Notes T. 1 N. R. 2 E.

There are a few isolated patches of good pine timber but nearly the entire area is covered with dense undergrowth of aspen, willow, maple and thorn. There are no quarries nor mines within the township; nor is there any permanent settlement nor improvements of value.

The township is well watered by several streams following deep narrow rocky canons mostly, and some springs.

Andrew P. Hannon
U.S. Deputy Surveyor

South boundary of Tp 11 N. R 3 E — Retracement

Chains	Survey commenced July 2. 1901 and executed with a Gurley light mountain transit with solar attachment: for description of which and also list of solar apparatus see field notes of subdivision of this township. —
	The boundary of sec 35 not closing within the limit of error it becomes necessary to retrace S. bdy. to locate error. Therefore.
	From the cor. of secs. 1-2-35 and 36 as heretofore described I run
	West on a blank retracement line bet. secs. 2 and 35
40.40	The 1/4 sec. cor. bears S. 1 lk. dist being a stone firmly set and properly marked and witnessed as described by the surveyor general. —
80.76	Intersect the cor. of secs. 2-3 as heretofore described:- The course of this line is therefore West.
	The closings of secs. 34 being unsatisfactory I run
	West on a blank retracement line bet. secs. 3 and 34
40.20	Intersect the 1/4 sec. cor. which is a stone firmly set marked and witnessed as described by the surveyor general. —
80.42	The cor. of secs. 3 and 4 as heretofore described The course of this line is therefore West
	July 2. 1901
	For general description see notes of subdivision of this Tp.

FINAL OATH OF UNITED STATES DEPUTY SURVEYOR.

I, _____, United States Deputy Surveyo
solemnly swear that, in pursuance of a contract received from _____, bearing date o
United States Surveyor General for _____
_____ day of _____, 189 , I have well, faithfully, and truly, in my
proper person, and in strict conformity with the instructions furnished by the United States Sur
General for _____, the Manual of Surveying Instructions, and the laws
United States, surveyed all those parts or portions of _____
_____
_____
_____
_____ of the _____
_____ meridian, in the _____ of _____, which are represented
foregoing field notes as having been surveyed by me, and under my direction; and I do further so
swear that all the corners of said survey have been established and perpetuated in strict accordan
the Manual of Surveying Instructions and the special written instructions of the United States Su
General for _____ and in the specific manner described in the field notes, a
the foregoing are the original field notes of such survey; and should any fraud be detected, I wil
the penalty of perjury under the provisions of an Act of Congress approved August 8, 1846.

Subdivision of T. 10 N. R. 3 E.

Chains	
	Survey commenced July 2. 1901 and executed with a W & L E Gurley Eight mountain transit with solar attachment: the horizontal limb is provided with two double verniers placed opposite to each other reading to single minutes of arc which is also the least count of the verniers of the latitude and declination arcs. —
	The instrument was examined tested on the true meridian at Salt Lake, found correct and was approved by the surveyor general for Utah April 13. 1901
	Examination of adjustments of the instrument and complete test of solar apparatus having been made this date and fully described at the end of field notes of subdivision lines of Tp. 11 N. R. 3 E reference to which is hereby made I consider it unnecessary to repeat said descriptions here. — See book C.
	At the 1/4 sec. cor. bet secs. 8 and 9 Tp 10 N. R. 3 E which is a stone firmly set marked and witnessed by the surveyor general at 2h 30m p.m., I unit July 2 I set off 41° 37' N. on the lat. arc 23° 3' 30" N. on the decl. arc and determine a true meridian with the solar. —
	The magnetic bearing of the true meridian at 3h p.m., I. m.t. is 18° 10' W. the angle thus determined reduced by the table page 100 gives mean mag. decl. 18° 15' E. —
	From the 1/4 sec cor. above described I run N. 0° 1' W. bet. secs. 8 and 9
	Over mountainous land
	W. slope and gradual ascent to —
12,00	Top of spur running W. — Descending on N. W. slope —
3.13	Bottom of North Cottonwood gulch 150 ft. deep. comm S. or. —
	Wood road runs parallel with gulch
	Begin abrupt ascent

Subdivision of T. 10 N. R. 3 E.

Chains	
40,00	Set a limestone 18×8×6 ins. 12 ins. in the ground for cor. of secs. 4-5-8 and 9 marked with 5 notches on S. and 4 notches on E. edges; raised a mound of stones 2 ft. base 1½ ft. high W. of cor. Pits impracticable Thin cor. stands 340 ft. above gulch Land mountainous Soil gravely and rocky 3rd rate Timber a few mountain mahogany and cedar scattering. — Manzanita and wild cherry brush Mountainous land 40,00 chs. —
	S. 89° 57' E. on a random line bet. secs. 4 and 9
40,00	Set limestone ¼ sec. cor.
80,12	Intersect N. and S. line 1.41 chs. S. of cor. of secs. 3-4-9 and 10 which is a stone firmly set marked and witnessed as described by the surveyor general. — Set a quartzite stone 18×10×6 ins. 12 ins. in the ground for closing cor. of secs. 4 and 9 marked C. C. on W. with 5 grooves on S. and 1 groove on N. faces.; raised a mound of stones 2 ft. base 1½ ft. high W. of cor. — Pits impracticable O. remove all markings on original cor. pertaining to secs. 4 and 9. — Thence O rms N. 89° 57' W. on a true line bet. secs. 4 and 9 Over mountainous land Ascending abruptly to
7,00	Top of ridge bears N. and S. 130 ft. above cor. Begin descent. — in dense undergrowth —
40,06	Set a limestone 17×7×6 ins. 11 ins. in the ground for ¼ sec. cor. marked ¼ on N. face; raised a mound of stones 2 ft. base 1½ ft. high N. of cor. Pits impracticable. —
59,68	Bottom of North Cottonwood gulch 500 ft. below ridge course S. 60° W.
	Wood road runs parallel to gulch. — Gulch and road branch 20 lks. above line Begin ascent on steep S. E. slope

Subdivision of T. 10 N. R. 3 E.

Chains	
80.12	The cor. of secs. 4-5-8 and 9
	Thin cor. stands 200 ft. above gulch. —

	Timber cedar and mahogany, scrubby growth — scattering. —
	Mountainous land 80.00 chs. —
	By reason of former closings on W. bdy. of Tp. I run West bet. secs. 6 and 7 on true line
	Over mountainous land
	Descending on bottom steep S. 4th slope
2.80	Bottom of ravine 50 ft. deep drains S. — Ascend
20.00	Top of spur running S. 150 ft. above ravine. Descend

Subdivision of T. 10 N. R. 3 E.

Chains	
38.75	Bottom of hollow 200 ft below spur course S. ascend
40.00	Set a limestone 17 x 9 x 5 ins. 11 ins in the ground for 1/4 sec cor. marked 1/4 on N. face; raised a mound of stones 2 ft base 1½ ft high N. of cor. Pits impracticable
61.50	Top of spur running S. 120 ft above ravine — Descend
89.70	Bottom of gulch 300 ft. below spur, course S. Ascend.
102.25	Top of spur running S 140 ft. high. — Descend
103.78	Intersect N. bdy of Tp. 6. 46 chs. S of cor. of secs. 1-6-7 and 12, as heretofore described, and from which I remove all markings pertaining to secs 6 and 7. — Set a limestone 16 x 14 x 4 ins, 10 ins in the ground for closing cor. of secs. 6 and 7 marked C.C. on E. with 5 grooves on S and 1 groove on N. faces; raised a mound of stones 2 ft. base 1½ ft. high E. of cor. Pits impracticable Land mountainous Soil gravelly and rocky 4th rate No timber Mountainous land 103.78 chs. — July 5. The sky being cloudy during the morn hours I was unable to observe the sun on the meridian. —

N 0° 2' W. on a random line bet. secs. 5 and 6

40.00	Set temp 1/4 sec. cor.
82.90	Intersect N bdy of Tp. 14 chs W. of cor. of secs. 5 and 6 as heretofore described

Thence I run:

S. 0° 4' W. on a true line bet. secs. 6 and 6

Over mountainous land

Ascending gradually on broken W. slope

42.20	Set a limestone 17 x 8 x 6 ins. 11 ins in the ground for 1/4 sec. cor. marked 1/4 on W. faces; raised a mound of stones 2 ft. base 1½ ft. high W. of cor. Pits impracticable
66.00	Top of ridge dividing watersheds of Blacksmith Fork and Left Hand Fork course S.E. and N.W. 200 ft. above sec cor.

Descend to

70.00	Head of hollow 60 ft. below ridge course N. 66° W.

Subdivision of T. 10 N. R. 3 E.

Chains	
	Ascending to-
76.50	Top of ridge runs E and W. 80 ft. above hollow-
	Descending abruptly to-
82.90	The cor of secs. 5-6-7 and 8
	Land mountainous
	Soil gravelly and rocky 4th rate
	Timber scrubby cedar and pine scattering
	Mountainous land 82.90 chs

July 6th: I return to the meridian established June 14 in the S.E. 1/4 of sec 8 of this Tp. and at 4 h 10 m p.m. I put off 41° 36' 30" N on the lat. arc 22° 47' N. on the decl. arc and test the adjustment of my instrument, finding it given the same meridian as before and I conclude the adjustments are still remaining satisfactory-

July 5, 1901.

Retracements in Tp. 10 N R 3 E

July 3: In order to make proper closings of sec. 31 I retrace south- bdy. of said sec as follows From the 1/4 secs. cor. bet. secs. 6 and 31 on S. bdy of Tp. which is a stone firmly set marked and witnessed as described by the surveyor general I run West on a retracement line bet. secs. 6 and 31. and at 63.67 chs intersect W bdy. of T 9 N R 3 E 6.50 chs S. of cor. of Tps 9 and 10 N R 2 and 3 E which is a stone firmly set marked and witnessed as described by the surveyor general The falling answers to a course of N 84° 10' W. and a distance of 64.00 chs. -

July 5th: From the cor. of secs 3 and 10 as heretofore described I run N. 0° 9' E on a retracement line bet. secs. 3 and 4 - at 40.00 chs the 1/4 sec cor bears W. 10 lks dist. being a stone firmly set marked and witnessed as described by the surveyor general; and at 81.45 chs the cor. of secs. 3 and 4 as heretofore described bears W. 21 lks. - The falling answers to a course of North and the distance 81.45 chs. -

Retracements in Tp. 10 N. R 3 E

From the closing cor. of secs. 4 and 9 as before described I run South - bet secs. 9 and 10
At 39.85 chs the 1/4 sec. cor. bears W. 7 lks dist. being a stone firmly set marked and witnessed as described by the surveyor general. - At 79.61 chs, the cor. of secs. 9-10-15 and 16 bears W. 14 lks dist being a stone firmly set marked and witnessed as described by the surveyor general and the course of the line is thereforeS 0° 0' W. distance 79.61 chs

July 5th. 1901

General Description

The portion of this township covered by the present survey is all mountainous land very rough and broken and no part of it is suited for cultivation. - The soil produces native grasses in abundance and good summer pasture But the snow fall very deep prohibiting permanent settlement. -

There are a few small bunches of good pine timber in secs 18 and 19. -

There are no settlers nor improvements nor any quarries nor mines. -

The claim of O A Hanson, applicant for survey of this Tp. found to be located in sec. 6 Tp. 10 N. R. 2 E. - and informed him his land had long been surveyed. -

Andrew P Hanson
U S Dep. Surveyor
